

## Locks & File Frame for wood furniture & cabinets

# Welcome to CompX Timberline

## What are we all about?

- **Locks for Wood Furniture and Cabinets**

We can lock desks, credenzas, files, store fixtures, lockers, and cabinets of all types.

- **File Frame System for Hanging Files**

Completely engineered, attractive system which maximizes filing capabilities.

- **StealthLock®**

The 1st Keyless, Invisible Cabinet Locking System

- **Made in the USA**

Manufactured and assembled in Grayslake, IL.

- **High Quality & Great Service**

All locks are made from the finest materials ... Our customer service is the best!

- **Next Day Shipment**

Most items ship within one business day.

## Lock Features:

- Small Diameter
- High Quality/Long Life
- 5 Disk Tumbler Lock Plug
- Solid Brass Keys
- Numbered on Face & Keys
- Over 500 Changes
- Master-Keyed
- Removable Lock Plug

# TIMBERLINE REMOVABLE LOCK PLUG SYSTEM

## Complete Keying Versatility

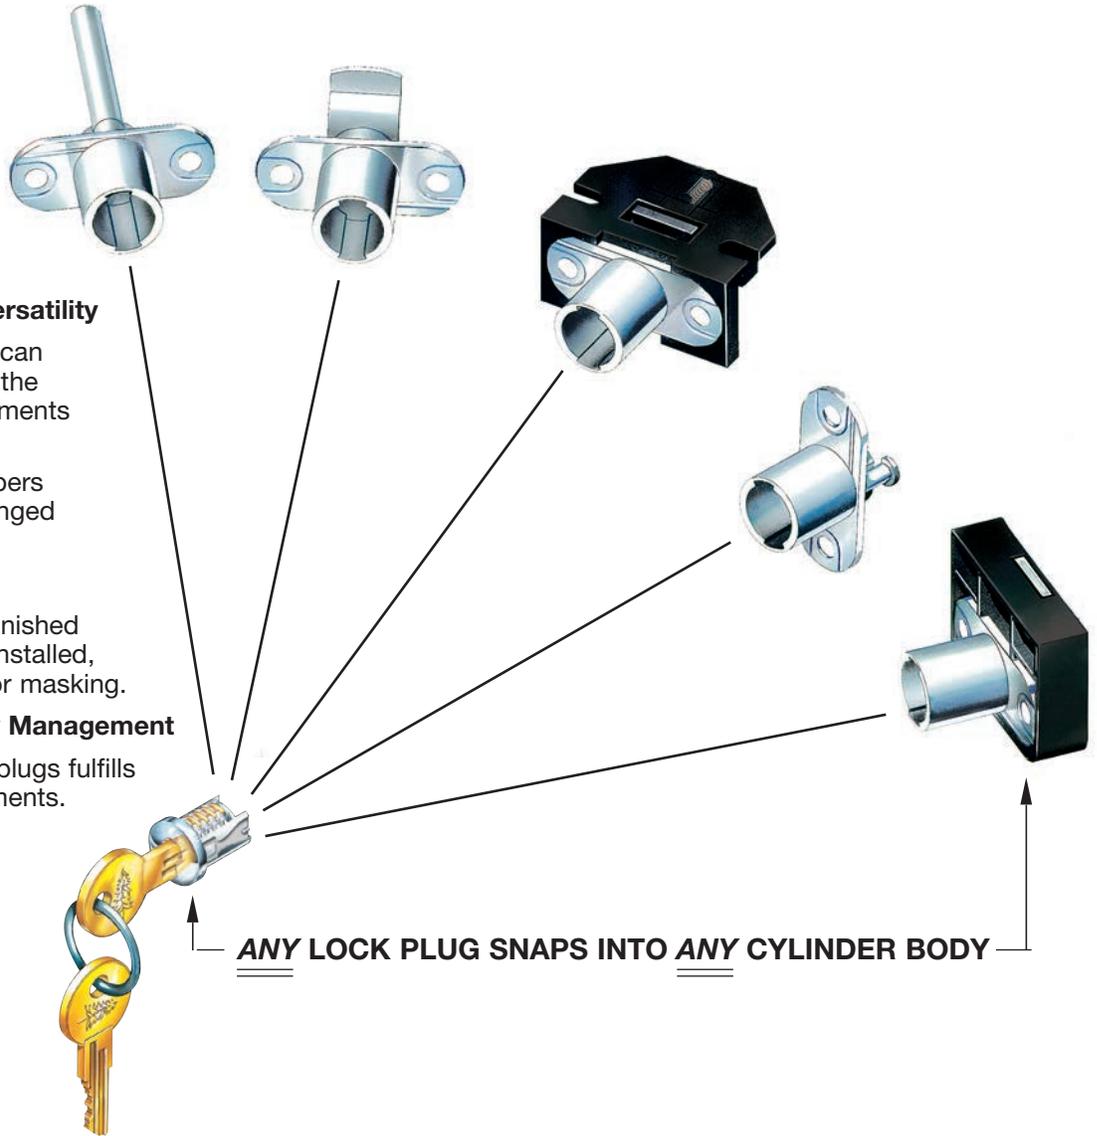

- In Plant...furniture can be keyed easily to the customer's requirements at any time.
- In Field...key numbers can be readily changed by your customer.

## Ease of Finishing

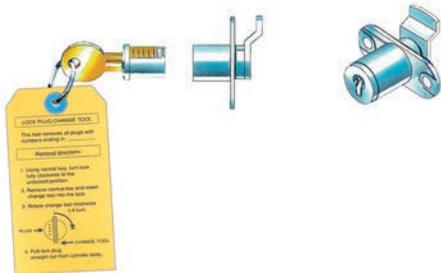

- Furniture may be finished without lock plug installed, eliminating need for masking.

## Simplified Inventory Management

- One stock of lock plugs fulfills all locking requirements.

