# EzyCap

## Cased Opening and Wall End Solution

Cased openings and capping of internal balustrades, window openings and internal partition wall ends are all made easy using EzyCap. Using a slip-fit fixing method, EzyCap simply slides onto the end of the drywall and doesn't require preparation to paint in with the rest of the wall, significantly reducing time and effort during installation and presenting a crisp finished wall end.

As the strong and versatile alternative for stop ends, EzyCap is an economical way to cap wall ends and prevent damage from wear and tear in high traffic areas over time, keeping masterpiece designs intact for years to come.

### Product Details

Part no.	Wall Thickness	Length	Material
EC92-358100-R	3-5/8"	10' 0"	20ga

# EzyReveal

## Premium Square Set Trim Free Window Reveals

Eliminate trims and create pure clean lines for square set interiors using EzyReveal®. Manufactured from cold rolled steel EzyReveal® provides a strong and secure reveal eliminating warping, twisting, cracking and damage from UV rays. Installation is simple. The strong and durable metal rollformed EZ Concept sections have pre-punched perforated sides for fixing and have a specially formulated surface finish for a seamless plasterboard connection.

### EzyReveal Features

- Designed for quick and economical finishing of reveals from 13/16" to 10-1/2".
- 18 standard variants to suit various applications.
- Specially formulated surface finish for seamless connection with plasterboard.
- EzyReveal can be used with PVC finish trim to create custom size reveals.

# AluBase

## Anodized Aluminium Base Board Trim

AluBase® Base board is a modern alternative to traditional timber base boards. Available in two different profiles (shadowline and flat), AluBase is equipped to residential suit modern finishes and commercial office environments.

### AluBase Features

- One piece profile manufactured from high quality aluminium.
- Shadowline Skirting available to suit 1/2" and 5/8" plasterboard.
- Concealed fixing system.
- Crisp 1/2" x 1/2" shadowline recess.
- Perforated bead for trowelled finish with shadowline skirting.
- Excellent resilience to wear and impact.
- Supplied in natural anodised finish.
- Perfect joints are easy with option joiners.
- Baseboard height 4"

### Options for finishing with EzyJamb

### AluBase Options

Flat Skirting  
SK100

Shadowline Skirting  
SLS1290 / SLS5890

# EzyPelmet

## Fast, Economical Recessed Window Pelmet Systems

Adding a new dimension to the internal perimeter of square-set interiors, EzyPelmet® is a two-piece steel pelmet system that makes window blinds disappear, cleverly conceals feature lighting and opens vast panoramas before your eyes. EzyPelmet offers a simple and discrete transition between the interior ceiling and external windows, curtain wall facades or the building structure.

The two-piece, pre-finished steel construction of EzyPelmet makes installation simple, compared to traditional pelmet systems that require time consuming construction methods.

### EzyPelmet Features

- Contemporary, clearview design.
- Flush-finish edge for square-set interiors.
- Completely concealed fixings.
- Does not require fixing from the top.
- Install from below after ceiling.
- Fastest method for creating window pelmets.
- Suitable for blinds, curtain, lights & more.

## Flush Finished Solutions For Architectural Interiors

## Custom Shadowline

### Clean Contemporary Lines

Modern interior design is characterised by clean lines and flush finishes. Shadowline sections provide simple yet effective details to interior spaces, such as ceiling perimeters, doorways and skirting boards, amongst other applications. To create a unique profile for your project EZ Concept presents Custom Shadowline; made to meet your specific size requirements for the perfect fit in your design.

Custom size profile. Please specify sizes when ordering.

### Shadowline Features

- Create the exact shadowline you need.
- Allow for variations in floor height or plaster thickness using a custom formed section.
- Heavy duty material to create a perfect straight and cleanline.
