

Overview

The 503H Card Cage provides a racking solution for fiber-optic modules. It is designed to mount in standard 19-inch (483 mm) instrument racks and can accommodate three 1-inch modules. Rack modules are installed horizontally in the 503H and secured with thumb screws.

Input Power Requirements

The 503H Card Rack requires 13.5 VDC operating power supplied by an external power supply (purchased separately). The power supply chosen must be capable of supplying the input current required by the installed modules. The model 614P External Power Supply is recommended.

Standard Features

- Card cage rack for EIA consoles
- Permits local installation of rack card models
- Mounts in standard 19-inch instrument racks
- Accommodates three 1-inch modules horizontally
- Requires 13.5 VDC power supply
- Requires only 1 Rack Unit (1 RU = 1.75 inches) vertical space