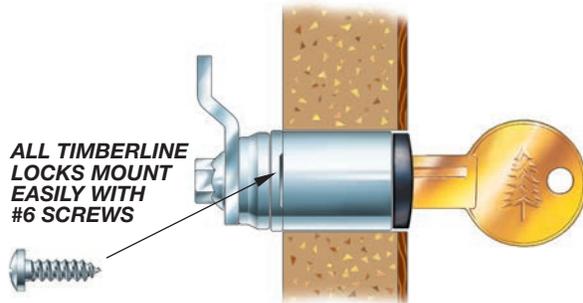

Lock Plug + Cylinder Body = Assembled Lock

A change tool (P/N KY-500) is required to remove plugs. A firm clockwise turn removes the plug.

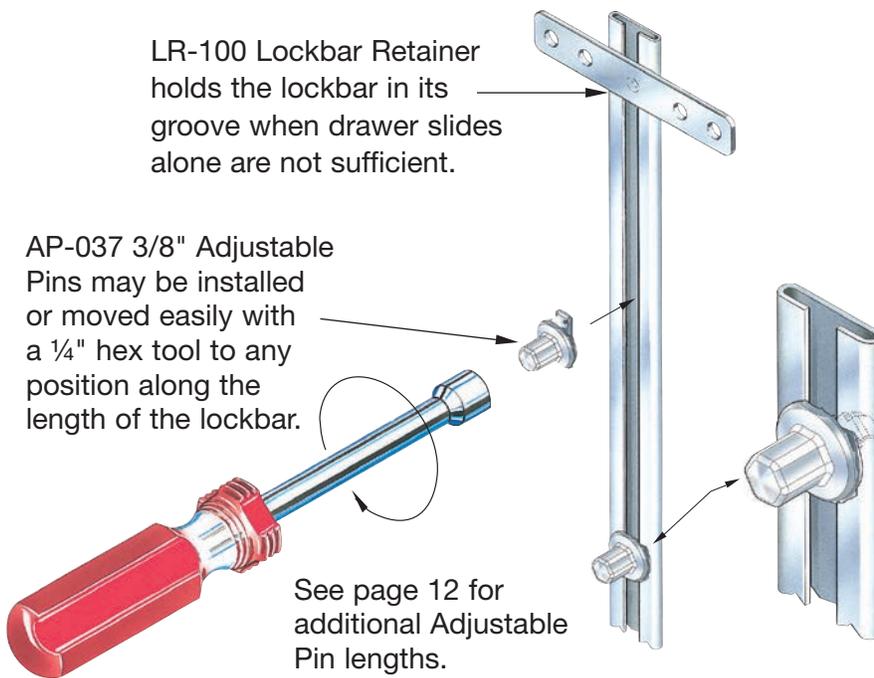

**WHEN ASSEMBLED, MOST TIMBERLINE LOCKS ARE DESIGNED FOR MOUNTING IN 3/4" OR 1" PANELS ... CHECK PRODUCT REQUIRED FOR APPLICATION OPTIONS**

# ADJUSTABLE PIN INSTALLATION

LR-100 Lockbar Retainer holds the lockbar in its groove when drawer slides alone are not sufficient.

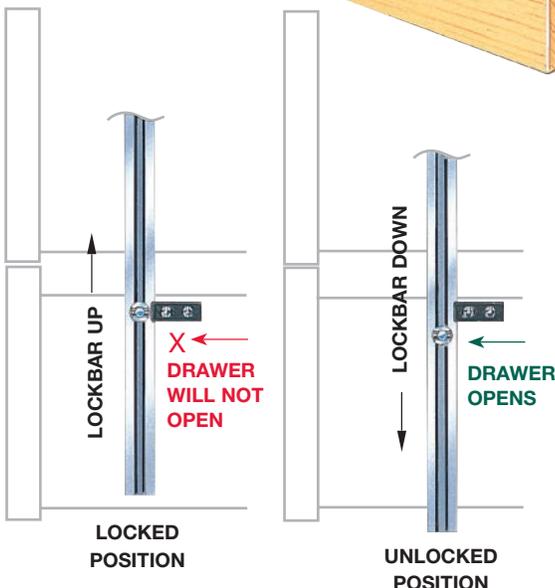

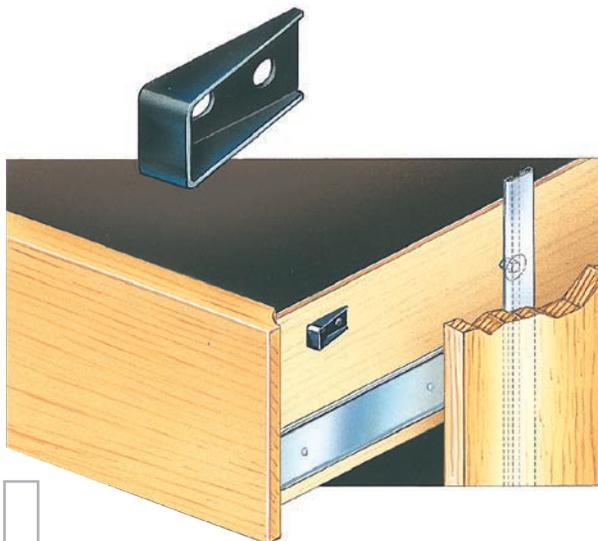

AP-037 3/8" Adjustable Pins may be installed or moved easily with a 1/4" hex tool to any position along the length of the lockbar.

See page 12 for additional Adjustable Pin lengths.

## DRAWER LOCKING

DC-500 Drawer Locking Clips provide the preferred method of locking drawers with 1/2" drawer side clearance.

When used with the AP-037 3/8" Adjustable Pin, a strong, rigid lock is provided.

See page 12 for Drawer Clips designed for 3/4" or 7/8" drawer side clearance and for undermount slides.

## LOCKBAR PART NUMBERS AND SIZING

CompX Timberline Lockbar is ordered cut to the length needed. Cut to length Lockbar reduces labor and scrap and also improves quality / function of the gang and central lock systems.

