THE

Hadrian Advantage

FAST, RELIABLE LEAD TIMES, DAMAGE-FREE SHIPMENTS AND COMPETITIVE PRICES

THE CARLU - TORONTO, ONTARIO HEADRAIL BRACED ELITE PLUS POWDER COATED TOILET PARTITIONS

Established in 1983, Hadrian is a worldwide supplier of quality toilet partitions and lockers. With facilities in Mentor, Ohio, Burlington, Ontario and Phoenix, Arizona, Hadrian continues to embrace new technologies and offer architects, designers and end-users more flexibility in design.

YOU DON'T HAVE TO SPEND MORE TO GET MORE

- Hadrian delivers industry leading quality products at market competitive pricing
- Company-wide efficiencies and leading-edge technology enable Hadrian to offer more value
- Hadrian offers the benefit of a local representative working for you in your market
- Hadrian backs all of its products with a comprehensive product performance warranty

99%

ON TIME DELIVERIES

- Great stock programs for Powder Coated, Stainless Steel and Solid Plastic partitions
- Fast, reliable lead times
- Every color paints every week

98%

DAMAGE-FREE SHIPMENTS

- Superior packaging processes ensure product arrives without damage
- Hadrian's Jumbo shipping container (USA) minimizes damage during transit
- On-time and intact means no surprises

Anti-Graffiti

GRAFFITI DOESN'T NEED TO BE A PROBLEM

Hadrian has an effective and affordable graffiti solution! Our durable anti-graffiti powder coated toilet partitions and lockers are your best defense against unsightly graffiti.

Commercial graffiti removers can be used to completely eliminate graffiti without causing damage to the finish. The powder coating retains its original brilliance and no ghost of the graffiti is left behind!

EASILY REMOVE:

- Permanent Marker
- Lipstick
- Water Based Ink Marker
- Wax Crayon
- Spray Paint

Removal is easy as no special manufacturers' graffiti removal kit is required. Commercial graffiti removers are readily available at most hardware, industrial supply and cleaning supply stores.

COLORS:

Hadrian's anti-graffiti finish is available in four popular neutral colors that complement any décor:

826 Kilim Beige

828 Dovetail

829 Desert

833 Tricorn Black

Refer to Hadrian's metal color card for color swatches. Minimum quantities are required for custom colors (solid colors only).

For specification and maintenance information.

Hadrian Green

ENVIRONMENTALLY SAFE PRODUCTS AND TECHNOLOGY

Since its founding in 1983, Hadrian Manufacturing Inc. has been an environmentally responsible corporate citizen. Hadrian takes special care with regard to the environment in all facets of our business, so you can feel good about choosing Hadrian products!

POWDER COATING TECHNOLOGY

Hadrian was the first in the industry to embrace environmentally friendly powder coating technology. Our powder paints are safe on the environment as there is virtually no waste, energy consumption is low and there are no solvent emissions

RECYCLED CONTENT

All of Hadrian's products feature recycled content and can contribute to LEED sensitive projects.

PACKAGING MATERIALS

Hadrian's hardware boxes and locker end-caps are made from 100% recycled material and our triple-ply, corrugated "jumbo" shipping container (USA) is 100% recyclable.

MARKETING COLLATERAL

Hadrian's literature is printed on FSC certified stock, which contributes to the conservation and responsible management of forests.

Project Center

SAVE BOTH WITH PROJECT CENTER

Project Center is your on-demand 24/7 resource for increased productivity. It is a total project management solution for toilet partitions and lockers. With game changing capabilities and incredible ease of use, Project Center automates drawing, quoting, submittals and ordering for Hadrian distributors!

LIGHTNING FAST SUBMITTAL PACKAGES

- Professional, comprehensive and accurate information every time!
- Project-specific drawings, specifications, notes, warranty, maintenance and LEED information
- Change expectations in your market with INSTANT response times

MANAGE EVERYTHING!

- All Hadrian products are available in Project Center
- Manage drawings, quotations, submittals, orders and contact information
- Easily access your projects, quotations and orders for follow up and review

FOR DISTRIBUTORS, BY DISTRIBUTORS

- The envy of the industry, Project Center has been built on distributor feedback
- Project Center is available exclusively to authorized Hadrian distributors
- Hadrian continues to listen to customers and incorporate user suggested enhancements

Website

WWW.HADRIAN-INC.COM

Hadrian's website offers full product information, timesaving tools and a secure login area where Hadrian distributors and sales agents can access key information. The home page offers 1-click access to the most frequently visited areas of the site.

Powder Coated

TOILET PARTITIONS

Offering the best value in the industry, powder coated toilet partitions address the key areas of durability, high recycled content, fire resistance and graffiti resistance – all at an entry-level price!

HIGH RECYCLED CONTENT

With 50% recycled content (36% post-consumer and 14% pre-consumer) Hadrian's powder coated toilet partitions are an excellent choice for environmentally sensitive projects.

INDUSTRY-BEST FIRE RESISTANCE

Hadrian's powder coated metal toilet partitions are completely fireproof and will not give off toxic smoke if exposed to heat or flame.

ANTI-GRAFFITI

With proven ASTM D6578 graffiti resistance, Hadrian's anti-graffiti toilet partitions are your best defense against unsightly graffiti. Graffiti can be removed without damaging the finish or leaving a "ghost" behind.

FAST DELIVERY / IN-STOCK MATERIAL

Hadrian leads the industry with fast lead times and in-stock material.

LOWER UNIT PRICE

One half to one third the cost of plastic-type partitions.

EASIER, LESS COSTLY INSTALLATION

Up to 90% less. Lighter material and pre-drilled pilasters mean only one installer is required.

LARGE SELECTION OF DESIGNER POWDER COATED COLORS

Hadrian's organic polymer powder coated finish is exceptionally maintenance-free and is resistant to abrasions, chemicals, detergents and acids.

SECURE, CONCEALED HARDWARE

Hadrian's hinges and latches are set within the thickness of the door, for sanitary, easy maintenance and modern styling. Hadrian's metal partitions hold fasteners better than other substrates.

DURABLE AND REPAIRABLE MATERIAL

Doors, panels and pilasters will not warp, chip, delaminate or flake and minor damage can be successfully repaired.

Stainless Steel

TOILET PARTITIONS

With long lasting beauty, gleaming modern appearance and easy to clean maintenance, Hadrian's stainless steel toilet partitions are ideal for high moisture conditions, high traffic areas and luxurious end use applications.

