

### Built-In Gang Locking System – Accessories

#### Rear panel

- > The guides and arresting pins are designed for a bar section measuring 16 × 3 mm (5/8" × 1/4")
- > Hooks are spring loaded, the drawer can be kept open as needed and shut later
- > Hooks are adjustable on the locking bar enabling them to be individually adapted to drawers of varying heights
- > Movement of the locking bar is affected by a roller, mounted at the upper end of the bar and actuated by a wedge-shaped driver