Part Number LB-120:  
Lockbar with a length 6.000" – 17.999"

Part Number LB-240:  
Lockbar with a length 18.000" – 29.999"

Part Number LB-360:  
Lockbar with a length 30.000" – 41.999"

Part Number LB-480:  
Lockbar with a length 42.000" – 53.999"

When ordering the length of Lockbar, note the correct CompX Timberline part number on the purchase order.

Example:  
LB-240 – 22.500"

**To choose the correct length of Lockbar, CompX Timberline recommends interior cabinet height (-) minus 1.000!"**

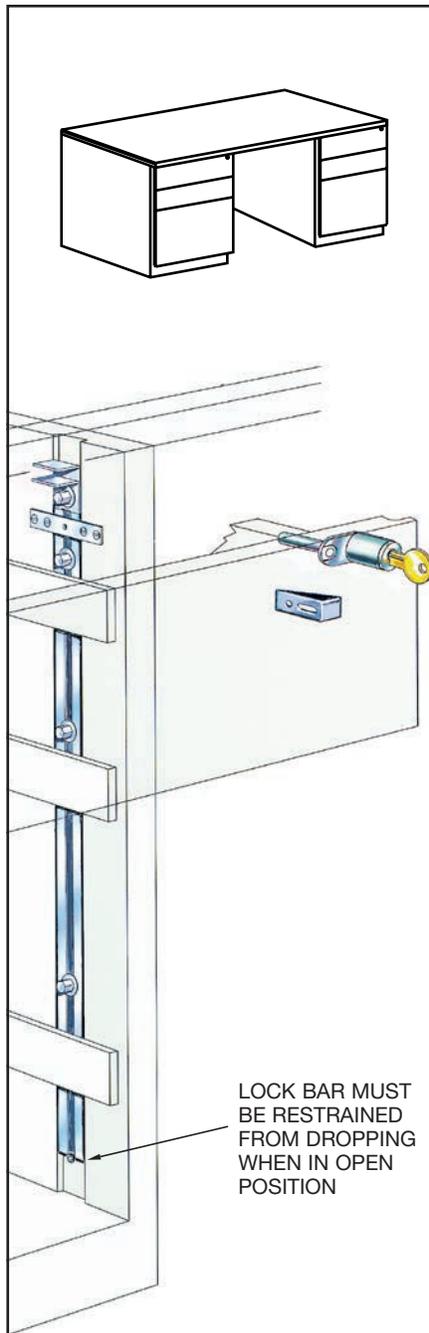

# SYSTEM 101

FRONT MOUNTED GANG LOCK FOR MULTIPLE DRAWERS

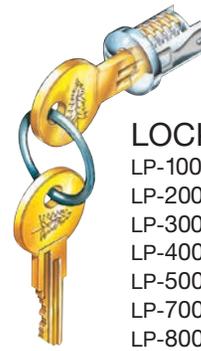

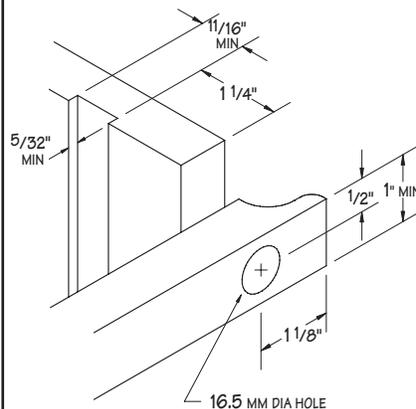

- LOCK MOUNTED IN DRAWER FRONT
- MINIMIZES INTERFERENCE WITH HANGING FILES

- FULL 1/2" LOCKBAR THROW
- FITS WITHIN 1/2" DRAWER SLIDE CLEARANCE
- MINIMAL MACHINING REQUIRED:
  - HOLE FOR LOCK
  - GROOVE FOR LOCKBAR
- SEE PAGE 12 WHEN USING SLIDES OTHER THAN 1/2"

# DRAWER CLIPS

# CUSTOM LOCKBARS

- Manufactured using any CompX Timberline Lockbar Clip, Adjustable Pin or Fixed Pin
- Reduces labor and scrap costs
- Assures Lockbar Clips and locking pins are properly installed
- Custom Lockbar can be manufactured in lengths 11.000" – 60.000"

LOCKBAR ASSEMBLIES CAN INCLUDE BUT ARE NOT LIMITED TO:

FIXED PIN ONLY    LOCKBAR CLIP & FIXED PINS    FIXED & ADJUSTABLE PIN    REVERSE MOUNTED LOCKING PIN

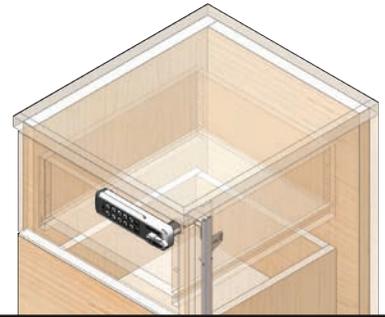

To order Custom Lockbar:

- Requires customer supplied print detailing location of each locking pin or lockbar clip
- 50 piece minimum order quantity

# COMPX REGULATOR FOR GANG LOCKING

- Allows keyless control of gang lock SYS-100, 101 and 104
- See page B140 at [compX.com/sheets/timberline\\_app/B-140.pdf](http://compX.com/sheets/timberline_app/B-140.pdf) for further information
- See page 30 for more information on CompX Regulator

# ANTI-TIP INTERLOCK SYSTEM 400

2-DRAWER LATERAL  
(NO LOCK)

# ANTI-TIP INTERLOCK SYSTEM 400

3-DRAWER BOX, BOX, FILE  
(NO LOCK)