HIGH RECYCLED CONTENT

With an impressive recycled content of 91% (76% post-consumer and 15% preconsumer) Hadrian's stainless steel toilet partitions are an excellent choice for environmentally sensitive projects.

INDUSTRY-BEST FIRE RESISTANCE

Hadrian's stainless steel toilet partitions are completely fireproof and will not give off toxic smoke if exposed to heat or flame.

CORROSION RESISTANT

Hadrian's stainless steel is virtually impervious to chemical cleaners, spray washing, and sanitizing agents.

DURABLE MATERIAL

Doors, panels and pilasters will not warp, chip, delaminate or flake.

HYGIENIC

Stainless steel promotes a hygienic environment, which is ideal for public rest rooms.

FINISHES:

#4 BRUSHED STAINLESS STEEL

Hadrian's type 304, #4 brushed stainless steel finish promotes a hygienic environment while offering corrosion resistance and a clean, modern appearance.

EMBOSSED STAINLESS STEEL

Hadrian's embossed stainless steel resists extreme high traffic usage without showing wear. It also offers added protection from abrasions, smudges and fingerprints

HYBRID STAINLESS STEEL - BRINGING BOTH FINISHES TOGETHER

Hadrian can produce stainless steel compartments that feature an embossed interior for increased protection against vandalism and a #4 brushed finish on the exterior to maintain a clean, smooth appearance on the outside. This is a great solution for airports and other high-traffic facilities.

Custom finishes, such as leather-grain, are available upon request.

Solid Plastic

TOILET PARTITIONS

Hadrian's solid plastic toilet partitions are made from durable high density polyethylene (HDPE) material and offer the utmost in strength and durability.

BUILT TO LAST

Made from durable high density polyethylene (HDPE) material, Hadrian's solid plastic toilet partitions are the ideal choice for high abuse facilities such as schools, stadiums, parks and airports.

SOLID CORE WITH NO AIR POCKETS

Hadrian's plastic material features a solid core that does not contain foaming agents, which can cause the formation of air pockets within the material.

DURABLE MATERIAL

Doors, panels and pilasters will not dent, crack, chip, flake or delaminate. Solid plastic is virtually impervious to chemical cleaners.

RECYCLED CONTENT

All of Hadrian's solid plastic colors have a minimum pre-consumer recycled content of 30%.

INDUSTRY LEADING WARRANTY

Guaranteed to stand the test of time, Hadrian's solid plastic toilet partitions carry an industry leading 25-year warranty.

CERTIFIED CLASS B FIRE RATING

Hadrian offers a full range of certified class B HDPE solid plastic colors that meet the requirements of ASTM E 84.

IN STOCK

Hadrian offers 6 popular solid plastic colors from stock, which ship within 5 business days.

FAST LEAD TIMES

Non-stock colors ship within just 2.5 weeks.

Lockers

EMPEROR, GLADIATOR AND REPLACEMENT FRONT LOCKERS

EMPEROR CORRIDOR LOCKERS

The clean lines, durability and smooth, quiet operation of Emperor lockers make them an ideal choice for virtually any facility. Available in a wide range of sizes, tiers and designer colors, Emperor lockers are an attractive and effective storage solution.

- Durable powder coated finish with anti-graffiti colors available
- Rigid double-pan door design with honeycomb core for added impact resistance
- Quiet operation
- Full-length continuous piano hinge
- Divided lockers are also available

GLADIATOR ATHLETIC LOCKERS

With superior strength, airflow, quietness, and a powder coated finish, Gladiators redefine locker room attractiveness. Heavy-duty components integrated with Hadrian's trouble-free and rugged design create the ultimate athletic locker. With fully ventilated doors and sides, Gladiator lockers allow for increased airflow – an absolute must for serious sporting environments.

- Rigid double-pan door design with honeycomb core for added impact resistance
- Maximum ventilation and air circulation
- Quietest athletic locker on the market
- Open front lockers are also available

REPLACEMENT FRONT LOCKERS

Offering all the benefits of Hadrian's rigid double-pan door design, Replacement Front lockers are a cost effective alternative to a complete locker tear-out and new locker installation.

ANTI-GRAFFITI

With proven ASTM D6578 graffiti resistance, Hadrian's antigraffiti finish for lockers is your best defense against unsightly graffiti. Graffiti can be removed without damaging the finish or leaving a "ghost" behind.

Hadrian prides itself on being a professional and friendly company that is easy to deal with. Powder Coated

TOILET PARTITIONS

Low Cost and High Performance - The Best Industry Value

FAST, RELIABLE LEAD TIMES

With great stock programs and lightning fast lead times, Hadrian's powder coated toilet partitions are available to meet any deadline. 99% on time deliveries and 98% damage-free shipments ensure that your toilet partitions are there when you need them.

ENVIRONMENTALLY FRIENDLY

Hadrian's powder coated toilet partitions have an excellent **recycled content of 50% (36% post-consumer and 14% pre-consumer)**, making them a great choice for environmentally sensitive projects.

Hadrian is proud of the fact that its powder coating system is environmentally friendly. There is virtually no waste, energy consumption is low, and there are no solvent emissions.

INDUSTRY-BEST FIRE RESISTANCE

Hadrian's powder coated toilet partitions are completely fireproof and will not give off toxic smoke if exposed to heat or flame. With a CLASS A fire rating, no other product performs better.

DURABLE AND REPAIRABLE

Unlike other materials, powder coated toilet partitions can be successfully repaired should vandalism occur.

Styles

HEADRAIL BRACED

Headrail braced compartments are a great choice for virtually any facility. These units are especially recommended in heavy-use areas such as schools, institutions and industrial settings. The anti-grip top rail deters boisterous activity while ensuring a rigid and secure installation.

CEILING HUNG

Ceiling hung units present a clean, contemporary appearance. They permit quick, easy floor maintenance, especially when combined with wall-hung fixtures. Ceiling hung partitions are recommended for modernization where a drop ceiling or open span construction can be used.

FLOOR MOUNTED

The clean lines of floor mounted units lend an air of spaciousness to these installations. The absence of top structure makes them the ideal choice for high ceiling areas and allows a wide range of complimentary architectural and interior decoration possibilities.

