

SERVICE PARTS POLICY

CLAIMS: All claims must be made within 10 days of receipt of shipment. All shipments made F.O.B. Monroe, NC (unless otherwise agreed) and risk of loss shall pass to the Buyer upon shipment.

CORE RETURNS: All rebuilt products are priced with “CORE EXCHANGE DUE”. This means a core to be returned shall be the EXACT same product as was purchased with normal wear so that the item can be rebuilt for future sale. The core should be shipped to us as soon as reasonably practical, but no later than 90 days after purchase.

A core charge will be invoiced if the core to be returned is not received by us within 90 days of purchase. If the EXACT same product cannot be returned for some reason, please contact our core department to negotiate a substitution of some other product or products of equivalent value.

RETURNS: A 30% restock charge may be assessed for all unused parts returned to us. Special order items are non-returnable, non-refundable. All returns must be approved prior to shipment and must be shipped prepaid. Credit will be given toward future purchase only and no cash refunds will be given.

REPAIR AND RETURNS: We will replace your unit with the same item from our warehouse to expedite processing while allowing you the advantage of reduced pricing. If the same **exact** item is required back, please submit special instructions. An additional lead time is required for this type of request.

WARRANTY: The warranty for new and rebuilt parts will be **one year** from date of purchase. Wear items are excluded from this warranty. The warranty provides for the replacement or refund only and does not cover any incidental costs incurred by its failure. Warranty is made to the original customer only, and is not transferrable. All warranty products will be shipped back to the customer via UPS Ground at no charge. Freight for return of parts out of warranty will be at the customer's expense.

TECH SUPPORT: ASSA ABLOY Entrance Systems Service Parts is pleased to provide technical support for your staff through our toll-free parts line at 1-888-732-3726 or email address parts.na.besam@assaabloy.com.

Our team of parts experts is on hand to assist you with determining what specific parts of ours, or competitive parts you need for your sliding, swing and revolver door customers.

UNITURN SERIES INTRO

The global leader in
door opening solutions

Uniturn, RDB2

The Uniturn door is a “two wing” revolving door with no center shaft. It is a perimeter drive door, completely supporting the drive frame, display cases and door leafs from its upper drive ring located above the rotating ceiling.

Diameters:

Uniturn 36 = 12 foot diameter revolving door.

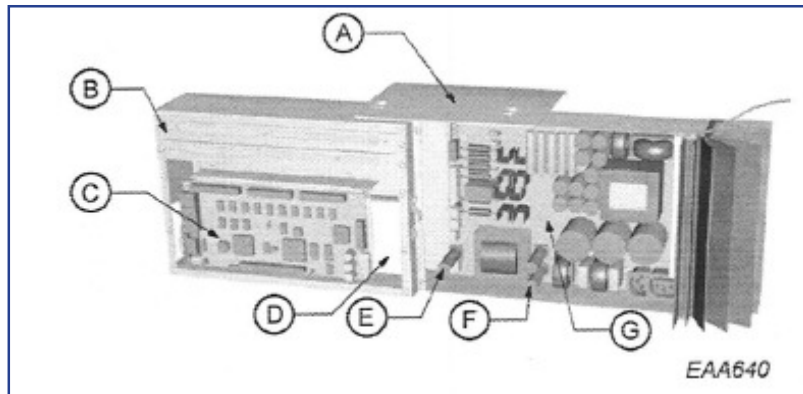

Uniturn 42 = 14 foot diameter revolving door.

Uniturn 48 = 16 foot diameter revolving door.

Uniturn 54 = 18 foot diameter revolving door.

UPGRADE KITS

The global leader in
door opening solutions

1005117 Upgrade Kit from
MCU system to CDC 4.1

Includes:

Control Unit
PCD program control device
Slip Ring
Center connection Plate
Cable Kit

Note:

