

Elcoma products

Our commitment to the highest standards

Elcoma utilizes the most modern techniques in the design and manufacture of commercial, hospital, and washroom specialty equipment. Our commitment to maintain the highest standards of quality control enables our products to not only meet the standards set by federal, state, provincial, or local codes, but to exceed them.

We apply the same rigorous standards of quality fabrication and design expertise to our line of residential products. Our designer product lines reflect the beauty of expert craftsmanship and are available in a variety of modern colors to meet the most demanding customer standards.

Customer safety and total satisfaction are the driving forces at Elcoma. Our history of innovation and continual product improvements, plus our strong commitment to outstanding customer service, have established Elcoma as the preferred source for specialty products. Call Elcoma directly or contact your Elcoma Representative for further information about these specialty fixtures and the many other quality products available from Elcoma. You will find complete product information in our price list, along with information about the Elcoma Representative nearest you.