FLOOR TO CEILING

Floor to ceiling units are extremely strong and resistant to abuse as they are securely connected to the floor, ceiling and walls. This configuration is ideal for high abuse areas and installations that require extra durability.

STANDARD SERIES

Hadrian's standard series features 58" high doors and panels, which are mounted 12" off the finished floor.

Available in headrail braced, ceiling hung, floor mounted and floor to ceiling styles.

ELITE SERIES

Hadrian's Elite Series offers increased privacy with 64" (1626mm) high doors and panels, mounted just 6" or 9" (229mm) from the finished floor. Continuous channels eliminate all sightline gaps.

Available in headrail braced, ceiling hung, floor mounted and floor to ceiling styles.

ELITE PLUS SYSTEM

Taking the Elite concept a step further, Hadrian's Elite Plus System affords maximum privacy with 72" (1829mm) high doors and panels, mounted just 6" or 9" (229mm) from the finished floor. Continuous channels eliminate all sightline gaps. Available in headrail braced, ceiling hung, and door to ceiling styles.

SCREENS

extra support.

WALL MOUNTED

Features a 58" (1473mm) high screen and floor mounted pilaster for

Powder Coated Tough!

Hadrian utilizes the latest powder coating technology to apply a hard, even and run-free finish. After a thorough cleaning and phosphatizing process, electrical charges ensure that the powder paint adheres uniformly over the entire product surface. The powder is then oven cured to create an attractive, permanent and consistent finish that covers every area of the product and resists impact, abrasions, chemicals, detergents and acids.

Thicker paint application helps to combat rust. Powder coating allows a greater paint thickness to be applied without compromising surface uniformity. Wet paints simply cannot achieve the same thickness without the threat of unsightly runs and surface irregularities.

The flexibility of powder coating allows Hadrian to offer a wide range of exciting finishes, including special effects, anti-graffiti and custom colors.

ANTI-GRAFFITI

Hadrian's anti-graffiti toilet partitions allow the use of commercial graffiti removers to completely eliminate graffiti without causing damage to the finish. The powder coating retains its original brilliance and no ghost of the graffiti is left behind!

Proven ASTM D6578 Graffiti Resistance

- Permanent Marker
- Lipstick
- Water Based Ink Marker
- Wax Crayon
- Spray Paint

Features

FULL HONEYCOMB CORE

Doors, panels and pilasters are structurally reinforced with 1" (25mm) cell honeycomb bonded from top to bottom and edge to edge throughout their entire core. The honeycomb reinforcement enhances strength, sound absorption, and overall impact resistance.

CLEAN, ATTRACTIVE CORNERS - MITRED, WELDED AND GROUND SMOOTH

Hadrian's "trademark" corners are unmatched for their clean, attractive appearance. The superior strength of Hadrian's full corner weld offers a hygienic seal and prevents parts from loosening and detaching.

BARRIER-FREE LEVER LATCH

Hadrian's exclusive thumbturn lever conforms to American Disability Act requirements and the Canadian Handicap Code. It can be activated with a short, easy movement and without finger-grip application.

SAFETY RELEASE LATCH

Both standard and barrier-free latch designs allow access from the exterior in case of emergency. The design is minimal for appearance, easy cleaning, and resistance to vandalism. The "Hadrian" name assists maintenance staff in locating the source for replacement parts.

METAL HINGE PIN WITH NYLON SLEEVE

The metal core of Hadrian's upper hinge pin provides sturdy support while the self-lubricating nylon sleeve ensures smooth, quiet operation. The threaded pin can be easily removed and reinserted if necessary.

REINFORCED HEADRAIL BRACED PILASTER TOPS

An added 20-gauge channel creates extra strength and twist-free rigidity to minimize the possibility of damage by handling and shipping.

ANTI-GRIP TOP RAIL

Extruded aluminum headrail offers maximum strength, rigidity, and a clean line appearance. Its double-ridge anti-grip design deters boisterous activity and consequent damage, while still offering a smooth track for shower curtain hooks.

LOCKING BAR EDGE MOULDING

All components are tack welded and interlocked under tension with a roll-formed oval crown locking bar for continuous bonding and a permanent, hygienic seal.

CONCEALED HINGE MOUNTING

Hinges are concealed within the thickness of the door, top and bottom, for sanitary, easy maintenance and modern styling. This sleek design eliminates the need for exposed fasteners on the door face.

HIGH QUALITY HARDWARE

All brackets and door hardware components are zinc die-cast and triple plated with copper, nickel and chrome to a gleaming finish. Pilaster shoes are a one-piece welded design of polished stainless steel.

OPTIONS

THE "NO-SIGHTLINE SOLUTION"

Maximizing privacy, Hadrian's "No-Sightline Solution" features a full height continuous stop and hinge side filler to completely eliminate all sightline gaps around the door. The full-length rubber bumper on the stop deadens sound and protects against wear. The versatility of the "No-Sightline Solution" means it can be used in new and pre-existing installations. Substitute the heavy-duty continuous hinge on the hinge side for added strength without compromising privacy.

HEAVY-DUTY CONTINUOUS HINGE

Hadrian's economically priced continuous hinge is ideal for high-abuse areas where extra strength and durability are a concern. Made with heavy-duty 16-gauge material, the continuous hinge is available in powder coated or brushed stainless steel finishes. A stainless steel hinge pin is standard on both models. As an added value, Hadrian's continuous hinge also serves as a "no-sightline" feature on the hinge side of the door.

STAINLESS STEEL HARDWARE PACKAGE

A hardware package with brushed stainless steel wall brackets, hinges and fasteners is available. Standard brackets and hinges are zinc-cast, plated and brush finished to match the stainless steel doors and panels.

Hadrian prides itself on being a professional and friendly company that is easy to deal with. We make it a priority to spend time getting to know our customers and work with them to meet the challenges of their specific market. Our local representatives ensure Architect, Interior Designer, Specification Writer, Government Planner, School Official and End-User sales coverage while also expeditiously addressing field support needs and jobsite concerns.

Stainless Steel

BEAUTIFUL AND LONG LASTING

A NATURAL CHOICE FOR ENVIRONMENTALLY SENSITIVE PROJECTS

Made from minerals of the earth, stainless steel is natural. It is non-toxic and 100% recyclable.

Hadrian's stainless steel toilet partitions have an outstanding recycled content of 91% (76% post-consumer and 15% pre-consumer), making them an excellent choice for LEED and other environmentally sensitive projects. Stainless steel allows you to "build green" without compromising on appearance or performance.

