Professional Locksmith Tools & Accessories

INTERCHANGEABLE CORE ANNEX[®]

LICCB

The LAB Interchangeable Core Annex[®] offers the simplest method for the loading of Interchangeable Core pins, springs and caps, using only one instrument for both functions. A second time saving feature is a Slideout Code Book below the area where the core is slid in place. This allows the user to unload the core pins, springs and caps into a confined area without spilling parts in or around the work area. This Slideout Code Book is also used to decode the core to determine the bitting of the control key when it is not available and also determine the top master key bitting.

MADE OF DURABLE STAINLESS STEEL

UNITED STATES PATENT 6,021,655

LCI001 CAPPING INSTRUMENT

LPE001 PIN STACK EVICTOR

Tools are available separately.