MCU IE, mechanical lock
needs to be changed to lock for
CDC P/N 260656

264898 Upgrade from CDC
3.0 to CDC 4.1

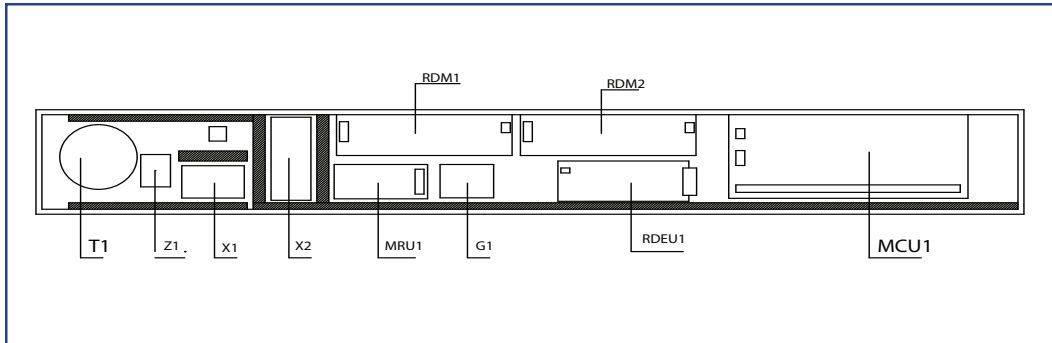

Includes:

Control, CDC 4.1 (265730)
Center Connecting Plate
PCD Extension Kit
Power Cable
Lighting Cable
Motor Plug (2)
E-Stop Plug
1K Resistor

INTRO

RD3M, RD3, RD3A1, KDB3, KDBW3

RD4M, RD4, RD4A1, RD4A2, KDB4,
KDBW4, KDBC

All RD3 or RD4 doors are center post type doors.

The “3” or “4” identifies if the door is a three wing or four wing door.

An “M” identifies the door as a Manual revolving door.

An “A” identifies the door as an Access control door.

A “1” or “2” identifies the door as a one-way Access control door or a two-way Access control door.

Older names are as follows:

RD3/4 = KDB3/4

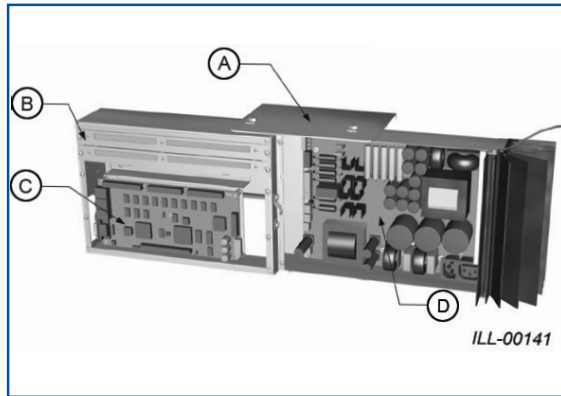

RD3/4A1 = KDBW3/4

RD4A2 = KDBC

EXTRUSION GUIDE

INTRODUCTION

The global leader in
door opening solutions

Extrusion Guide

This section includes commonly used extrusions for Besam equipment and is divided by equipment header, frames/transom, door vertical rails, door horizontal rails and thresholds. Extrusions are available for currently manufactured varieties of Besam equipment.

Glossary of finish terms:

- CL = clear
- DB = dark bronze
- BK = black
- MF = mill

Refer to your most recent extrusion price list for per order charges for cut and prep.

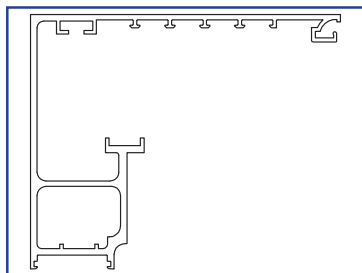

Information Required for Extrusion Orders*	
All Extrusions - Extrusion part # - Extrusion description - Finish - Length - Build to the following project # (if applicable) - Prepped/Unprepped	Door Carriers – UniSlide/ICU - Include carriage wheels - Single slide/bi-part - Hand - o If telescopic, leaf #1 or #2 - FBO/FSL - Carrier width
Jamb Tubes/Slick Tubes - Threshold undercut (y/n) - o If yes, threshold type	Glass Stop - With vinyl/without vinyl
Rails - Type of ball catch - Type of lock prep - Clips in bottom rail (y/n) - Supply lock on rail - Hand - Active leaf/sidelite - FBO/FSL	UniSlide Cover/Sensor Plank Cap - Prepped for 5-position switch in cover (y/n) - Prepped for UltraView sensor in cover (y/n)
* You may use the class 3 extrusion order form or follow this sheet as a guide.
