

Brass Cylinders

Bump Halt™

Bump Resistant Cylinders and Conversion Kits

Concerns over widely publicized “bumping” techniques have led Ilco to develop a “bump resistant” solution. Bump Halt™ is available for the Ilco line of Cylinders and Bump Halt™ conversion kits will easily retrofit existing Ilco cylinders and make them “bump” resistant.

Bump Halt™ Bump Resistant Cylinders

Bump Halt™ Bump Resistant Cylinder Technology resists the transfer of force from the bump key to the pins. This innovative, patent pending design is available for KIK/KID, mortise and rim cylinders. Kits are also available to enable the conversion of a new or existing Ilco® cylinder to be “bump resistant”.

- Cost efficient and effective
- No special tools and/or machining is required
- Available factory installed or as a Conversion Kit
- Conversion kits contain 10 pins, 10 springs and instructions
- One spring and one pin will provide resistance to “bumping”; adding an additional pin and spring will increase the security
- Innovative Patent Pending solution to “bumping”

Bump Halt Bump Resistant Cylinders
Available for KIK/KID, Mortise and Rim Cylinders
(factory installed) by adding a “BH” prefix to the
order number.

Example: BH7165SC2-26D-KA2

Bump Halt Bump Resistant Conversion Kits *

1500BH-00-10	KIK/KID Conversion Kit
7000BH-00-10	Mortise & Rim Conversion Kit
