DORMA USA quality and environmental management systems in Reamstown, PA and Steeleville, IL are certified to ISO 9001:2008 and ISO 14001:2004.

M9000 – GRADE 1 HEAVY-DUTY MORTISE LOCKSETS

Exceptional security, enhanced aesthetics, and rugged dependability.

These premium performance locksets are built with a heavy-duty mortise chassis for all applications where ANSI/BHMA A156.13 Grade 1 products are required. To meet the aesthetic needs of your project, these versatile locks are available in a range of lever and knob trim designs.

Features

- M9000 Series mortise locks feature advanced design concepts for extreme reliability and are manufactured with the finest materials for exceptional durability.
- M9000 locks provide a wide variety of functions and the most popular finishes.
- Special, high-strength springs and a positive stop eliminate unsightly sagging levers.
- Select components are manufactured with high-strength steel or stainless steel, providing an extremely strong, highly durable lock.
- Trims utilize 5/16" (8 mm) high-strength alloy steel spindles for extra durability.
- Levers, knobs, roses, and escutcheons are manufactured from brass, bronze, or stainless steel.
- All levers—solid cast/forged brass or stainless.
- All roses—wrought brass or stainless.
- Escutcheons—
H: cast/forged brass or stainless.
M: wrought brass or stainless.

Recommended Applications

- Schools and Universities
- Hotels
- Apartments
- Hospitals and Nursing Homes
- Churches
- Municipal Buildings
- Airports
- Retail Complexes
- Offices
- Warehouses

Technical Details

- Standard door thickness 1-3/4"–2-1/4".
- 2-3/4" backset.
- Stainless steel dead bolt with hardened steel roller pins for strength, durability, and saw resistance.
- Security spacer between inside and outside lever hubs in lock case protects lock from unauthorized entry and vandalism.
- Steel lock case and internal components provide additional strength.
- Pivoting face plate allows lock case to fit flat face, standard bevel, and reverse bevel door applications.
- Full length interlocking face plate supports both the latch and dead bolts against forced entry.
- Chassis can be easily handed in the field.

- All trim through-bolted through the lock case for positive alignment.
- Universal non-handed curve lip strike for all functions.
- Premium PVD (physical vapor deposition) finishes for consistent durable color.
- Accepts standard and interchangeable core cylinders.

Certification/ Compliance**ANSI/BHMA**

Meets A156.13 Series 1000, operational and security Grade 1.

Meets A117.1 accessibility code and ADA requirements for barrier-free accessibility.

**UL/CUL – UL 10C Positive Pressure**

All M9000 are listed 3 hour fire rated. Locks are listed for A label and lesser class doors. Hurricane code approved to Miami-Dade County Florida acceptance No. 12-0508.06.

**California State Reference Code** (formerly title 19, California State Fire Marshall standard)

All levers with returns, return to within 1/2" (13 mm) of door face.

Cylinders and Keying

- Unless otherwise specified, cylinders will be provided in SC keyway with two (2) nickel silver keys.
- Optional patented key system available.

Warranty

For details, refer to **DORMA Limited Warranty** on our website at go.dorma.com/terms.

Finishes

- Brass: 605 PVD (Bright) or 606 PVD (Satin)
- Bronze: 612 PVD (Satin) or 613 PVD (Dark Oxidized Satin)
- Nickel: 619 PVD (Satin)
- Chrome: 625 (Bright) or 626 (Satin)
- Stainless: 629 (Bright) or 630 (Satin)

NOTE: Consult factory for finishes not shown.

Antimicrobial Protected Coating
Specify **AM**.**Special Finish Notes**

ANSI/BHMA A156.18 standards describe 613 Dark Oxidized Satin Bronze finish as a category B finish. B category finishes, "do not match from one alloy or form of material to the next and from one manufacturer to the next." The 613 finish may vary between manufacturers' products and models.

In some instances, for customer convenience, the most appropriate BHMA finish symbols are used to indicate similarity of appearance, regardless of base metal or finishing process. Finishes of latches, strikes, cylinders/cores, and visible mounting screws, though similar in appearance, may differ from the finish of the trim. Finish designations in the 600 numbers are the BHMA (Builders Hardware Manufacturers Association) industry standard.

Security Screws

Torx® tamper-resistant screws are available for all exposed screws. Specify **TX**.

Indicates rigid lever.

