Standard Locks for Special Needs

COMPX TIMBERLINE REMOVABLE LOCK PLUG SYSTEM

- Wide Selection of Locks to Fit Most Furniture & Cabinet Applications
- Available in Several High Quality Finishes
- Removable Lock Plugs For Complete Keying Versatility
- Pre-Packaged in Poly-bags for Easy Distribution to Your Customer

Lock Plug + Cylinder Body = Assembled Lock

All Timberline locks consist of two separate components: a Lock Plug, and a Cylinder Body. A Change Tool (D500KY, see page 7) is required to remove lock plugs from the cylinder bodies.

Most Timberline locks are designed for mounting in 3/4" panels, with or without a veneer or laminate face.

Most Timberline locks are used in a 16.5 mm hole (drill bit C165DB available, see page 7). Optional bezels are available (see page 7) that allow use of locks in holes from 3/4" to 7/8" in diameter.

LOCK PLUGS FOR ALL LOCK TYPES

Part No.	Finish	KA Codes*	KD Codes**	Case Quantity	Key Blank
C100LP-14A	Polished Nickel	10	25	25	D300KY

* Measured from center of cylinder to tip of cam in unlocked position

PUSH LOCK C175CB

Application - For locking sliding, bypass type doors. Requires 3/4" hole in front door for cylinder.

Operation - Pushing in cylinder locks doors, with or without key. 45° key rotation allows cylinder to pop back out to unlock doors. Key removable in both locked and unlocked positions.

Keying - Order lock plug separately, see page 2.

Packaging - Supplied with nickel plated finish cup as shown. Housing is black, toughened nylon. Case quantity 25.

THICK PANEL LOCK C170CB

Application - Universal type lock for either doors or drawers that can accommodate panel thickness from 7/8" to 1-3/8" thick.

Operation - 90° cam rotation, CCW to lock.

Keying - Order lock plug separately, see page 2.

Packaging - Housing supplied with straight cam and bent cam. Housings are unplated. Cams are zinc plated. Case quantity 25.

FLIPPER/TAMBOUR DOOR LOCKS

Application - Cam lock with hooked cam for flipper or tambour doors.

Operation - 180° cam rotation, CCW to lock, key removable in both locked and unlocked positions.

Keying - Order lock plug separately, see page 2.

Packaging - Supplied with C181SP-19 strike plate. Housings are unplated, cams are zinc plated. Case quantity 25.

MISCELLANEOUS COMPONENTS

THREADED BARREL CAM LOCK KIT C143CB

Application – Universal type lock for either doors or drawers. Kit will accommodate most locking applications for material thickness 1/16" – 1/2".

Operation – 90 degree cam rotation CCW to lock.

Keying – Order lock plugs separately, see page 2.

Packaging – Cylinder supplied with one straight cam, two bent cams, flange nut, hex nut and spur washer. Cylinder is black, cam plates are zinc plated.
