

- Surgical Soap Dispenser
- Foot Operation

Product Materials

- DISPENSER:** ABS plastic.
- COVER:** stainless steel heavy wall tubing.
- CONTAINER:** translucent polyethylene.
- FOOT PUMP:** molded rubber with anti-slip base and 8' vinyl tubing.

Capacity

32 oz. liquid soap.

Operation

Depress foot pump to dispense liquid soaps, aseptic solutions and detergents. Spout rotates 180 degrees. Reservoir unscrews from valve housing for servicing.

- Bradley liquid soap valves operate best with any vegetable oil or coconut oil hand soap having a 10–15% soap concentration.

Installation

Verify all rough-in dimensions prior to installation. Secure to wall with mounting screws (included) at holes provided.

Guide Specification

Foot-operated surgical soap dispenser shall have polyethylene container with stainless steel spout projecting 9" from wall surface. Foot pump mechanism shall dispense soap with each depression of pedal.

Overall dimensions: 11-1/2"H x 9"D.

Washroom Accessories
Document No. 8720

Always consult local and national codes and ordinances before beginning installation. Conformity and compliance to local and national codes is the responsibility of the installer.