INDUSTRY-BEST FIRE RESISTANCE

Hadrian's stainless steel toilet partitions are completely fireproof and will not give off toxic smoke if exposed to heat or flame. Fire resistance is a critical requirement of most building codes and no other product performs better.

COST EFFECTIVE

Less expensive than composite and phenolic type toilet partitions, stainless steel is a very cost effective option. Stainless steel achieves an upscale look and outstanding performance at an affordable price point.

JP MORGAN CHASE - NEW YORK, NEW YORK, USA 164 CEILING HUNG ELITE STAINLESS STEEL TOILET PARTITIONS

© DAVID GUIJA/EMPORIS

Finishes

The long lasting beauty and gleaming modern appearance of Hadrian's stainless steel toilet partitions lend a touch of class to any washroom environment.

#4 BRUSHED STAINLESS STEEL

Hadrian's type 304, #4 brushed stainless steel promotes a hygienic environment while offering excellent corrosion resistance and a clean, modern appearance.

EMBOSSED STAINLESS STEEL

The unique textured pattern of embossed stainless steel offers added protection against abrasions, smudges and fingerprints.

HYBRID STAINLESS STEEL – BRINGING BOTH FINISHES TOGETHER

Hybrid stainless steel compartments feature an embossed interior for increased protection against vandalism and a #4 brushed finish on the exterior to maintain a clean, smooth appearance on the outside.

Special finishes (such as leather-grain) are available upon request. Minimum quantities may apply.

DURABLE

HYGIENIC

Styles

Hadrian's stainless steel toilet partitions are available in all configurations:

HEADRAIL BRACED

CEILING HUNG

FLOOR MOUNTED

FLOOR TO CEILING

STANDARD SERIES

Hadrian's standard series features 58" (1473mm) high doors and panels, which are mounted 12" (305mm) off the finished floor.

ELITE SERIES

Hadrian's Elite Series offers increased privacy with 64" (1626mm) high doors and panels, mounted just 6" (152mm) or 9" (229mm) from the finished floor. Continuous channels eliminate all sightline gaps.

ELITE PLUS SYSTEM

Taking the Elite concept a step further, Hadrian's Elite Plus System affords maximum privacy with 72" (1829mm) high doors and panels, mounted just 6" (152mm) or 9" (229mm) from the finished floor. Continuous channels eliminate all sightline gaps.

The Ultimate in Privacy

HADRIAN'S NO-SIGHTLINE SOLUTION

Available in a brushed aluminum finish to match the look of stainless steel, Hadrian's "No-Sightline Solution" maximizes privacy by completely eliminating all sightline gaps around the door.

Hardware

STAINLESS STEEL BRACKETS

Hadrian's #4 brush finished stamped stainless steel brackets extend the look and performance of stainless steel to the details of the installation.

STAINLESS STEEL WRAP-AROUND HINGES

#4 brushed stainless steel wrap-around hinges offer durability and flawless performance.

CONTINUOUS HINGE

Hadrian's 14-gauge continuous stainless steel hinge matches the finish of stainless steel partitions while covering the full height of the door. Featuring a stainless steel hinge pin, this heavy-duty option also obstructs the sightline on the hinge side of the door.

CONTINUOUS CHANNELS

Full height continuous stainless steel channels are available for all panel to pilaster, panel to wall and pilaster to wall connections. The full height channels match the finish of stainless steel partitions while also eliminating sightline gaps.

ANTI-GRIP HEADRAIL

Available in a standard anodized finish (shown) or brush finish to complement the look of stainless steel, Hadrian's double-ridge, anti-grip headrail design deters boisterous activity and consequent damage, while still offering a smooth track for shower curtain hooks.

BARRIER-FREE LEVER LATCH

Hadrian's exclusive thumbturn lever conforms to American Disability Act and Canadian barrier-free requirements. It can be activated with a short, easy movement and without finger-grip application.

SHOES

Pilaster shoes are available in both polished and #4 brushed stainless steel finishes.

COAT HOOK

Hadrian offers a flat coat hook with a #4 brushed finish.

FASTENERS

Available in chrome or stainless steel, fasteners are theft-proof 6-lobe security head screws to deter vandalism.

Standard chrome hardware is also available for stainless steel toilet partitions.

Hadrian prides itself on being a professional and friendly company that is easy to deal with. We make it a priority to spend time getting to know our customers and work with them to meet the challenges of their specific market. - Elite and Elite Plus toilet partitions are available in powder coated and stainless steel finishes

THE "NO-SIGHTLINE SOLUTION"

Hadrian's "No-Sightline Solution" features a full height continuous stop and hinge side filler to completely eliminate all sightline gaps around the door. With no exposed fasteners on the exterior, the "No-Sightline Solution" maintains a clean, unobtrusive appearance.

- Full height continuous stop distributes force evenly along the door
- Continuous stop includes a full height rubber bumper to deaden sound and protect against wear
- Metal keeper ensures secure latching and long lasting performance
- Extruded aluminum components are available in powder coated or brushed finish to complement stainless steel
- Available for standard, Elite and Elite Plus toilet partitions
- Can be used in new and pre-existing installations
- A heavy-duty continuous hinge can be used in place of the hinge side filler for extra strength

Hadrian prides itself on being a professional and friendly company that is easy to deal with. We make it a priority to spend time getting to know our customers and work with them to meet the challenges of their specific market. Our local representatives ensure Architect, Interior Designer, Specification Writer, Government Planner, School Official and End-User sales coverage while also expeditiously addressing field support needs and jobsite concerns.

HEADRAIL BRACED WITH PEDESTAL 92" Doors and Panels 4FF 4" or 9"

Since its founding in 1983, Hadrian Manufacturing Inc. has been an environmentally responsible corporate citizen. We take special care with regard to the environment so you can feel good about choosing Hadrian products!

QUALITY YOU CAN COUNT ON

Hadrian's unique locker design features a rigid double-pan, honeycomb reinforced door, full height piano hinge, durable powder coated finish and many other intelligent features to ensure they will look and perform great in any facility. Trust Hadrian for quality you can count on.

₽ 99% ON TIME

On time and intact means no job site surprises. With superior packaging and 99% on time deliveries, your Hadrian lockers will be there when you need them—damage-free!

