

LCN Special Templates									
Value	2/18/2016 List Add-on	Series	Product	Application Type	Application	ST Components	Don't forget?	Description	Long Description
ST-2776	no add	4040XP Series Non Handed Closers	4040XP Rw/62A	with a GJ overhead stop (81, 90, 100, 410, and 450 series only)	4040XP Rw/62A with a GJ overhead stop (81, 90, 100, 410, and 450 series only)	Provides a 62A shoe in place of the 62PA shoe - special templating	If top rail is less than 7" then need a drop plate - must use the 4040XP-18 drop plate not the 4040XP-18PA	Special Template	ST2776 is used when mounting a Glynn Johnson over head stop, with a 4040XP regular parallel arm. The standard PA shoe is replaced by the 62A shoe to lower the closer so that the arm will pass under the Glynn Johnson surface stop. This ST only applies to the noted GJ models.
ST-1630	no add	4040XP Series Non Handed Closers	4040XP pull side mount	with a GJ Concealed OHS (100 and 410 series)	4040XP pull side mount with a GJ Concealed OHS (100 and 410 series)	Special Templating	Must order the 4040XP-18T1 drop plate separately.	Special Template	ST1630 allows a 4040XP to be mounted on the pull side of the door when a Glynn Johnson concealed over head stop is being used in the top of the door. A 4040XP-18T1 drop plate is required and must be order separately.
ST-3347	deduct of \$61.00	2210 Series	2210 DPS	without wiring harness	2210 DPS without wiring harness		to order the DPS wiring harness	Special Template	You can order the wiring harness for the 2210 DPS ahead of time for frame prepping and installation of wiring. When you order the 2210DPS + ST3347 it will come without the harness which you already have.
ST-1544	no add	4000 Series Handed Closers	4010 Regular	mounted with GJ 100 series, or 410 series concealed OHS	4010 Regular mounted with GJ 100 series, or 410 series concealed OHS	Special Templating	must order the 4020-18 drop plate separately	Special Template	When using the GJ 100 or 410 series concealed OHS, you will need to order the 4010 x ST1544, and you will need to order a 4020 - 18 drop plate
ST-2731	\$82.00	4040XP Series Non Handed Closers	4040XP EDA	used with GJ 901-904 surface mounted OHS	4040XP EDA used with GJ 901-904 surface mounted OHS	Special EDA arm with a 62G shoe and a bent forearm. Special templating	non hold open only. Top rail less than 6.5" requires a drop plate - must use a 4040XP-18 drop plate not the 4040XP-18PA. The GJ shoe must be reversed for mounting. Can only be used with the GJ901-904.	Special Template	ST2731 is used when a 4040XP EDA is mounted with a GJ900 series OHS (sizes 901 thru 904). The EDA arm is replaced with a "special" EDA/G arm that is cut, bent, and welded, allowing it passes under the GJ900 series OHS
ST-2730	\$62.00	4000 Series Handed Closers	4110 w/ Spec 62G shoe	mounted with Glynn Johnson 901 - 904 surface mount over head stop	4110 w/ Spec 62G shoe mounted with Glynn Johnson 901 - 904 surface mount over head stop	special EDA arm with a 62G shoe and a bent forearm. Special templating	non hold open only. Top rail less than 6.5" requires a drop plate - must use a 4010-18 drop plate. The GJ shoe must be reversed for mounting. Can only be used with the GJ901-904	Special Template	ST2730 allows a 4110 and a Glynn Johnson 900 (901 - 904) to be used together. The 4110 will come with a special 62G arm that is cut, bent, and welded so that the arm will pass under the Glynn Johnson stop. It <b>will not</b> work for a Glynn Johnson 905 or 906. See ST2779.
ST-2777	no add	1460 Series	1460 Rw/62A	mounted with GJ surface mounted OHS. Series 70, 81, 90, 450	1460 Rw/62A mounted with GJ surface mounted OHS. Series 70, 81, 90, 450	Provides a 62A shoe in place of the 62PA shoe - special templating	Top rail less than 6" requires a drop plate - must use the 1460-18 drop plate not the 1460-18PA.	Special Template	ST2777 is used when mounting a Glynn Johnson surface mount over head stop, with a 1460 regular parallel arm. The standard PA shoe is replaced by the 62A shoe to lower the closer so that the arm will pass under the Glynn Johnson surface stop. This ST only applies to the noted GJ models.