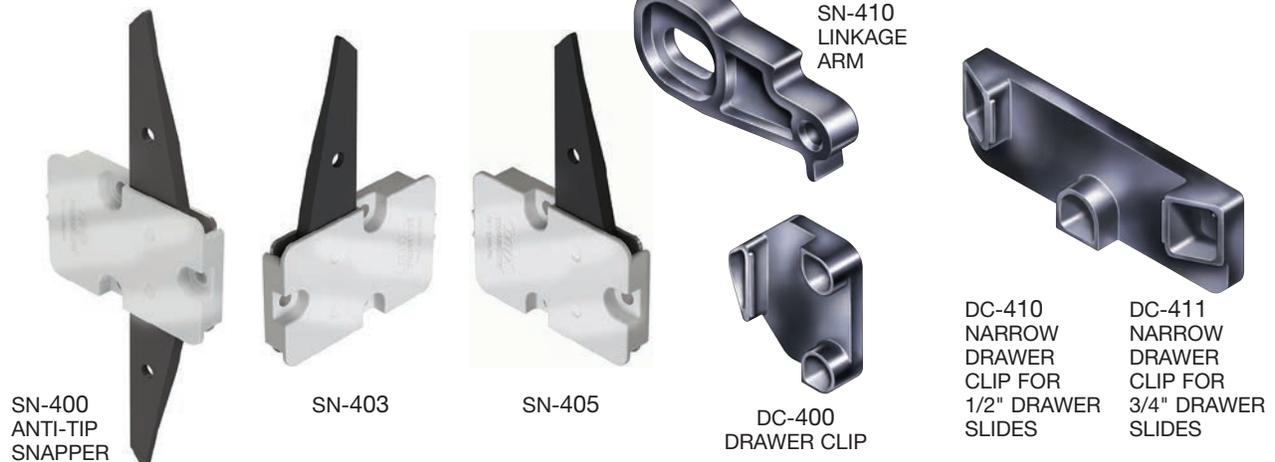

WHEN EITHER DRAWER IS PULLED OPEN, THE DRAWER CLIP ON THAT DRAWER MOVES THE SNAPPER INTO A LOCKED POSITION. THIS PREVENTS ANY FURTHER DRAWERS FROM BEING OPENED.

- Prevents more than one drawer from being opened at a time
- Meets BIFMA standards for strength and durability
- All components are surface mounted
- Wide tolerance accommodation
- Easy to mount and low cost
- Accommodates 1/2" or 3/4" drawer slide clearance

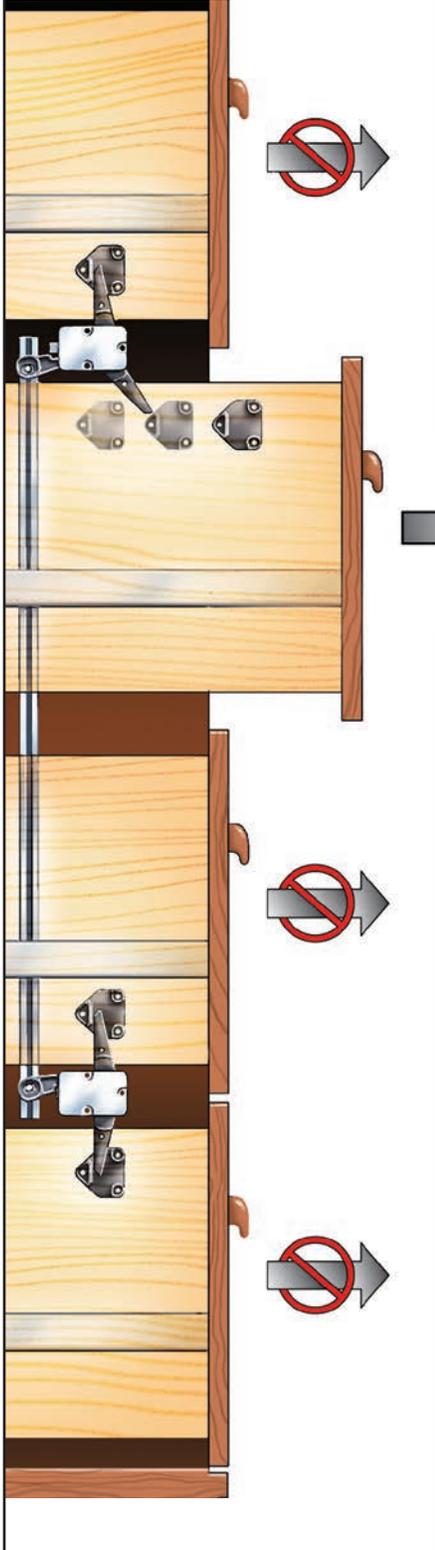

## SYSTEM 400 COMPONENTS

# CAM LOCK KITS CB-165, CB-168, CB-169

**Application** - Universal lock for either doors or drawers. Each kit contains a variety of easily switched cams to accommodate most locking situations.

**Operation** - 90° or 180° cam rotation. Counter clockwise to lock.

**Keying** - Order lock plug separately.

**Packaging** - Cylinder supplied with two straight and two bent cams. Bent cams have setback of 15/32". Cam plates are zinc plated.

These Kits will Replace the Following Timberline Cam Locks:

CB-165 90° Rotation			CB-168 180° Rotation (Horizontal)		CB-169 180° Rotation (Vertical)	
CB-080	CB-083	CB-084	CB-180	CB-183	CB-190	CB-193
CB-085	CB-087	CB-088	CB-184	CB-185	CB-194	CB-195

CB-095	CB-097	CB-098				

## THREADED BARREL CAM LOCK KIT

CB-141 – Nickel Plated Cylinder  
CB-143 – Black Plated Cylinder (shown)

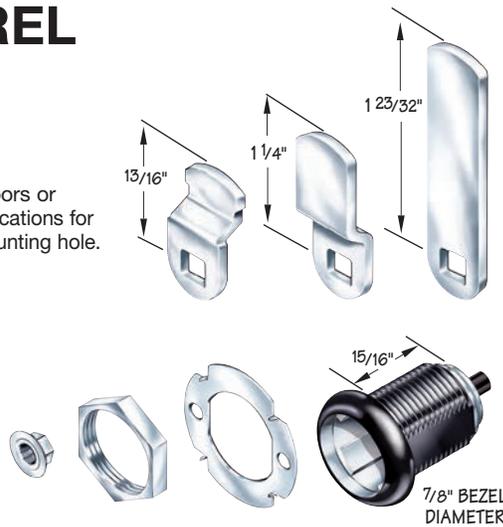

**Application** – Universal type lock for either doors or drawers. Kit will accommodate most locking applications for material thickness 1/16" – 1/2". Requires 3/4" mounting hole.

