

PBO24 SERIES

**EASY INSTALLATION
WEATHER RESISTANT
STAINLESS STEEL**

**Innovation
Quality
Service**

WWW.BEASENSORS.COM

The PBO24 series push plate allows for easy installation in both new and retrofit applications.

- The PBO24 series is universal to all single gang boxes
- Perfect for applications that are too close to a door frame for a full size square or round push plate
- Beveled edges provide a tamper and vandal resistant solution, allowing no room for objects between the faceplate and the mounting box
- The activation ready design activates by pushing anywhere on the surface
- The standard weather boot between the faceplate and the back plate allows for both indoor and outdoor installation
