MAISON VERVLOET

SINCE 1905

HANDMADE FOR HANDS

Vervloet is an outstanding reference with more than a century of experience in the field of decorative hardware. Every piece of Vervloet's collection is moulded and cast in the purest bronzes and brasses, then chased and finished by highly qualified craftsmen. The company offers a vast range of possibilities. Thousands of models, result of several generations of master bronze craftsmen.

All the different stages of manufacturing (casting, chiseling, adjusting, polishing, gilding) have been integrated in Vervloet's workshop and are carried out by craftsmen for whom "art" still means something. Our process is in no way to be compared with the chain – worked industrial products.

Vervloet pieces produced are real jewels, each one finished by hand.

Every piece of Vervloet's collection is moulded and cast in the purest bronzes and brasses, then chased and finished by highly qualified craftsmen. The company offers a vast range of possibilities. Thousands of models, result of several generations of master bronze craftsmen.

All the different stages of manufacturing (casting, chiseling, adjusting, polishing, gilding) have been integrated in Vervloet's workshop and are carried out by craftsmen for whom "art" still means something. Our process is in no way to be compared with the chain – worked industrial products. Vervloet pieces produced are real jewels, each one finished by hand.

Collection Ballet designed by *Stijn D'hondt* and inspired by ballet dance. For *Stijn D'hondt* Ballet is a field of tension between discipline and frivolity. This was translated into a design where dynamic is the multiplication of the straight lines and the characteristic curve. A feeling that is visibly present and sensible in the hand.

Collection *Bubbles*

Designed by India Mahdavi

EN “Curved shapes are for me the real antidote to all that is cold, bland, to all that which disrupts the natural beauty of life.” Imagined as bubble dreams, India Mahdavi’s Bubbles collection for Vervloet embodies the alliance between simplicity and femininity, through the intersection of pure and absolute geometric shapes: the sphere and the cylinder. Gently perched, like birds on a branch, they transport us in their song.

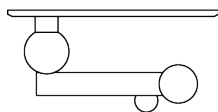

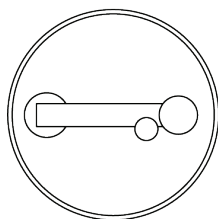

FR « Si j’aime les formes rondes, c’est qu’elles sont pour moi les meilleurs antidotes au froid, au lisse, à tout ce qui rase la vie. » Pensée comme des bubble dreams, la collection Bubbles d’India Mahdavi pour Vervloet symbolise l’alliance de la simplicité et de la féminité, en utilisant des formes géométriques pures et absolues : la sphère et le tube. Comme des oiseaux posés sur une branche, elles chantent et nous emmènent ailleurs.

Tibou is a minimalist design created by Belgium-based designer Quentin de Coster. This is the first collection of hardware for children developed by Vervloet which combines the latest technologies and ancestral know-how. All the elements of the 'Tibou' collection incorporate a small hook on their front face, a simple and innovative second function for lever handles, furniture knobs, to attach to the door, bags, keychain and any other item a kid would bring in his room. Tibou is available in Brass and Nickel.