Industry-standard Double D hole can be used in metal applications.

**Operation** – 90 degree cam rotation. Counter clockwise to lock.

**Keying** – Order lock plugs separately.

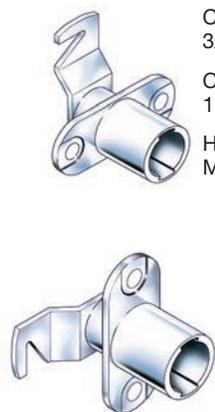

**Packaging Contents** – Cylinder supplied with one straight cam, two bent cams, flange nut, hex nut and spur washer. Cam plates are zinc plated.

# THICK PANEL LOCK TYPE 170

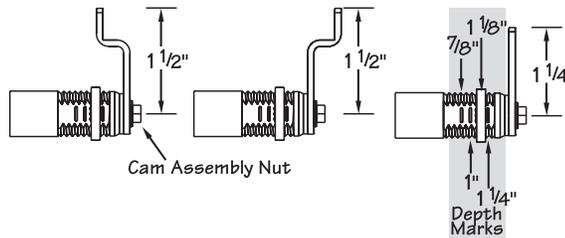

MOUNTING FLANGE ADJUSTS TO ALLOW LOCK TO BE MOUNTED IN PANELS FROM 7/8" THICK UP TO 1 3/8" THICK

**CB-170  
TYPE 170  
CYLINDER BODY**

- REQUIRES 16.5 MM DIAMETER HOLE
- 90° ROTATION ONLY
- COUNTER CLOCKWISE

THE 'THICK PANEL LOCK' COMES PACKAGED WITH 2 DIFFERENT CAMS WHICH CAN BE ASSEMBLED TO THE LOCK IN ANY OF THE 3 ORIENTATIONS ILLUSTRATED TO THE RIGHT. THIS OFFERS SUFFICIENT FLEXIBILITY TO ADAPT TO MOST LOCKING SITUATIONS.

# DOUBLE DOOR LATCH

 Watch the Double Door Latch video at [comp.com/ddl](http://comp.com/ddl)

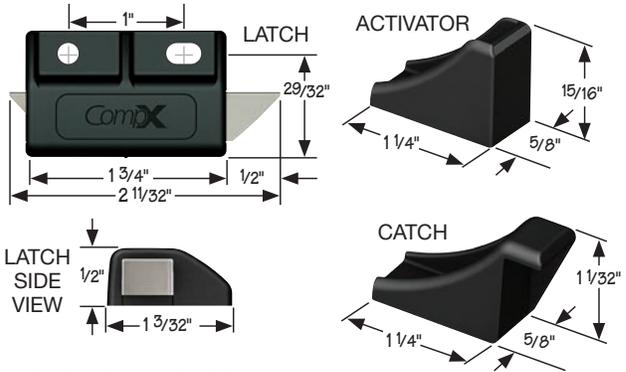

Patented.

EASY TO INSTALL AND CAN WORK WITH ANY STYLE OF CABINET LOCK

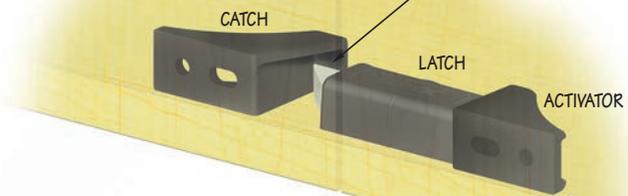

NOTE: DEPENDING ON SIZE OF CABINET, TWO LATCHES (ONE AT TOP AND ONE AT BOTTOM) MIGHT BE REQUIRED

Lock Placement	Top Mount Kit	Bottom Mount Kit
Lock on Right Door	<b>DL-200</b> Black Finish	<b>DL-300</b> Black Finish
	<b>DL-200-W</b> White Finish	<b>DL-300-W</b> White Finish
Lock on Left Door	<b>DL-300</b> Black Finish	<b>DL-200</b> Black Finish
	<b>DL-300-W</b> White Finish	<b>DL-200-W</b> White Finish

