- > Indoor/Outdoor Vandal Resistant Dome
- > On-Camera Storage
- > Direct-to-Storage
- > 5 Year Warranty

The Alliance-pro is a full featured, multi-megapixel H.264 Main Profile vandal dome camera. With support for up to 5MP resolutions, this camera provides multiple, individually configured H.264 and simultaneous MJPEG streams. Designed with the installer in mind, installation and maintenance is easy thanks to the intuitive design, hinged pivoting shroud, 3-axis gimbal, EZglide lens focus, and analog output for focusing.

The Alliance-pro can be installed virtually anywhere using Power-over-Ethernet or AC or DC power and supports a movable IR filter for day and night operation as well as controls for optimizing video for any lighting condition. Two-way audio allows for interactive communication between the camera and monitoring site. The external on camera micro SDHC memory expansion port in combination with IQrecorder, or Direct-To-Storage recording, make the Alliance-pro a flexible stand-alone platform ideal for motion based recording or remote monitoring.
