## Many Doors. One Solution.

When it comes to security and access control, look no further than **Linear** – your single source for the largest product selection in the industry – with solutions that are simple and fast to install and use.

Linear and International Electronics (now part of Linear) proudly offer more choices than any other manufacturer, from a single door to systems that monitor hundreds of entry points and integrate many different technologies.

Let Linear help you select the right solution for any application!

**Linear**<sup>®</sup>  
*Building On Innovation.*

Learn one uniform wiring/programming method across all Linear products and open the door to **faster, smarter installations.**

## Browser Managed **Security Platforms**

### *Win Over IT Managers and Get More Jobs with eMerge*

**eMERGE**  
Browser Managed Security Platform

The eMerge family of network appliances gives you high-end features and a lower total cost of ownership on an operationally superior platform your customers will choose over traditional, PC-based access control systems.

- No Software to Purchase or Support! Includes Embedded LINUX® Operating System; Embedded PostgreSQL Database Engine, and Built-In Web Server
- Sets Up Fast
- Easy-to-Use Intuitive Interface
- Complete, Scalable Security in One Integrated System (Access Control; Video Management; Event Monitoring; Management and Custom Reporting Tools; Alarm Panel Interface)

## Software Managed **Access Systems**

### *A Smart and Easy-to-Use Solution for Small to Midsize Applications: Secured Series Access Control Systems*

The ideal line for dealers and installers seeking simplicity, cost flexibility and easy installation, the Secured Series gives you:

- Complete Systems, Inclusive of Hub Manager Software, or
- Your Choice of Individual Control Panel, Reader and Keypad Components

Install, program and even troubleshoot easier than any other access control system, with:

- Simple, Easy-to-Use Set-Up Tutorials
- Multiple Hardware Options Equipped with Many LEDs and Test Points

Choose from the Max 3 and MiniMax 3 systems, and the Prox.pad Plus Series, and ensure trouble-free operation!

## Electronic **Locksets**

### *Easy to Install and Use Keypads – Stand Alone or Software-Managed – the LS Series Access Control Locksets*

Get value in field-proven keypad technology with ANSI-compliant and UL-listed Grade 1 locksets, used alone or managed with Hub Manager software:

- Various Lock Configurations Including Cylindrical, Mortise, Deadbolt, and Exit
- Multiple Finishes
- Designed for Indoor/Outdoor Durability and Low Maintenance:
  - One 3/4 inch Hole with ANSI Door Preparation
  - Unique Wire Raceway Protects Wires and Eliminates Service Calls
  - UV Conformal-Coated Electronics and Neoprene Gasket for Exceptional Weather Proofing

## Stand Alone **Keypads**

### *The Most Diverse Line of Stand Alone Keypads Available from One Manufacturer*

Stop buying from more than one manufacturer and wasting time learning different systems. Simplicity, uniform wiring and cutting-edge keypad technology result in lower operational costs compared with other manufacturers.

Linear keypads provide automatic sensing voltage input from 12 - 24 volts, and are available in styles and functionality to fit virtually any application:

- Indoors/Outdoors
- Wiegand
- Proximity
- Magnetic Strip
- Backlit
- Mullion Mount
- And More
