## CRL Wood's Powr-Grip® Low Marking Vacuum Cup

**new**

- Low-Marking Rubber Compound Will Not Mark or Stain Most Surfaces
- Lipped Vacuum Pad Attaches Faster and Easier to Nonporous Flat Surfaces
- Red-Line Indicator Warns User of a Significant Vacuum Loss
- Cast Metal Handle

Lifting Capacity  
125 lbs. (57 kg)

CRL Wood's Powr-Grip® Low Marking Vacuum Cup features all the advantages of the original W Series metal cups plus additional benefits: a cast metal handle provides improved comfort and corrosion-resistance, a lipped vacuum pad attaches faster and easier to all kinds of flat glass products, including pattern glass, and low-marking rubber compound makes glass clean-up simple. Supplied with a protective carrying case. 8" (203 mm) diameter. Minimum order is one each.

CAT. NO. W4800LM

## CRL 7" Curved Glass Vacuum Cup

**new**

- Ideal for Use on Windshields
- Red-Line Indicator Warns User of Any Vacuum Loss
- Durable Metal Handle and Brass Plunger
- Concave Pad for Curved Surface

Lifting Capacity  
70 lbs. (32 kg)

The ideal tool for removing or installing windshields or custom bent glass, the CRL 7" Curved Glass Vacuum Cup provides comfortable and secure handling of glass with its unique style metal handle. Concave pad allows attachment to curved glass found on automobile windshields and can also be used on flat surfaces. Red-Line indicator on brass plunger warns user of any vacuum loss. Lift tab on the edge of the pad permits instant release. Minimum order is one each.

CAT. NO. WH9601HP7B

## CRL Wood's Powr-Grip® High-Elevation Vacuum Cup

**new**

- Designed for Use at Elevations Up to 12,000 Feet (3658 m)
- Blue Plunger Enables User to Distinguish This Vacuum Cup From Standard Cups

Lifting Capacity  
100 lbs. (45 kg)

For years, there has been a void in the vacuum lifting market when it comes to performance at higher elevations. CRL Wood's Powr-Grip's® W4100 is a new breed of vacuum cup that is specifically designed to fill this void and function at elevations up to 12,000 feet (3658 m).

The W4100 features a lightweight, rugged ABS handle that helps prevent user fatigue. It attaches rapidly to smooth, flat nonporous surfaces ranging from glass to metal. While in use, the CRL Wood's Powr-Grip® red-line indicator warns the user of any loss of vacuum. The W4100 is supplied with a protective carrying case. 8" (203 mm) diameter. Minimum order is one each.

CAT. NO. W4100

## CRL Rectangular Single Suction Cup

**new**

- Unique Rectangular Shape Pad
- Swivel Handle
- 6-1/4" x 3-1/2" Pad

Lifting Capacity  
40 lbs. (18 kg)

The powerful suction created by this CRL Rectangular Single Suction Cup can lift small to moderate loads of glass, sheet metal, plastic, or just about any material that has a flat, non porous surface. The rectangular 6-1/4" x 3-1/2" (159 x 89 mm) surface of this cup permits attachment to shapes that are otherwise not permitted by standard round profile vacuum cups. Its large swivel handle assures a positive grip, and the large distance from handle to cup allows users to wear gloves. Strong aluminum body casting, thick cut-resistant rubber pad, and rugged trigger add up to one tough tool. Minimum order is one each.