A ENVIRONMENTALLY FRIENDLY

Hadrian's powder coated lockers have an excellent recycled content of 50% (36% post-consumer and 14% pre-consumer), making them a great choice for environmentally sensitive projects. In addition to the high recycled content of the steel, Hadrian is proud of the fact that its powder coating system is environmentally friendly. There is virtually no waste, energy consumption is low, and there are no solvent emissions.

OUTSTANDING FIRE RESISTANCE

Fire resistance is an important consideration for any public space. Hadrian's powder coated metal lockers are completely fireproof and will not give off toxic smoke if exposed to heat or flame.

Powder Coated Tough!

LATEST TECHNOLOGY

Hadrian utilizes the latest powder coating technology to apply a hard, even and runfree finish that covers every area of the product and resists impact, abrasions, chemicals, detergents and acids. The flexibility of powder coating allows Hadrian to offer a wide range of exciting finishes, including special effects, anti-graffiti and custom colors.

RUST RESISTANT

Powder coated cold rolled steel (which is Hadrian's standard for lockers—with no upcharge) outperforms and resists rust better than liquid painted electro-galvanized steel (which is an upcharge option for other manufacturers). For the ultimate in rust resistant lockers, Hadrian's upcharge option features a full galvanneal product with our superior powder coated finish.

Thicker paint application helps to combat rust. Powder coating allows for a greater paint thickness to be applied without compromising surface uniformity. Wet paints simply cannot achieve the same thickness without the threat of unsightly runs and surface irregularities.

Anti-Graffiti Finish

KEEP YOUR LOCKER AREA LOOKING LIKE NEW

Hadrian's anti-graffiti finish for lockers allows the use of commercial graffiti removers to completely eliminate graffiti without causing damage to the finish. The powder coating retains its original brilliance and no ghost of the graffiti is left behind.

PROVEN ASTM D6578 GRAFFITI RESISTANCE AGAINST:

- Permanent markers
- Lipstick
- Water based ink markers
- · Wax crayons
- Spray paint

The clean lines, durability and smooth, quiet operation of Emperor lockers make them the ideal choice for virtually any facility. Available in a wide range of sizes, tiers and designer colors, Emperor lockers are an attractive and effective storage solution.

DURABLE POWDER COATED FINISH

- Powder coating outperforms other paint processes by applying a hard, even and run-free finish.
- Powder coating is standard on all Hadrian lockers — without an upcharge.
- Doors and frames may be two-toned at no extra charge.

RIGID DOOR CONSTRUCTION

- Doors feature a full 1" (25 mm) thick double pan welded box design for improved rigidity and durability.
- 1" (25 mm) thick cell honeycomb is bonded to the inner surface of doors for added impact resistance and silence when closing.

QUIET OPERATION

 The rigid double pan door design and honeycomb core (spanning the complete width and height of the door) make Hadrian lockers the quietest available.

FULL-LENGTH CONTINUOUS "PIANO" HINGE

 This standard Hadrian feature outperforms knuckle hinge designs by adding durability and keeping the door perfectly adjusted.

SINGLE POINT LATCHING WITH NO MOVING PARTS

- With no moving parts to replace, Hadrian's single point latching system is a "maintenance dream". There are no slide bars, springs, or latch hooks needed, so doors remain properly adjusted and trouble-free.
- Friction catch is standard. Positive latch is also available (with upcharge).

UNOBSTRUCTED VENTILATION

- Louvers in the frame allow for constant, unobstructed air flow that cannot be blocked.
- Perforations in the shelves increase air circulation.

INCREASED DURABILITY (WITH OPTIONAL HEAVY-DUTY DOOR)

• The long lasting durability of Emperor lockers can be further increased with an optional 16-gauge outer pan in the door.

EASY TO INSTALL

- Hadrian's unique 2½" (64 mm) deep frame allows installers more room to work.
- Identically formed and rigid 22 gauge locker tops, hat shelves and bottom shelves are fully interchangeable.
- Your choice of rivets or nuts and screws for assembly.
- Use of rivets for assembly drastically decreases installation time.
- Rivets offer extra strength and a tamper-proof fastening solution.

SHORT LEAD TIMES

 Hadrian exceeds industry standards with short, reliable lead times that you can count on. Hadrian's expedited "Locker Express Program" (at no additional charge) helps you complete rush projects on schedule.

Emperor Locker Sizes

Hadrian's Emperor line of corridor lockers is a versatile system that is available in a wide range of colors, sizes and tiers to meet the storage needs of virtually any facility. Emperor lockers feature Hadrian's rigid double-pan, honeycomb filled door design and intelligent frame venting system, which allows air to flow freely throughout the entire locker without being blocked by interior contents.

HOW TO READ OUR SIZE CHARTS:

¹ Positive latch is not available for 72" (1829 mm) high six tier or 60" (1524 mm) high five tier lockers.

Gladiator ATHLETIC LOCKERS

With superior strength, airflow, quietness, and a powder coated finish, Gladiators redefine locker room attractiveness. Heavy-duty components integrated with Hadrian's trouble-free and rugged design create the ultimate athletic locker. With fully ventilated doors and sides, Gladiator lockers allow for increased airflow — an absolute must for serious sporting environments.

RIGID DOOR CONSTRUCTION

 Doors feature a full 1" (25 mm) thick double pan box design (16-gauge outer/18-gauge inner) for outstanding rigidity and durability.

MAXIMUM VENTILATION

Fully ventilated doors and sides with ½" x 1"
 (13 mm x 25 mm) oval perforations allow for maximum air circulation as well as visual access.

SINGLE POINT LATCHING WITH NO MOVING PARTS

- Hadrian's Gladiators minimize concerns about latching failures in rough athletic environments.
- No moving parts results in safe, secure and maintenance-free operation.
- Friction catch is standard.

HEAVY-DUTY 16-GAUGE CONTINUOUS PIANO HINGE

- This durable continuous hinge is a standard feature on all Gladiator lockers.
- Outperforms knuckle hinge designs by resisting abuse and keeping the door in an adjusted position.

VERSATILITY

- Exposed ends available as solid or perforated.
- Heavier 16-gauge slope tops are available (standard slope tops are 20-gauge).

DURABLE POWDER COATED FINISH

 Gladiators have the same durable, thick and even powder coated finish as Emperor lockers with the same wide array of cutting edge colors.