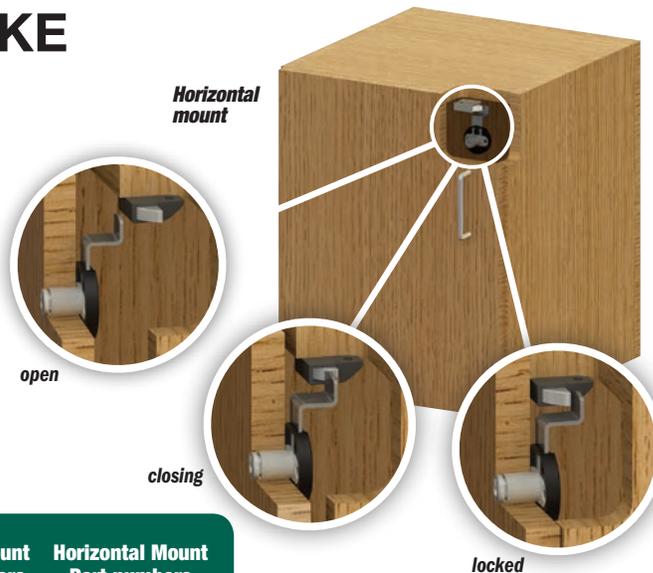

CATCH ON THE SECOND DOOR ACTS AS A SLAM LATCH AND DOES NOT REQUIRE REACHING INTO THE CABINET TO RELEASE

SIGNIFICANT ENGAGEMENT BETWEEN THE CATCH AND LATCH INCREASES SECURITY

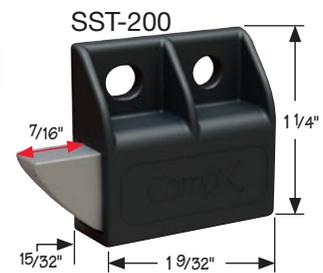

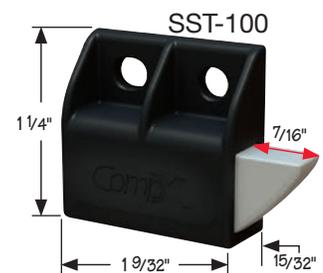

# SLAMSTRIKE

- Helps prevent damage if doors or drawers are closed with the lock in the latched position
- Mount either vertically or horizontally
- For new and retrofit applications (lock sold separately)
- Can be used with multiple drawer locking systems
- Fits within a 1/2" drawer slide clearance

 Watch the SlamStrike video: [comp.com/slamstrike](http://comp.com/slamstrike)

SlamStrike Placement	Vertical Mount Part numbers	Horizontal Mount Part numbers
Hinge on Right	<b>SST-100</b>	<b>SST-100</b> or <b>SST-200</b>

SET SCREW TIGHTENS LOCK TO GLASS DOOR

# SLIDING GLASS DOOR LOCK

- For glass  $\frac{1}{4}''$  and thinner
- TA series master keyed
- Key codes 100TA - 129TA, others available upon request
- Finish bright nickel

Plastisol coating and felt pad eliminate rattling on glass doors

**NEW!**

LOCK PLUG NOT REMOVABLE

# ACCESSORIES

ALLOWS CYLINDER BODIES TO BE USED WITH  $\frac{3}{4}''$  THROUGH  $\frac{7}{8}''$  DIAMETER HOLES AND PERMITS USE OF LOCKS IN  $\frac{7}{8}''$  THICK PANELS

- BZ-100 - Bezel Nickel
- BZ-200 - Bezel Old English
- BZ-300 - Bezel Black
- BZ-400 - Bezel Statuary Bronze
- BZ-500 - Bezel Brass
- BZ-700 - Bezel Satin Nickel
- BZ-800 - Bezel White

**NEW!**

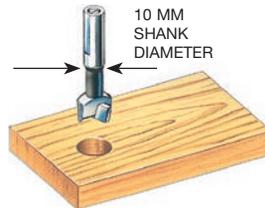

## LP-TK-03 THUMB KNOB

- FOR USE WITH ALL COMPX TIMBERLINE CYLINDER BODIES
- WORKS AS A GENERAL THUMB LATCH WHEN KEYED LOCK PLUGS ARE NOT REQUIRED, AS A SHIPPING PLUG OR AS AN INSERT FOR TESTING LOCKS DURING MANUFACTURING

KY-500 CHANGE TOOL

REQUIRED TO REMOVE LOCK PLUGS IN CYLINDER BODIES

## DB-165 16.5MM DRILL BIT

DRILLS THE PROPER DIAMETER HOLE FOR MOST CYLINDER BODIES

## CC-100 CYLINDER FINISH CAP

COVERS CYLINDER BODY DURING FINISHING BEFORE LOCK PLUGS ARE INSTALLED

## SP-300 SPACER FOR $\frac{5}{8}''$ PANEL

ALLOWS CAM LOCK CYLINDER BODIES FOR  $\frac{3}{4}''$  MATERIAL TO BE USED IN  $\frac{5}{8}''$  THICK PANELS

# COMPX REGULATOR - Keyless locking made easy!

Electronic push button cabinet locks can be installed easily on new or retrofit applications.

For more information about Regulator, visit [compregulator.com](http://compregulator.com)

Self-locking and manual locking are available on both vertical and horizontal versions of Regulator.

**Self-locking version** features SlamCAM (patented), a spring-loaded latching mechanism, which allows the user to push to close – no need to return the knob to the locked position.

**Manual locking version** requires users to rotate the knob into the unlocked and locked position. Manual locking version can be programmed into daily/shared use mode – allows for revolving user selected codes.

### Regulator is easy to use

- 19 user codes and one supervisor code; code length is 4-8 digits

### Regulator is easy to maintain

- 75,000 cycles; extended battery life reduces replacement costs
- Battery compartment is easily accessible from the outside of the cabinet
- Low battery indicator

### Regulator is easy to install

- Four different keypad configurations: left and right hand, vertical and top vertical
- Install on new or retrofit applications
- Uses 3/4" diameter mounting hole

# StealthLock))) - Keyless, Invisible Electronic Cabinet Lock

stealthlock.com

StealthLock works via radio frequency which allows wireless locking of multiple cabinet openings.

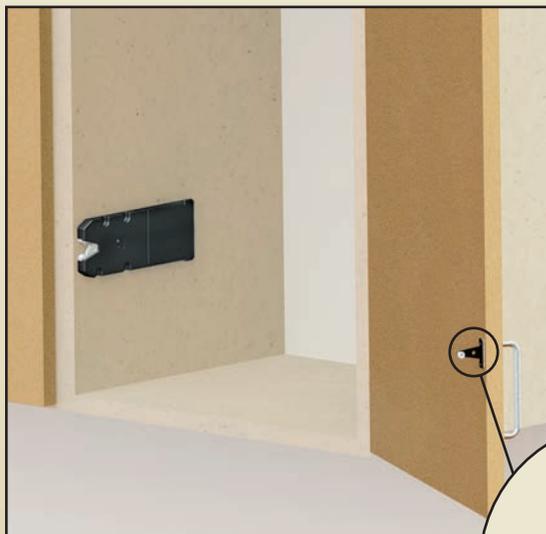

The **Transmitter Pad** broadcasts the code entered to lock or unlock the cabinet door or drawer.

