

CRL Plastic Single Pad Vacuum Lifter

Lifting Capacity
66 Lbs. (30 kg)

- **Lightweight Plastic Design**
- **One-Handed Operation**

Our lightweight CRL Plastic Single Pad Vacuum Lifter is easy to attach with its split-handle design for one-hand operation. For its weight and size, it is one of the highest capacity Lifters we sell, developing over 66 lbs. (30 kg) of lift. The pad will adhere to any smooth, non-porous surface. This is a simple, reliable, easy-to-use Vacuum Lifter. Minimum order is one each.

CAT. NO. 05061P

CRL Plastic Double Pad Vacuum Lifter

Lifting Capacity
132 Lbs. (60 kg)

- **Two Individually Operated Pads**
- **Lightweight Plastic Body**

The lightweight plastic body makes this easy to use on almost any surface. Individual lift tabs create suction when pulled down. To release you merely lift the tab upright. The Plastic Double Pad Vacuum Lifter has a load capacity of 132 lbs. (60 kg). The pad diameter is 4-1/2" (114 mm). Minimum order is one each.

CAT. NO. 05062P

CRL Plastic Double Swivel Vacuum Lifter

Lifting Capacity
132 Lbs. (60 kg)

- **Plastic Handle and Double 4-1/2" (114 mm) Vacuum Pads**
- **Movable Pads Self-Adjust to Curved Glass**

The CRL Double Swivel Vacuum Lifter is specially designed for lifting flat glass as well as the positioning and fitting of windshields or truck and bus glass. The strong, plastic body has double-swivel points to allow fast attachment to a wide variety of curved and flat surfaces. Replacement rubber pads for this cup are Cat. No. RR911. Lifting capacity is approximately 132 lbs. (60 kg). Minimum order is one each.

CAT. NO. 911VC

CRL Plastic Triple Pad Vacuum Lifter

Lifting Capacity
220 Lbs. (100 kg)

- **Three Suction Pads Individually Operated**
- **Lightweight Plastic Design**

This plastic-body lifter has three pads that operate individually. Pulling the individual tabs on the pads down creates the suction on the substrate. To release, the tabs are pulled to the upright position. The Vacuum Lifter can be used on almost any substrate. It has the load capacity of approximately 220 lbs. (100 kg). The pad diameter is 4-1/2" (114 mm). Minimum order is one each.

CAT. NO. 05063P