Function	Series	Outside/Inside	Description
Faculty Restroom/ Hotel with Dead Bolt and Indicator	M9986		<ul style="list-style-type: none"> ▪ Latch bolt operated by key outside or trim inside. ▪ Outside trim always rigid. ▪ Latch bolt retracted by key outside. ▪ Dead bolt projected by turn inside, and all keys, except emergency key, are shut out. ▪ Inside trim operates both bolts simultaneously. ▪ Auxiliary latch or dead bolt deadlocks latch bolt. ▪ Indicator message reads OCCUPIED/VACANT or SECURED/UNSECURED.
Privacy with Dead Bolt and Indicator	M9996		<ul style="list-style-type: none"> ▪ Latch bolt operated by trim either side. ▪ Dead bolt operated by key outside (key required in the event of an emergency) or by turn inside. ▪ Projecting dead bolt locks outside trim, deadlocks latch, and displays OCCUPIED message. ▪ Inside trim operates both bolts simultaneously and unlocks outside trim. ▪ Optional message SECURED/UNSECURED included.

ELECTROMECHANICAL OPTIONS

Electromechanical Functions

- Electrically locked (fail safe).
- Electrically unlocked (fail secure).

Electrical Requirements for Solenoid Functions

- Voltage: 24 VDC regulated, filtered.
- Current: 0.21 A.
- UL and CUL listed for use on fire doors.
- Solenoids are rated for continuous duty.
 - Repeated operation at voltage exceeding $\pm 10\%$ is not recommended.

Monitoring Options

Single pole double throw (SPDT) type C switches, rated 2 A @ 30 VDC

RX — Request-to-exit signaling switch.

- A single switch mounted internally in the lock body that provides independent monitoring of inside lever rotation.
- Available on the following functions: M9010, M9025, M9050, M9080, M9080EL, M9080EU.

When ordering specify **RX**.
Example: M9010RX.

LM — Latch bolt monitor.

- A single switch mounted internally in the lock body signaling latch bolt position.
- Available on the following functions: M9010, M9025, M9050, M9053, M9070, M9071, M9080, M9082, M9080EL, M9080EU, M9080ELRX, M9080EURX, M9082EL, M9082EU.

When ordering specify **LM**.
Example: M9080EURXLM.

RX and LM monitoring available on the following functions: M9010, M9025, M9050, M9080, M9080EL, M9080EU. When ordering specify **RX LM**.
Example: M9010RXLM.

NOTE: Opening the lock case or the replacement of the solenoid or switches in the field by non-authorized personnel voids UL label and lock warranty.

LOCK OPTIONS

Strikes

Standard

5006 — ANSI 1-1/4" x 4-7/8" curved lip strike. 1-1/4" lip length. Default non-handed strike for all M9000 Series lock functions. Strikes are available in the following lip lengths: 7/8", 1-1/2", 1-3/4", 2", and 2-1/4". Includes dust box.

Optional

5007 — ANSI 1-1/4" x 4-7/8" curved lip strike. 1-1/4" lip length. Optional handed strike for the following non-dead bolt functions: M9010, 9040, 9042, 9046, 9050, 9053, 9056, 9070, 9076, 9080, 9080EL/EU, 9080EL/EURX, 9060, 9071, 9077, 9082, 9082EL/EU. Includes dust box.

NOTE: Handed strikes are not available in extended lip lengths.

Tactile Warning (Knurling)

Grooved or knurled levers available on LR, LT and LG designs only. All other lever and knob designs available with abrasive coating only.

Occupancy Indicators

Occupancy indicators for M9000 Series with sectional trim are available for dead bolt applications where door status confirmation is required. Available keyed or non-keyed and can be used outside, inside, or on both sides of door. Emergency override on non-keyed available.

79019 — Indicator for rose trim used with cylinder, reading OCCUPIED/VACANT or SECURED/UNSECURED. Both readings supplied.

79020 — Indicator for rose trim used without cylinder, emergency access, reading OCCUPIED/VACANT.

79021 — Indicator for rose trim used without cylinder, reading SECURED/UNSECURED. No emergency access. Used on inside of door with 79019 on outside.

79022 — Indicator with cointurn for rose trim used without cylinder, reading OCCUPIED/VACANT.

NOTES:

- Occupancy indicators are for use on 1-3/4"-2-1/8" thick doors. Consult factory for thicker door applications.
- Indicators will work on the following functions but may have unexpected operation on lock sets that remain locked when the dead bolt is retracted: M9046, 9056, 9940, 9942, 9953, 9956, 9957, 9959, 9960, 9961, 9962, 9966, 9967, 9968, 9973, 9974, 9980, 9985, 9986, 9996
- Specify Finish. Example: 79019 626.
