

Aimetis E7000 Series™ Physical Security Appliance combines purpose-built hardware with Aimetis Symphony™ video management & analytics software, creating a high performance intelligent video surveillance platform for installations up to 16 cameras. Its robust fanless design and flexible installation options makes the E7000 Series an ideal solution for space constrained environments such as small footprint retailers, gas stations and harsh environments.

Key Features:

- Wide range of supported camera manufacturers
- Megapixel camera support
- Large internal storage capacity
- Wall or rack mount options
- Small fanless form factor
- No software installation or activation required
- Ready for video analytics

Software Viewing Options:

- Windows Client
- Web
- iPhone / iPad
- Android

Quick and Simple Installation

Designed to minimize installation and setup time, the E7000 requires no software installation or activation. The onboard DHCP and SMTP servers make configuration of isolated camera networks easy.

Easy to Use

With the industry's best combination of video recording, management, analytics and reporting, users benefit by using a single GUI that eliminates the need to jump between multiple vendor products.

Flexible Storage Options

Record video to almost any storage device, including: internal, external (via eSATA), NAS, camera SD card and more. By supporting local camera recording, the overall scalability and availability of the video system increases by allowing cameras to function as redundant storage devices.

Features and Specifications

Model	E7020	E7040	E7020A	E7040A
CPU	Intel® Celeron® 847E 1.10 GHz		Intel® Core™ i7-2655LE 2.2 GHz	
RAM	4GB			
OS	Win 7 embedded on 8GB Flash Drive			
Storage	2TB	4TB	2TB	4TB
Symphony Licenses:				
Standard	8	16	6	14
Enterprise			2	2
Ethernet	2x GbE			
USB	4			
Integrated I/O	8/8			
Monitor Output	VGA			
Extended storage	eSATA, NAS			
ONVIF	Yes			
Network Protocols	DHCP, SMTP, SNMP			
Operating Temp.	0 to 40°C			
Dimensions (mm)	277W x 190D x 67H			
Weight	4.3KG			
Input Voltage	12VDC			
Compliance	CE, FCC, RoHs			
Mounting Kit	Wall (included) Rack (sold separately)			
Warranty	2 year

Aimetis Symphony™ Software

Aimetis Symphony™ is award-winning intelligent video management software that offers an innovative, open IP video platform for video management, video analytics, system integration and alarm management. Aimetis Symphony™ offers support for many leading camera manufacturers, provides a feature-rich, easy-to-use interface and incorporates IT friendly features to make administration simple.

Purpose-Built Hardware Platform

The Aimetis E7000 Series is designed for flexible deployment in any scenario. The embedded Intel® Celeron® or i7 processor provides unsurpassed performance with very low heat generation and minimal cooling requirements, resulting in improved stability and longevity. A tough aluminum case with heat dispersing fins draws heat away from the processor and enables the system to operate in environments not suitable for commercial off-the-shelf PCs. To provide installation flexibility, the E7000 can be wall or rack mounted.
