About World and Main

World and Main, LLC and its businesses, World and Main (Cranbury), formerly HBC Home & Hardware Products, and World and Main (Houston), formerly Handy Hardware, is a leading national distribution company operating at the intersection where distribution and sourcing meet merchandising and product development.

Across all our divisions and for all our customers, our promise is the same:

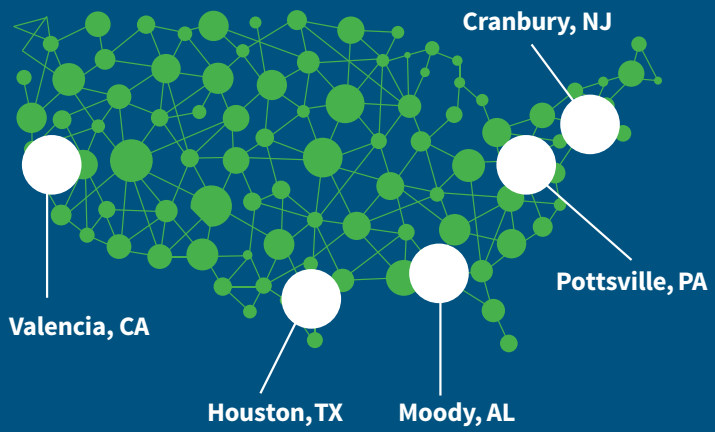

Delivering simplicity. Facilitating success.

This is more than a tagline. It's our promise to the independent hardware stores, discount stores, home centers, commercial distributors, food & drug stores and leading retailers we work with every day.

National Distribution

With 5 North American distribution centers totaling over 1,000,000 square feet of warehouse space, robust owned brand product lines, and global sourcing from over 1,200 factories, we have the inventory to serve Main Streets across the country.

Flexible Delivery

We streamline and simplify your reorder process from start to finish: from online ordering to multiple delivery methods including drop shipments, pick-up in China, or delivery to stores. Our goal is to ensure the products you need are on your shelves at the right time and right price.

- Order by phone
- Order online
- 1,000,000+ square feet of warehouse space
- International sourcing

Spackle, Plaster of Paris, Wallboard Joint Compound

- **Vinyl Spackling:** All-purpose, heavyweight spackling compound for repairing & filling cracks & holes in wallboard, drywall, plaster, wood, brick & stone. It spreads smoothly, sands easily & resists cracking for fast professional repairs. Interior/exterior use
- **Fast 'N Final®:** A lightweight spackling lets you patch & prime in one easy step, saving time & money. It dries fast w/ no need to sand or prime, letting you paint in minutes for a virtually invisible repair. Ideal for repairing holes, cracks & dents in drywall, plaster, wood & stucco. Interior/exterior use.
- **Wallboard Joint Compound:** A pre-mixed, professional grade compound for taping, finishing & texturing interior gypsum wallboard. It can be used to cover & finish gypsum wallboard joints, embed reinforcing tape, metal corner beads, screw or nail holes. It is easy to apply, has minimal shrinkage & sands easily. Interior use.

Mop Chart

Fibers:

Cotton Mops–Basic Cleaning Needs!
The cut-end is the standard, most popular and MOST economical (in the beginning) mop style. Great for absorbing liquids. Used for spills, and basic floor cleaning at the lowest cost. They are a disposable item since they cannot be laundered and are not recommended for use with laying finish as they absorb too much liquid. Cotton mops need a break in period due to the natural oils in the fiber.

Rayon Mops–Great for Finish!
Rayon mops lint much less than cotton mops and have a slower absorption rate making this a cost effective mop to lay finish. Rayon mops need no break in period and can be used for basic cleaning needs.

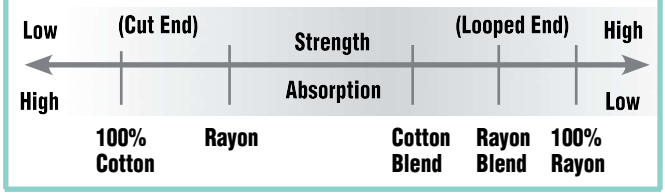

Blended Mops–Commercial Use!
Blended mops offer the best combination of water retention/strength and performance. These are the choice of healthcare/commercial users.

Styles:

Cut-End Mops–Lowest Cost!
Low initial cost, but not long lasting. Poor coverage area and tends to lint leaving yarn on floors. Tangles frequently due to the loose fibers.

Looped Mops–Improved Performance!
Looped-end mops perform better and last longer. They have a better coverage area than cut end mops and lint much less.

Bath Waste & Overflow

Different manufacturers use different thread names to describe their bath drain inserts. No matter what the manufacturer calls it, they are still the same thing. Some measure it from the inside of the threads & some measure it from the outside of the threads.

