

Important Announcement to Builders Hardware Customers
of Bommer Industries, Inc.
Monday 07/19/2021

A very difficult decision has been made at Bommer Industries, Incorporated that your firm needs to be informed about. The Board of Directors of Bommer has decided to cease and exit the manufacturing of all of our Builders Hardware items—including all of our hinges, pivots, and specialty hardware. It is our plan that this decision will be implemented in as orderly and responsible a manner as possible.

Bommer plans to keep producing Builders Hardware products to not only meet our current backlog of orders, but also to fulfill additional anticipated orders as a result of this announcement. Bommer currently has on hand a substantial amount of raw material, semi-finished, finished goods, and supply item inventory. We plan to use up as much existing inventory as possible and buy more as needed to have an orderly liquidation of our Builders Hardware operations. The total time required to do this is presently unknown, but it is anticipated to take many months and possibly into next year for certain items. Bommer plans to work with your firm to meet your needs as best we can during this process of transition. Please review your needs for our products and contact our customer service for product availability and to place orders.

Finally, we want to thank your firm for being a customer of Bommer. Some of our customer firms have been buying our products for over 75 + years. We ask for your patience and understanding as we navigate this challenging situation. Bommer has been producing Builders Hardware products for 145 years since 1876 in the United States and this is a very sad day for all of us that have been associated with Bommer.

Sincerely
Peter Frohlich
Chairman and CEO

Sincerely,
Charlie Martin
President and COO