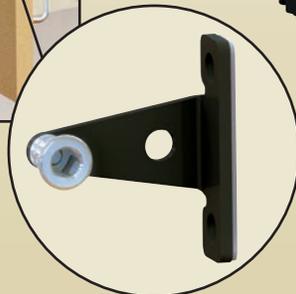

The Transmitter Pad can mount anywhere within 15 feet of the Receiver Latch without wires.

StealthLock is recommended for use on cabinets made from:

- Wood and wood products
- Phenolic Resin
- Glass

The **Strike Plate** is mounted on the door or drawer to be locked and interfaces with the Receiver Latch.

The **Receiver Latch** mounts inside the cabinet, hidden from view and receives lock or unlock instruction from the Transmitter Pad.

## COMPONENTS

### TP-100 – Transmitter Pad

- Operates with CR2032 coin battery, included
- Low battery indicator

Available in two versions:

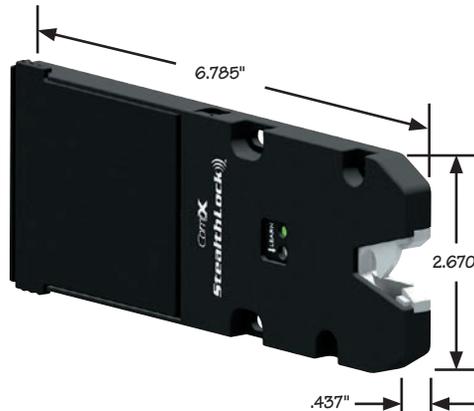

**Standard** – Use for most residential and general commercial applications

**Dedicated** – Use part number TP-150, special factory order, unique Transmitter Pad ID mates a Transmitter Pad to specific Receiver Latches. Ideal for lockers or users within close proximity of each other.

### RL-100 – Receiver Latch

- Programmable using Transmitter Pad
- One required per door or drawer
- Mounts within 1/2" drawer suspension
- Operates with 4 AAA batteries

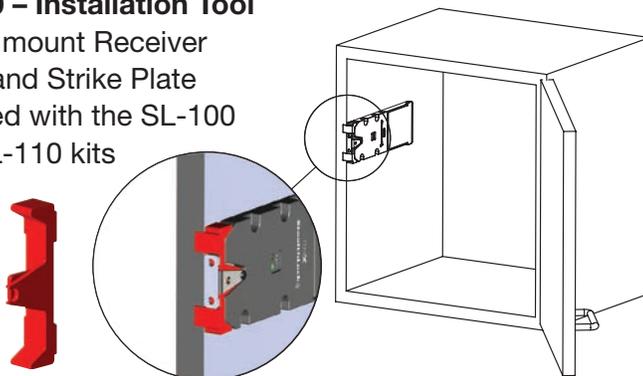

### SP-600 – Strike Plate

- For door and drawer use
- Fits within 1/2" drawer suspension

### TL-600 – Installation Tool

- Use to mount Receiver Latch and Strike Plate
- Included with the SL-100 and RL-110 kits

## KITS

### Standard version

#### SL-100 – StealthLock Kit

- Contains all parts necessary to lock one door or drawer
- Kit includes:
  - ♦ RL-100 – Receiver Latch
  - ♦ TP-100 – Transmitter Pad
  - ♦ SP-600 – Strike Plate
  - ♦ TL-600 – Installation Tool
  - ♦ required mounting screws

#### RL-110 – Receiver Latch Kit

- Contains all parts necessary to lock additional doors or drawers operated by existing Transmitter Pad
- Kit includes:
  - ♦ RL-100 – Receiver Latch
  - ♦ SP-600 – Strike Plate
  - ♦ TL-600 – Installation Tool
  - ♦ required mounting screws

### Dedicated version

#### SL-150 Dedicated Preprogrammed Kits

For medium to large projects

Transmitter pads and receiver latches can be programmed at the factory to a customer-provided schedule. They are then ready for installation. If needed, StealthLock's modes (passage, self-locking and single use) can be reprogrammed after installation.

To download the *SL-150 Preprogrammed Kit: How to Order* sheet, go to **stealthlock.com** or contact us for more information.

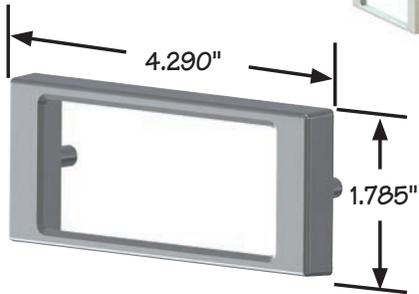

# StealthLock))) - Keyless, Invisible Electronic Cabinet Lock

## ACCESSORIES

stealthlock.com

**MP-700 Satin Nickel (shown)**  
**MP-300 Black**  
**Mounting Plates**

- Mounting screws and template included

Mounting screws fit material 5/8" - 7/8" thick

**MP-700-WM Satin Nickel (shown)**  
**MP-300-WM Black**  
**Wall-Mounting Plates**

Allows mounting plate to be affixed to wall or other surfaces where rear access is unavailable.

## AUXILIARY POWER SYSTEM

**RL-AP1 - Power Supply**

- Connects Receiver Latch to 120 VAC power
- Includes 5-1/2 foot cord

**RL-APC-9VJ-10 - Power Cord - 9V Jump**

- Provides emergency power to Receiver Latch using a 9 volt battery
- 10 foot cord length

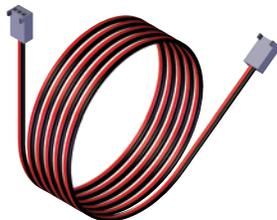

**RL-APC - Power Cord**

- Use to daisy chain Receiver Latches

Available lengths

- RL-APC-3 Power Cord - 3 ft.
- RL-APC-5 Power Cord - 5 ft.
- RL-APC-10 Power Cord - 10 ft.

**RL-AP1 and RL-APC-9VJ-10 can power up to 10 Receiver Latches using the RL-APC Power Cords.**

# FILE FRAME CUT TO SIZE KITS

Available in black or white finish!