Common Sizes: There are two main sizes that make up most of the bath drains in the USA. They are:

1) 1-1/2" Dia. x 11-1/2 TPI*
   a. This is sometimes called 1-7/8" diam. x 11-1/2 TPI.
   b. This is also sometimes called "Course Thread".
2) 1-3/8" Dia. x 16 TPI*
   a. This is sometimes called 1-1/2" dia. x 16 TPI.
   b. This is also sometimes called "Fine Thread".

Specialty Sizes:
There are two other sizes that are found in the market, but they are not as common. They are:

1) 1-1/2" Dia. x 16 TPI*
   a. This primarily fits some Sayco® & Briggs® bath wastes.
2) 2-1/8" Dia. x 16 TPI*
   a. This is sometimes called 2" dia. x 16 TPI.
   b. This primarily fits some Kohler® bath wastes.

AquaPlumb® Stainless Steel Connectors

AquaPlumb® offers the highest quality supply lines in the market

AquaPlumb's stainless steel braided connectors are designed to be used in both residential & commercial applications. Their braided design gives them excellent protection from bursting & vibration. Additionally they can be coiled & bent for offset installations. Different end configurations are available for virtually any installation.

Working Pressure – 250 PSI
Burst Pressure – 880 PSI
Maximum Working Temperature – 180°F (82°C)

Tubing:
Body – Reinforced PVC
Jacket – Stainless Steel Braid
Fittings – Brass, Except Nylon Ballcock Nut
Inserts – Brass
Seals – Cone Style Santoprene Rubber Washer

Meets Approvals:
UPC
ASME A112.18.6-2009
CSA B125.6-09

AquaPlumb's Special Features:

- Unlike some products on the market that have just a plain rubber non-reinforced tube, all of the AquaPlumb lines have a reinforced PVC inner liner.
  - – The reinforced PVC can hold the pressure even w/out the stainless steel reinforcement. If the Stainless Steel wears down, all that is left in the competitors line is the inner tube. A plain rubber tube will burst right away under pressure.
  - – Rubber breaks down sooner & faster than PVC, especially at high temperatures.
  - – The black rubber will not meet NSF61.
- All AquaPlumb lines designed to carry potable water & meets California AB1953 & Federal S.3874 for ultra-low lead.
- The patented ballcock models have many additional features.
  - – The AquaPlumb nylon nut is 3/32" deeper than standard nuts. 22/32" vs 25/32". This provides more threads on the shaft of the ballcock.
  - – The base of the AquaPlumb ballcock nut is significantly thicker than standard nuts - .117" vs .149". If a nut is going to break when over tightened, this will be one of the spots. The extra thickness is important.
  - – The heel is the weakest part of the ballcock nut. The AquaPlumb nut's heel has been reinforced & is thicker than standard nuts - .153" vs .180". Additionally the heel is rounded to add additional strength & support.
  - – AquaPlumb nuts use a nylon material that is not brittle. It will not crack or split. The standard nut found on some other models is a cheaper, more brittle, material that snaps when stressed.

INTRODUCING

PipeBite® Push-On Fittings — Brass

No-Leak Connections
Fittings feature a durable o-ring seal and a guide to keep the pipe straight against the o-ring.

One Piece Construction
One piece construction for long lasting durability.

Full-Flow
These fittings have no restriction. They seal from the outside of the pipe so you will get FULL FLOW.

Code Approved
Code approved for use behind walls or in concealed applications.

Swivel Capabilities
Pipe can swivel inside the fittings making installation much easier. Even under pressure!!

Works with Multiple Types of Pipe
Any copper-tube-size pipe will work with PipeBite fittings. Including Copper, CPVC, PEX and Polybutyle.

No Tools for Installation
Just clean the pipe and push it in!!

Removable
Can be removed from pipe without damage. Fitting can then be reused.

For more than 40 years, World and Main (Cranbury), formerly HBC Home & Hardware Products, has stocked your aisles with hardware, tools, plumbing supplies, electrical products, paint sundries, and more. Now we're bringing you even more.

Under the banner World and Main, we've broadened our assortment and become a comprehensive one-stop stop. Consider that this catalog is brimming with 10,000 SKUs, including builder's hardware such as doorknobs, peepholes, and sash locks. You'll find the most popular national brands on these pages, along with owned-brand products that feature profit margins up to 60%.

Equally important, we now stock nearly 1.2 million square feet of warehouse space in five locations throughout North America. This means you can count on products being in stock—and, in many parts of the country, receive via overnight delivery. We'll ship by the box or pallet, and pack mixed assortments to save you time, money, and space. Plus, you can order 24/7 at our ordering site, www.cranbury.worldandmain.com.

Give us a call and speak with one of our local sales professionals. They'll answer your questions, give product and merchandising advice, and as always, get you the products you need, when you need them.

We are still the same company you've come to trust with your business, and now we offer so much more.

World and Main:
Delivering simplicity. Facilitating success.
