

## Multi-Tool Grinding Accessories

Applications for this Bosch lineup range from grout removal between closely set tiles to cutting abrasive materials. High-quality carbide grit and diamond-grit blades deliver great performance. Segment blades and a triangle rasp ensure Bosch grinding products can perform any application with precision in tight spaces.

### 3Max™: Three Blades in One

#### The Most Efficient Solution for Grout and Mortar

Easily replace broken tiles by removing grout, joinery and thinset. Offers 90° cornering.

Edges and base are coated with **high-quality tungsten carbide grit** to remove grout and mortar in large spaces and corners

**OIS™ 12-pin system** for high-torque, heavy-duty applications

1. Coated edge for  
tile removal

2. Flat base for  
thinset and  
mortar removal

3. Rasping finger  
for working  
90° corners