**Step 1: Determine kit needed**

**letter kit**

INSIDE WIDTH BETWEEN 12" AND 15"

- Front and back rail; FF-1FL-13.153; 2 per kit
- Cut to size bracket; FF-R25; 2 per kit
- Cut to size cross rail; FF-SKA-25.000; 2 per kit
- Side-to-side rail; FF-LET; 1 per kit

**legal kit**

INSIDE WIDTH GREATER THAN 15"

- Front and back rail; FF-1FL-16.153; 2 per kit
- Cut to size bracket; FF-R25; 2 per kit
- Cut to size cross rail; FF-SKA-25.000; 2 per kit
- Side-to-side rail; FF-LEG; 1 per kit

**Step 2: Attach fixed rail**

TOP OF RAIL SHOULD BE 9.5" MINIMUM ABOVE BOTTOM OF DRAWER

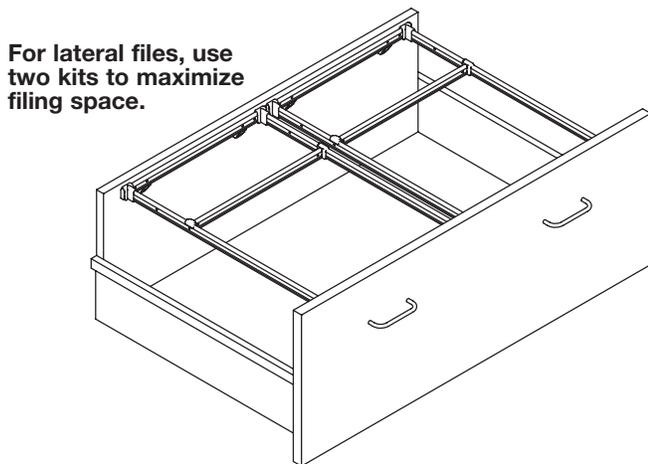

**Step 3: Size, cut & install rails**

CUT TO SIZE BRACKET AT REAR

**Step 4: Install side-to-side rail**

PRE-POSITIONED HOLES IN FRONT-TO-BACK RAILS

ALLOW FOR LETTER OR LEGAL SIDE-TO-SIDE FILING

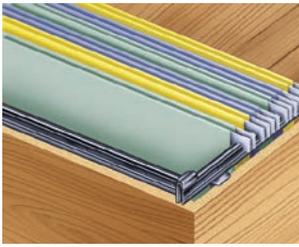

File Frame part numbers		
Finish color	Drawer width: Letter	Drawer width: Legal
Black	FF-SK2	FF-SK3
White	FF-SK2-W	FF-SK3-W

**KITS CONTAIN ALL COMPONENTS NEEDED TO FILE FRONT-TO-BACK OR SIDE-TO-SIDE IN PROPERLY SIZED DRAWERS. FILE FRAME KITS CAN BE USED IN EITHER FULL WOOD DRAWERS OR METAL DRAWER BOX SYSTEMS.**

# FILE FRAME SYSTEM ADVANTAGES

Typical file frame corner

## Great Appearance... Functional Design

- Attractive, black or white material
- Files slide smoothly
  - Will not slide out of position when using files
  - Will not pull out when removing files
- Easy to adjust between filing configurations
  - Rails snap in and out of position without tools

Fits easily into place and slides smoothly to desired lock-in filing configuration

## Cost Effective, Easy to Install, and Reliability of Supply

- Easy to install using only screws
- No machining required
- No need to tape frame system in place during shipping
- Easy to purchase directly from manufacturer
- One week typical lead time

File frame generally ships within one week

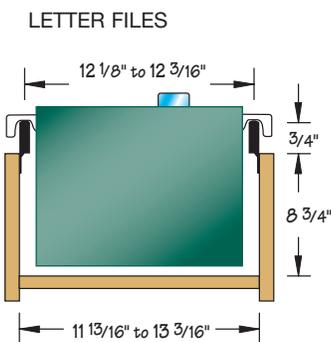

# FITTED FILE FRAME SYSTEM

These File Frame Systems are designed specifically to your individual drawer box sizes. Fitted File Frame systems reduce labor, optimize filing capability,

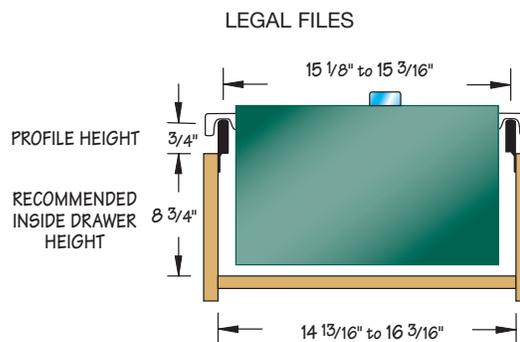

reduce scrap, and enhance the look and function of your file drawers. File Frame Systems can be produced to fit any size or shape file drawer.

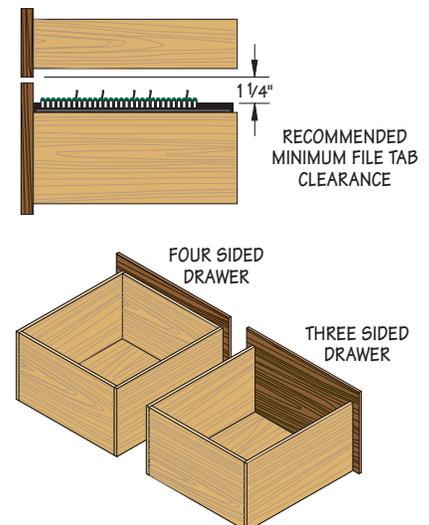

# FILE FRAME FACTS

FILE FRAME SYSTEM CAN PROVIDE PERFECT LETTER FILING WITHIN THESE DIMENSIONS

FILE FRAME SYSTEM CAN PROVIDE PERFECT LEGAL FILING WITHIN THESE DIMENSIONS