Gladiator Locker Sizes

Hadrian's Gladiator athletic lockers are a heavy-duty, low maintenance storage solution. With fully ventilated doors and sides, Gladiators allow maximum airflow throughout the locker, which is ideal for sporting environments. Available in a wide range of colors, sizes and tiers, Gladiators can be configured to suit any locker room.

HOW TO READ OUR SIZE CHARTS:

- Exposed ends may be provided with solid or perforated sides.
- 1 Positive latch system is not available for Gladiator lockers.

Replacement Fronts

MAKE AN OLD LOCKER BETTER THAN NEW!

Hadrian's replacement fronts are a cost effective solution for renovation projects. This product brings all the benefits of Hadrian's rigid door design to old existing lockers.

INSTALL IN TWO EASY STEPS!

- 1 Remove the old door, hasp, hinges, and any other components that are proud of the frame.
- 2 Fasten the Hadrian replacement front directly to the old frame.
- 1 Invisible attachment is made with self-tapping screws applied through eight enlarged ventilation louvers. Metal plates welded to the frame channel, flush with its back surface, provide solid joining points. The "front" is only 1½" (29 mm) deep, and the attachment is snug, clean, functionally correct and attractive.

Features

- Ideal, effective, and economic alternative to a complete locker tear out and new locker installation.
- Hadrian's replacement front "re-faces" almost any non-Hadrian brand of locker.
- The replacement front offers the full impact resistant and "silent operation" benefits of Hadrian's heavyduty double pan, honeycomb filled doors.
- Existing locker bodies are utilized, thereby eliminating the possibility of damage to tiling, pipe-work, drywall, etc., while removing old lockers.
- The versatility of Hadrian's replacement front allows you to convert a single tier locker to a double tier locker (or vice versa) with just minor alterations.
- With only 8 fasteners per front, lockers can be retrofit without causing major disruption during class hours. The ease of retrofitting lockers with replacement fronts means the school does not need to be "shut down" and "torn apart" to renovate.

Enlarged louver hole for securing fasteners through the welded attachment plate on back of the replacement front frame and into the original locker frame behind it

Welded attachment plate on back of the replacement front

Specialty Lockers

RECYCLED CONTENT: 36% post-consumer / 14% pre-consumer

Open Front Lockers

Featuring heavy-duty 16-gauge frames and perforated sides, Open Fronts are the ultimate locker for team sporting facilities!

Great for college, professional, club, or Olympic sports venues, Open Fronts are available with many optional upgrades, including: boot locker storage, an upper valuables compartment, extra hooks, and a bench.

Shown with optional upper and lower lockable compartments.

Divided Lockers

Used extensively by police departments, these multipurpose lockers are also used wherever soiled and clean clothes must share one unit and effective ventilation is a necessity. Typical applications are for the meat packing industry, foundries, restaurants and hotels. Special optional features include a drawer with full extension slide (key lock optional), a belt hook, a stainless steel mirror and a night stick receptacle.

1 Optional lockable drawer and coat rod shown above.

Galvanneal Lockers

Utilizing high-end galvanneal material in conjunction with Hadrian's state-of-the-art powder coating process results in a metal locker that can better withstand moist conditions. The powder coating covers every area of the locker, inside and out, to help maximize the rust resistant qualities of the galvanneal.

ADA Lockers

Hadrian lockers can be configured to conform to ADA requirements for accessibility. The pre-drilled hole locations in Hadrian lockers allow shelves to be installed at heights that fall within ADA guidelines (the addition of locker bases will affect the height of shelves). Additionally, Hadrian's standard friction catch and positive latch options allow doors to be operated with one hand and without the need for grasping, pinching or twisting of the wrist.

One of the key items for ADA compliance is lock selection. Hadrian offers several ADA compliant locks.

Custom Applications

The versatility of Hadrian lockers allows for creativity in locker room design. They can be installed in tandem with other material, such as wood paneling, to achieve an upscale and cost effective installation. Because Hadrian's metal lockers hold fasteners and hinges better than wood, combining them with mill worked sides, tops and bottoms communicates sophistication while offering a more durable installation than fully mill worked lockers. Through the connections and resources of Hadrian's worldwide, full service distribution channel, creative projects can be brought to life!

hadrian* | hadrian-inc.com

Accessories & Upgrades

INDIVIDUAL GALVANNEAL BOX BASES

Adding extra strength and height to lockers, the versatility of box bases makes them ideal for installations of any size. Bases are $3\,\%$ " (89 mm) high and recessed $1\,\%$ " (44 mm) from the locker front to allow for toe space and protection against damage from cleaning. To help withstand damp floor conditions, the base is made from galvanneal steel (at no extra change).

CONTINUOUS Z-BASES

Hadrian's continuous Z-base is a heavy-duty locker support option. The durable 14-gauge base is anchored directly to the floor and elevates the lockers to 4" (102 mm) off the ground. Z-bases are available in lengths of 60" (1524 mm).

SLOPING TOPS

In addition to presenting a clean, finished appearance, the angle of the sloping top prevents the accumulation of dust and discourages users from stacking unsightly clutter above the locker.

RECESS TOP & SIDE TRIM

For recessed applications this 3" (76 mm) high trim, for side and top gaps, installs easily. The flat surface of the trim blends with the locker frames for a continuous appearance.

EXPANSION TRIM

For installations where a gap exists at the end of lockers in a corner, expansion trim can be used to enclose the gap. Powder coated to match the frame color, the expansion trim and starter trim are attached to the locker side and wall and slide together to present a clean, uniform appearance.

FILLER PANEL

Hadrian's U-shaped filler panels can be installed to cover gaps that exist between two banks of lockers or to cover pipes or other unsightly building elements. The fasteners for the filler panel are installed from inside the lockers, maintaining a clean exterior with no exposed fasteners.

PLENUM PANELS

Plenum panels are a great trim solution for between walls situations with a large distance between the bulkhead and locker tops. The plenum panels fit securely into U-channels that are fastened to the bulkhead and top of the lockers. The plenum panels sit flush with the locker face (height to suit condition).

FLAT TOP CORNER FILLER

Where lockers meet in a corner and slope top is not used, Hadrian's 24" (610 mm) x 24" (610 mm) flat top corner filler can be cut to suit and installed to cover the gap in the corner and prevent litter from being thrown between the lockers.

DRESS ENDS

Hadrian's dress end panels can be added to locker sides in order to eliminate exposed fasteners and present a clean, uniform appearance. Dress ends can be painted to match the locker frame color and are easily installed with a locking strip.

