HandiWALL® vs. MDF Slatwall	57

www.handisolutions.com

HandiWALL® is the cellular PVC slatwall designed to organize your life. Used as a complete wall or as a complement to your existing home storage, HandiWALL® allows a flexible layout that easily adapts to your storage needs.

Keep the garage clean by hanging everything from power tools, sports equipment, rakes, and cabinets on the HandiWALL® system.

If the wall gets dirty, spray it down with a hose. HandiWALL® is impervious to water and the unique profile prevents water from pooling at the bottom of the slat.

HandiWALL® in Homes

HandiSOLUTIONS® offers complete storage and organization systems for garages, utility and laundry rooms, and even basements to fit all of your customers' needs, directly from a single source.

Our storage system includes HandiWALL® slatwall panels, baskets, hooks, shelves, tilt bins, tool holders, folding work bench, trim extrusions, mounting hardware, plus an extensive line of accessory items.

The HandiSOLUTIONS® system is flexible with all storage units designed to be mounted onto the HandiWALL® slatwall and can be easily moved to fit changing needs.

HandiWALL® in Retail

Create custom displays and unique environments to display a vast array of products. HandiWALL®, along with the extensive line of accessories and products we carry, offers convenient product marketing.

With our versatile HandiWALL system, it is easy to design a simple commercial look or create a high end retail design for product merchandising.

HandiWALL® Product Features:

- Manufactured in the **USA** with blended Cellular PVC material that has a flame retardant rating of 94 V-O
- Scratch resistant with normal use, surface scratches are less noticeable due to the material color is throughout the product
- 4 panels per carton in 8' lengths, 8 panels per carton in 4' lengths = 32 square feet
- Color coordinated installation screws and trim available
- Color-matched color strips allow the screws to be completely hidden
- Smooth satin finish gives high end aesthetic appeal
- Compatible with standard slatwall accessories
- Water and moisture resistant
- Custom lengths available
- Strong and durable
- Easy to clean

HandiWALL® Technical and Quality Attributes:

- Fire tested by an independent laboratory (ASTM E84 Test) ranks HandiWALL® in Grade A (index of 15) for flame spread
- 3" on center slats, 12 1/4" high (includes 1/4" for tongue and groove connection)
- Meets our **ISO** Certified manufacturing process and is quality tested to be compliant with the ISO 9001:2008 standard:
 - ✓ Length, Form, Fit and Function including shape of slats, connection of panels, assembly of slatwall accessories
 - ✓ Incoming Quality Control for color and materials requirements for lot consistency
 - ✓ Strength testing every production run via in-house calibrated fixture
 - ✓ First piece inspection to match control plan specifications
 - ✓ Product is measured for conformity to requirements:
 - Final Audit of manufactured product
 - In Process inspections
 - Color match
 - Length

HandiWALL® Product Dimensions

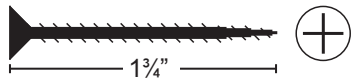

We offer a variety of steel screws in different colors, sizes and types for all HandiWALL® applications. Select from our drywall screws, deck screws and flat head Tapcon screws ranging from 1½" up to 2½" inches. We color match the screws to the varied HandiWALL® colors to ensure a seamless application and overall appearance. Their steel construction ensures a heavy-duty installation.

Handi Color Strips

Color Strips

Color strips are a fantastic way to add an appealing accent color to any size section of HandiWALL®. And with the addition of Color Strips to match the color of the HandiWALL®, you can completely hide the screw. Great for retail branding or enhancing the look of any garage or residential space.

No glue or adhesive necessary, simply push the color strips into the HandiWALL® grooves. Color strips will not affect installation of accessories.

HandiLED ThinLUX™ Lighting

HandiLED ThinLUX™ Lighting

Illuminate work surfaces with HandiSOLUTIONS® highly efficient ThinLUX™ LED lighting. Made in the USA, the patented ultra-thin LED assembly is only 0.200" H x 0.580" W, keeping the light strip nearly invisible while washing your work surfaces with 500 to 1000 lumens of warm white light.

