

Item No.: 505.15.X11

## Angled Countertop Support for Glass Tops

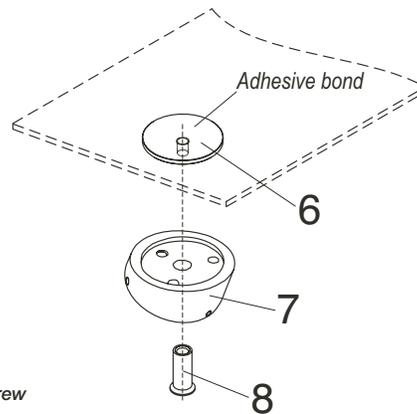

1. Mount lower mounting plate to countertop.

## 2. Mount Uppermounting Plate to Glass Shaft

- a.) Glue supporting plate to glass top.
- b.) Mount fixing-flange with bush nut.
- c.) Mount upper mounting plate with nut #8.

**Attention! Do not overtighten the screw!**  
Please use a screw driver with a blade of 5.5mm and tighten the screw by hand until the head of the screw shows an impression in the slot.

**Adhesive bond:**

**-Note:**

For the choice of a suitable adhesive for the fixing of the supporting plate to the glass top and for the application of this adhesive, please contact your glass supplier.

**Exclusion of liability:**

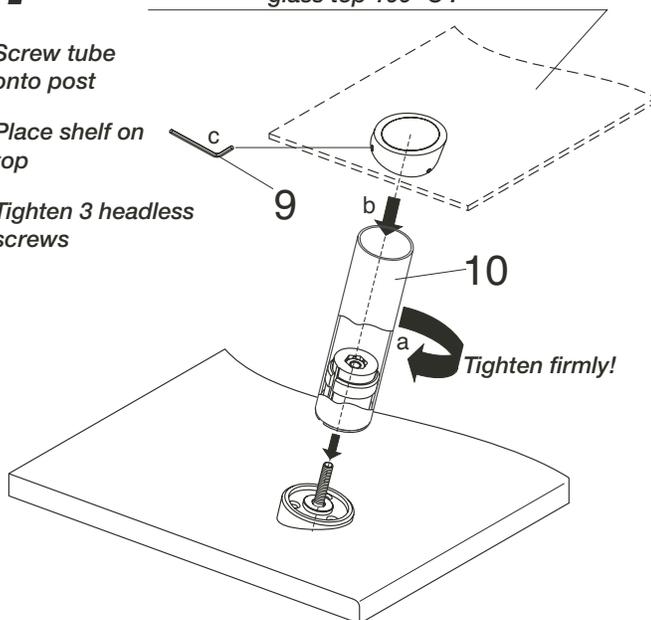

When correctly fixed on glass tops, which are suitable for this purpose, the supporting plate meets requirements known to Häfele on the fabrication and application of furniture. Häfele accepts no liability for the adhesive chosen by the user and the glueing method.

Recommendable adhesives: UV-adhesive "# 003.04.110" (application with transparent glass only!)

## 3.

**Attention: Max. temperature capacity of glass top 100 °C !**

- a.) Screw tube onto post
- b.) Place shelf on top
- c.) Tighten 3 headless screws