COAT ROD AND BRACKETS FOR EMPEROR LOCKERS

Hadrian's Emperor coat rod assembly easily installs underneath the locker shelf. The unique bracket design eliminates sharp edges and complements the appearance of the locker hooks.

COAT ROD AND BRACKETS FOR GLADIATOR LOCKERS

Hadrian's Gladiator coat rod assembly fastens securely to the sides of the locker.

hadrian* | hadrian-inc.com

HOOKS

Emperor locker hooks are installed underneath shelves, while hooks for Gladiator lockers are fastened to the side of the locker. Optional double prong hooks are also available.

DRAWERS

A secure valuables drawer with key lock is an available option for most units.

DIAGONALLY EMBOSSED BOTTOM SHELF (WITH DRAIN HOLE)

For installations in moist areas, Hadrian's diagonally embossed bottom shelf with a drain hole allows moisture to escape from the locker. Subsequent damage caused by wetness is minimized.

NUMBER PLATES

Hadrian's standard number plate is made of a durable black plastic. Aluminum number plates are available as an optional upcharge item (not available for locker express program orders).

1 Standard plastic number plate (black) and optional aluminum number plate shown above.

POWER VENTED LOCKERS

For installations exposed to high levels of dust or other irritants, Hadrian lockers can be specially prepared for power venting, which allows a mechanical system (provided by others) to ventilate the lockers. These lockers feature enlarged ventilation holes in the top of the locker and the top louvres in the frame are closed in order to facilitate the system.

FIRE/WASTE FEATURE

Hadrian offers a solution to house a fire extinguisher and/or waste receptacle as part of a bank of lockers. This feature is available for 72" (1829 mm) or 60" (1524 mm) lockers in single and double tier only.

Latch Systems

All of Hadrian's latch systems feature an extruded aluminum lock pocket with a concave and grooved inner left surface for easy finger-tip door control. Number plates are recessed flush with the surface of the door.

Available Options

FRICTION CATCH (MOST POPULAR)

Friction catch is Hadrian's standard latch system. With no moving parts, the friction catch system ensures that doors always remain properly adjusted and trouble-free. The locker can be secured with a padlock.

BUILT-IN COMBINATION

Hadrian's built-in combination latch system integrates a combination lock into the recessed door handle, promoting a secure and clean looking latch area. Several different combination locks will work with Hadrian's system.

POSITIVE LATCH

Hadrian's positive latch system ensures that the locker door latches securely when closed. The positive latch hasp is located within a recessed, extruded aluminum lock pocket for a clean, uncluttered appearance and the locker can be secured with a padlock. Positive latch is not available for 72" (1839 mm) high six tier or 60" (1524 mm) high five tier lockers, Gladiator lockers, divided lockers, or replacement fronts.

1 Other locking options may require custom locker modifications. Contact Hadrian.

Locking Options

Hadrian lockers can be prepared to accept the following locking options.

Padlocks

A) STANDARD DUDLEY PADLOCK

- · Non-keyable
- One combination

B) MASTER 1525 KEY CONTROLLED PADLOCK

- · Supervisory key control
- One combination

Key Locks

A) MASTER 1710 DEADBOLT CYLINDER LOCK

- Manual deadbolt
- Key can be removed in lock position only
- Keyed alike (option) or group keyed (option)

B) MASTER 1710MKADA DEADBOLT CYLINDER LOCK

- · ADA compliant key lock
- Manual deadbolt

C) MASTER 1714MKADA SPRINGBOLT CYLINDER LOCK

- ADA compliant key lock
- · Springbolt automatic locking

Built-in Combination Locks

A) MASTER 1670 BUILT-IN COMBINATION LOCK

- · Manual locking deadbolt
- Master key control
- Five combinations

B) MASTER 1652 BUILT-IN COMBINATION LOCK

• Springbolt automatic locking with extra long locking bolt

C) MASTER 1676MKADA BUILT-IN COMBINATION LOCK

- · Combination lock with ADA compliant key
- Manual deadbolt

D) DIGILOCK ATS-619-01-01 DIGITAL LOCK

- · Must be ordered directly from Digilock: www.digilock.com
- ADA compliant user keys available contact Digilock for details

1 COIN-OPERATED LOCKS

Safe-o-mat coin return and coin collect lock systems must be ordered from Hafele America Co. or Hafele Canada (hafele. com). Coin collect system is not suitable for 6 tier lockers.

1 ALTERNATIVE LOCKS

Alternative locks, such as card locks, may be available for large projects (i.e. over 100 frames). Contact Hadrian for details.

Benches

Locker bench seats are hardwood laminate with a clear lacquer finish and the bench corners and edges are rounded. The aluminum bench pedestals are available with either stationary or free-standing mounting hardware and are powder coated in any of Hadrian's designer colors.

Features

BENCH SEAT DIMENSIONS:

1¼" (32 mm) thick; 9½" (241 mm) wide; available lengths: 3' (914 mm), 4' (1219 mm), 5' (1524 mm), 6' (1829 mm), 7' (2134 mm), 8' (2438 mm) 10' (3048 mm), 12' (3658 mm).

BENCH PEDESTAL DIMENSIONS:

¼" (6 mm) thick; 2½" (64 mm) wide; 16¾" (413 mm) high.

ADA BENCH OPTION

To meet ADA guidelines, Hadrian offers a wider bench complete with four pedestals for additional support.

ADA BENCH SEAT DIMENSIONS:

1¼" (32 mm) thick; 24" (610 mm) wide; 48" (1219 mm) or 72" (1829mm) long.

ADA benches include additional pedestals as shown and are only available with stationary mounting hardware.

exactly as shown.

SOLID COLORS

SPECIAL EFFECTS COLORS (SUBJECT TO UPCHARGE)

837 Black Fox SUBJECT TO UPCHARGE

831 Nickel Metallic SUBJECT TO UPCHARGE

814 Cast Iron Metallic SUBJECT TO UPCHARGE

STAINLESS STEEL TOILET PARTITIONS

Headrail braced type 304, #4 brushed stainless steel (including Elite 6 and 9 inch AFF) toilet partitions are available for Quick Ship and Premium Quick Ship in the USA. Lockers are not available in stainless steel.