High-quality LEDs are fully encased and sealed in a unique, durable, co-extruded polycarbonate lens manufactured by Custom Plastics, Inc. Available with either hi-bond tape or magnetic back, ThinLUX™ can be easily and reliably attached to any surface.

HandiLED ThinLUX™ Lighting

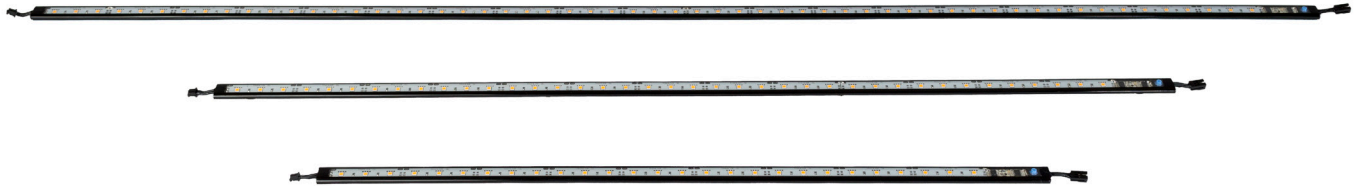

PART #	DESCRIPTION
HS-TL1020M	HandiLED ThinLUX™ LED Light Kit, 20", Magnetic
HS-TL1020T	HandiLED ThinLUX™ LED Light Kit, 20", Tape
HS-TL1028M	HandiLED ThinLUX™ LED Light Kit, 28", Magnetic
HS-TL1028T	HandiLED ThinLUX™ LED Light Kit, 28", Tape
HS-TL1040M	HandiLED ThinLUX™ LED Light Kit, 40", Magnetic
HS-TL1040T	HandiLED ThinLUX™ LED Light Kit, 40", Tape
HS-SL1-20WW12-M	HandiLED ThinLUX™ LED Light, 20", Magnetic, Light only
HS-SL1-20WW12-T	HandiLED ThinLUX™ LED Light, 20", Tape, Light only
HS-SL1-28WW12-M	HandiLED ThinLUX™ LED Light, 28", Magnetic, Light only
HS-SL1-28WW12-T	HandiLED ThinLUX™ LED Light, 28", Tape, Light only
HS-SL1-40WW12-M	HandiLED ThinLUX™ LED Light, 40", Magnetic, Light only
HS-SL1-40WW12-T	HandiLED ThinLUX™ LED Light, 40", Tape, Light only
HS-TLWPV18W-12	HandiLED ThinLUX™ Power Supply, 18 watt, 12 volt, 6' cord
HS-TLZC1-12	HandiLED ThinLUX™ Extension Cord, 12"
HS-TLZC1-40	HandiLED ThinLUX™ Extension Cord, 40"

LED Light Kits include one (1) light strip with integrated on/off dimmer switch and one (1) 18 watt power supply with a 6' cord.

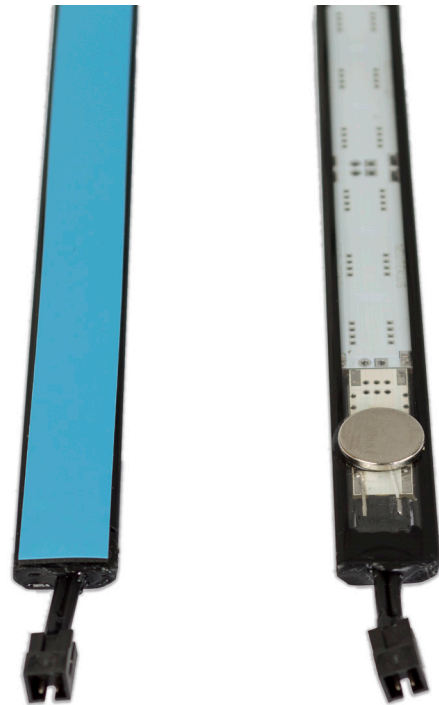

The 20" strip has an output of 500 lumens.
The 28" strip has an output of 700 lumens.
The 40" strip has an output of 1000 lumens.

