HIAWATHA

"SCA (sudden cardiac arrest) is a treatable condition. Many victims can survive if they are treated quickly with a combination of cardiopulmonary resuscitation (CPR) and defibrillation. If we can increase the rate of survival from 7% to 20%, 50,000 lives could be saved each year in the U.S. alone."

—Sudden Cardiac Arrest Foundation.

WHY SPECIFY FIRST AID EMERGENCY OXYGEN?

Medical oxygen is one of the first treatments paramedics give when they arrive at the scene of an emergency. Immediate use of supplemental oxygen constitutes the most basic life support procedure.

The Activar Construction Products Group (ACPG) consists of 5 affiliated companies that serve the commercial construction industry. Our multiple product lines are a single source for architects and distributors. Air Louvers manufactures products for the openings market with door lites, louvers and rated-glass. Hiawatha is known for its quality architectural door hardware and frameless shower door products. JL Industries is an industry leader in fire protection, providing fire extinguishers, AEDs and cabinets, access panels, roof opening products and entrance flooring systems. Samson Products manufactures many of the products sold under the JL label and distributes JL products on the West Coast. Thomas Enterprises is our Southeast distributor for JL products and has a state-of-the-art aluminum fabrication facility for fire extinguisher cabinets sold under the Thomas and JL labels.