CUSTOM COLORS

For custom colors, a minimum of 20 units for toilet partitions and 100 units for lockers is required per color. Custom colors are subject to upcharge

Solid Plastic

TOILET PARTITIONS

BUILT TO LAST

Hadrian's solid plastic toilet partitions are made from durable high density polyethylene (HDPE) material and are the ideal choice for high abuse facilities such as schools, stadiums, parks and airports. Hadrian's partitions are designed to stand strong and overcome abuse. They will not delaminate, dent, flake, crack or break!

CERTIFIED CLASS B FIRE RATING

Not all solid plastic is created equal. Make sure you are getting certified CLASS B solid plastic and accept nothing less when that level of performance is required. Hadrian offers a full range of certified CLASS B colors that meet the requirements of ASTM E 84.

SOLID CORE WITH NO AIR POCKETS

Hadrian's plastic material features a solid core that does not contain foaming agents, which can cause the formation of air pockets.

EASY TO MAINTAIN

From a maintenance point of view, nothing could be easier! Hadrian's solid plastic partitions practically take care of themselves, making them an ideal choice for harsh washroom environments.

GRAFFITI RESISTANT

Hadrian's solid plastic toilet partitions offer excellent graffiti resistance, allowing most graffiti to be removed.

THERE WHEN YOU NEED IT

Hadrian has the right lead times to meet any requirement. Solid plastic toilet partitions ship from stock within **5 business days** and non-stock colors ship within 2.5 weeks. With **99% on time deliveries**, Hadrian continues to set the standard for fast, reliable shipping.

INDUSTRY LEADING WARRANTY

With the best warranty in the business, Hadrian is confident that its partitions will stand the test of time. Hadrian's 25 year solid plastic warranty protects against breakage, delamination and corrosion.

Styles

HEADRAIL BRACED

Headrail braced compartments are a great choice for virtually any facility. These units are especially recommended in heavy-use areas such as schools, institutions and industrial settings. The anti-grip top rail deters boisterous activity while ensuring a rigid and secure installation.

CEILING HUNG

Ceiling hung units present a clean, contemporary appearance. They permit quick, easy floor maintenance, especially when combined with wall-hung fixtures. Ceiling hung partitions are recommended for modernization where a drop ceiling or open span construction can be used.

FLOOR TO CEILING

Floor to ceiling units are extremely strong and resistant to abuse as they are securely connected to the floor, ceiling and walls. This configuration is ideal for high abuse areas and installations that require extra durability.

SCREENS

WALL MOUNTED SCREEN

- · Simple and economical design
- Permits easy maintenance and floor cleaning
- 48" high to meet International Plumbing Code requirements

FLOOR MOUNTED SCREEN

- Supported by a 5" (127mm) floor mounted pilaster
- · Great option for vandal prone installations

Hadrian Green

Since its founding in 1983, Hadrian Manufacturing Inc. has been an environmentally responsible corporate citizen. We take special care with regard to the environment so you can feel good about choosing Hadrian products!

ENVIRONMENTALLY RESPONSIBLE

RECYCLED CONTENT

Hadrian's solid plastic colors all have a minimum pre-consumer recycled content of 30%.

LESS MATERIAL

In addition to having an excellent recycled content, the long life span of plastic means that less material is used over time as facilities do not need to replace compartments every few years.

PACKAGING MATERIALS

Hadrian's hardware boxes are made from 100% recycled materials and our triple-ply corrugated "Jumbo" shipping container (USA) is 100% recyclable.

MARKETING COLLATERAL

Hadrian's literature is printed on FSC certified stock, which contributes to the conservation and responsible management of forests.

Hardware

Hadrian's solid plastic toilet partitions are available with a variety of hardware options to meet the design challenges of any washroom environment.

ALUMINUM HARDWARE (STANDARD)

- Heavy-duty aluminum 8" (203mm) round barrel hinges
- 6" (152mm) aluminum stop and keeper
- Black anodized latch with emergency access feature
- Full height aluminum channels at panel to pilaster connection
- Three heavy-duty aluminum brackets at panel to wall and pilaster to wall connections
- #4 brushed stainless steel shoes
- st Full height aluminum channels at all connections are available as an option.

STAINLESS STEEL HARDWARE

- Full height stainless steel channels at panel to pilaster, panel to wall, and pilaster to wall connections
- Stainless steel continuous hinge
- Stainless steel latch
- · Stainless steel stop and keeper
- #4 brushed stainless steel shoes

PLASTIC HARDWARE

- Full height plastic channels at panel to pilaster, panel to wall, and pilaster to wall connections
- Color of plastic channels matches/complements partitions

CONTINUOUS HINGE

Hadrian's heavy-duty 14-gauge continuous hinge is a great choice for heavy-use facilities such as schools and institutions. This 54" (1372mm) high stainless steel hinge covers the full height of the door and features a stainless steel hinge pin. Fastened to both the door and the pilaster with 6-lobe security head stainless steel through-bolts, the continuous hinge is a true heavy-duty option. As an added bonus, this item also acts as a no-sightline feature on the hinge side of the door.

6

INTEGRAL HINGE

Hadrian's integral hinge system projects a clean, uncluttered appearance. The hinge pin and bottom cam are recessed into the door and pilaster to eliminate the need for exposed fasteners on the hinge side. Inconspicuous and virtually maintenance-free, the integral hinge is a great alternative to Hadrian's standard wrap-around offering. Integral hinge is available for headrail braced style only.

HEADRAIL

Hadrian's easy-to-install cap-over headrail ensures a rigid finished installation. For joining two pieces together, the headrail system features a convenient snap-fit design that does not require extra fasteners.

SHOES

Durable and easy to maintain, Hadrian's 3" (76mm) high stainless steel anchor shoes look great and make installation easy. Ceiling hung and floor to ceiling partitions use 4" (102mm) high stainless steel sleeve shoes only.

VANITIES

Hadrian can supply solid plastic sheet with finished edges for vanities and other applications. Hadrian does not provide brackets or hardware for vanity installation.

FASTENERS

Fasteners are theft-proof 6-lobe security head stainless steel screws to deter vandalism

Hadrian prides itself on being a professional and friendly company that is easy to deal with. We make it a priority to spend time getting to know our customers and work with them to meet the challenges of their specific market. Our local representatives ensure Architect, Interior Designer, Specification Writer, Government Planner, School Official and End-User sales coverage while also expeditiously addressing field support needs and jobsite concerns.