HandiLED ThinLUX™ Lighting

HandiLED ThinLUX™ lights are warm white (3500K) and have a Color Rendering Index (CRI) of 85.

Tape attachment and Magnetic attachment shown.

Light strips can be purchased individually and combined with the 18 watt power supply and 12" or 40" extension cords to form a daisy chain up to 70" in length.

Dealer Program:

- For product pricing refer to the dealer-pricing column on the 2016 Dealer Price Schedule
- All products priced as each piece not carton
- All products sold in full cartons
- Opening order minimum is \$500
- Subsequent orders minimum is \$250
- Freight is F.O.B. Elk Grove Village, IL

Master Dealer Program:

- For product pricing refer to the Master Dealer column on the 2016 Dealer Price Schedule
Note: this pricing is reserved for those dealers who purchase a minimum of \$25,000 during a calendar year
- All products priced as each piece not carton
- All products sold in full cartons
- Minimum order is \$150
- Freight is F.O.B. Elk Grove Village, IL

Distributor Program:

- This program is restricted to companies that sell HandiSOLUTIONS® to Dealers and Master Dealers, and do not sell to the homeowner or install our product
- All products priced as each piece not carton
- All products sold in full cartons
- Minimum order amount is \$2,400.00
- Freight is F.O.B. Elk Grove Village, IL

Orders:

- All orders must include HandiSOLUTIONS® part numbers, price, and a purchase order number
- For ease of use, it is recommended to use our HS purchase order form

Lead Time:

- Product normally ships within three (3) to five (5) business days upon receipt of approved purchase order
- If any items are to be backordered, customers will be notified immediately for appropriate disposition

Payment Terms:

- The payment terms are net 30 days with an approved account or by credit card

Product Specifications:

- Product availability or pricing are subject to change without notice

Contact us by phone:

- Direct line: 847.640.4732
- Fax Line: 847.572.0675

HandiWALL® vs. Standard MDF Slatwall

Comparison of overall cost, durability, and aesthetics

Cost Benefits

Shipping

The freight costs for HandiWALL® are less than MDF slatwall because HandiWALL® is substantially lighter than MDF. **A 4' x 8' panel of MDF slatwall weighs between 80 and 100 lbs - the same size panel of HandiWALL® weighs 38 lbs.** Therefore, the cost of shipping one panel or one pallet of HandiWALL® is significantly less than the cost of standard MDF Slatwall.

Installation

Because of the significant weight differences, HandiWALL® is much easier and quicker to install. Generally speaking, installing standard MDF requires two people, whereas installing HandiWALL® only requires one person. This drastically reduces the amount of man-hours to complete an installation which in turn reduces the overall cost of a build-out or renovation.

Length of Service Life

HandiWALL® offers a much longer service life than standard MDF slatwall. Standard MDF slatwall is generally made of fiberboard, a material that is known to be unreliable over time. HandiWALL® is made entirely out of cellular PVC which retains its structural form over time and will not chip or break like MDF is known to do. This creates savings in that HandiWALL® panels do not need to be replaced nearly as often, if ever, compared to MDF slatwall which notoriously chips, scratches, warps, and disintegrates.

Aesthetics

Retaining the Brand-New Look

HandiWALL® PVC slatwall system is colored throughout, meaning it will never show scratches. MDF slatwall, on the other hand, will always show the slightest imperfection as it only has a thin layer of coloring on the outside of the product. In addition to not showing scratches, HandiWALL® can be cleaned and maintained simply by wiping it down with a damp cloth.

Immune to Water Damage

It is well known that standard MDF slatwall cannot be used outside or in high humidity and must be kept dry at all times, otherwise the product will deteriorate and warp. HandiWALL® is impervious to water damage and can be used for both interior and exterior installations.

Structural Strength

HandiWALL® is **50% stronger** than standard MDF slatwall which allows users to hang more weight from hooks and store heavier items on shelves. When used with the HandiSOLUTIONS® accessories, **HandiWALL® can hold 100 lbs per hook.**
