## CRL Roller Blocks

- Rotate and Support Heavy Sheet or Insulated Glass With Ease
- Turn Over to Use as a Set of Resting Blocks
- Rubber Base Ensures Traction

CAT. NO. RB200

CRL Roller Blocks are made from extremely strong, high-density polyethylene so they won't chip or scratch the glass. They are especially useful for tipping large, heavy sheets of glass 90 degrees vertically. Rubber pads placed inside and outside prevent slippage and provide traction for tipping. Maximum weight per Block is 400 lbs. (181 kg). Minimum order is one pair.

## CRL Glass Grippers

GG1 Single Grip

GG2 Double Grip

With the CRL Glass Grippers two people can easily lift and position large sheets of glass each using only one hand, leaving the other hand free to guide and position the glass into place. The steel frame has serrated vulcanized rubber pads, which tightly hold the glass without slipping, or damaging the glass surface.

CAT. NO.	DESCRIPTION	CAPACITY	QTY/PKG
GG1	Single Grip	220 lbs. (100 kg)	2/Pack
GG2	Double Grip	440 lbs. (200 kg)	1/Pack

Minimum order: 1 pair of GG1, and 1 each of GG2.

## CRL Plate Glass Lifter

- For Lifting and Setting Glass

The popular CRL Plate Glass Lifter is used to lift or position large plates of glass for inserting setting blocks or shims. These work like a reverse pair of pliers to ease in lifting while reducing strain on your back. There is also a rubber pad that protects the glass from the metal pliers. Minimum order is one each.

CAT. NO. 104

## CRL Glass Lifting Sling and Hand Pad

CAT. NO. LGS50  
Glass Lifting Sling

CAT. NO. HG245  
Hand Pad

The CRL Glass Lifting Sling is made from high-strength nylon webbing and has a thick rubber bottom pad. Each side of the sling has a 10-1/2" (267 mm) aluminum handle with rubber grips.

The CRL Hand Pad is a molded, textured rubber pad measuring 4-7/8" x 6-3/4" (124 x 172 mm). This flexible pad is molded with a 1" (25 mm) thumb hole for extra gripping dexterity. Minimum order is one each.

## CRL Plate Glass Lifting Tool

- For Lifting and Setting Glass

The CRL Plate Glass Lifting Tool is used to lift or position large plates of glass for inserting setting blocks or shims. Its uniquely shaped 2-3/4" (70 mm) tip is narrow enough to fit under the glass. Lightweight yet extremely durable, it is made of tough glass filled resin. Overall length is 10-3/4" (273 mm). Minimum order is one each.
