

Slido – Sliding door fittings from Häfele

Häfele supplies sliding door fittings for any application under the Slido brand.

These fittings are particularly outstanding because of the wide range of different combination options.

Slido sliding door systems are available for wall mounting or ceiling installation

There are many different facing options for Slido sliding door systems

Slido sliding door systems can be used for door weights from 40 to 240 kg

Slido sliding door systems are also available with electric drive

Sliding door applications

Fittings for wooden sliding doors

- Space-saving room elements block the view of the areas behind them
- Combination with coloured surfaces
- Modern room design

Variants:

Classic – with these fittings the moving parts and the suspension fittings of the sliding door are hidden and covered

Design – with these fittings the moving parts and the suspension fittings of the sliding door are visible, and can therefore be used as a design feature in the room

Fittings for glass sliding doors

- Space-saving room elements
- Brightness and transparency in the rooms
- Modern room design using coloured or textured glass
- Combination with fixed glass panel elements

Variants:

Classic – with these fittings the moving parts and the suspension fittings of the sliding door are hidden and covered

Design – with these fittings the moving parts and the suspension fittings of the sliding door are visible, and can therefore be used as a design feature in the room

Fittings for folding walls

- Space-saving room elements
- Room division
- Large passageways can be partitioned off
- Space-saving, folded door stack when open

Variant:

Fold – these fittings are suitable for creating folding walls

Soft closing systems from Häfele

Häfele supplies a full range of soft closing mechanisms for hinged doors, flaps and also for sliding doors.

Their ease of installation is truly impressive, and also have the following advantages when they are being used:

- Noise reduction
- Lower accident risk
- Increased operating convenience
- Material-friendly
- Sliding doors that close gently and quietly increase comfort in the living and working environments.