ST-1595	\$19.00	4040XP Series Non Handed Closers	4040XP CUSH	used with solid 1/4" weatherstrip	4040XP CUSH used with solid 1/4" weatherstrip	Special Screw Pack - Special 7/8" fifth screw spacer with 5 additional longer screws for mounting. Special Templating.		Special Template	ST1595 is for installing a 4040XP CUSH closer with 1/4" solid weatherstrip. The closer will come with a special screwpack with longer screws, and a 7/8" 5th hole spacer. This will allow the screws to pass thru the solid weatherstrip. This will work on most 1/4" solid weatherstripping brands. Zero Product # 429A is Allegion's applicable 1/4" solid weatherstrip.
ST-1586	\$19.00	4000 Series Handed Closers	4110 CUSH	used with solid 1/4" weatherstrip	4110 CUSH used with solid 1/4" weatherstrip	Special Screw Pack - Special 7/8" fifth screw spacer with 5 additional longer screws for mounting. Special Templating.		Special Template	ST1586 is for installing a 4110 CUSH closer with 1/4" solid weatherstrip. The closer will come with a special screwpack with longer screws, and a 7/8" 5th hole spacer. This will allow the screws to pass thru the solid weatherstrip. This will work on most 1/4" solid weatherstripping brands. Zero Product # 429A is Allegion's applicable 1/4" solid weatherstrip.
ST-1944	\$19.00	4040XP Series Non Handed Closers	4040XP EDA	used with solid 1/4" weatherstrip	4040XP EDA used with solid 1/4" weatherstrip	Special Screw Pack - Special 7/8" fifth screw spacer with 5 additional longer screws for mounting. Special Templating.		Special Template	ST1944 is for installing a 4040XP EDA closer with 1/4" solid weatherstrip. The closer will come with a special screwpack with longer screws, and a 7/8" 5th hole spacer. This will allow the screws to pass thru the solid weatherstrip. This will work on most 1/4" solid weatherstripping brands. Zero Product # 429A is Allegion's applicable 1/4" solid weatherstrip.
ST-3448	no add	4040XP Series Non Handed Closers	4040XP EDA	mounted with GJ 814, 815, and 816	4040XP EDA mounted with GJ 814, 815, and 816	STD EDAG arm is required. Special templating	top rail less than 6-1/2", a 4040XP-18 drop plate will be needed. Not the PA drop plate.	Special Template	ST3448 is for installing a 4040XP EDA with a GJ 81 series surface OHS (sizes 4-6) The closer will come with the 4040XP EDA/G arm. If the top rail is less than 6-1/2", a 4040XP-18 drop plate will be needed. Not the PA drop plate.
ST-1631	\$19.00	4000 Series Handed Closers	4110 EDA	used with solid 1/4" weatherstrip	4110 EDA used with solid 1/4" weatherstrip	Special Screw Pack - Special 7/8" fifth screw spacer with 5 additional longer screws for mounting. Special Templating.		Special Template	ST1631 is for installing a 4110 EDA closer with 1/4" solid weatherstrip. The closer will come with a special screwpack with longer screws, and a 7/8" 5th hole spacer. This will allow the screws to pass thru the solid weatherstrip. This will work on most 1/4" solid weatherstripping brands. Zero Product # 429A is Allegion's applicable 1/4" solid weatherstrip.
ST-2648	no add	4040XP Series Non Handed Closers	4040XP CUSH	mounted with coordinator	4040XP CUSH mounted with coordinator	STD screw pack plus an additional 5 - 1/4 X 20 -1/2" long Machine Screws. Special Templating.	top rail less than 6.5" requires a 4040XP-18PA drop plate. Requires Mtg brackets by others such as the Ives MB1 or MB2 brackets.	Special Template	ST2648 show how to mount a 4040XP CUSH when a coordinator is on the frame. A mounting bracket by others will be needed - such as the Allegion products: Ives MB1 or MB2 bracket, Zero 8705PB bracket, depending on the frame profile.
ST-3447	\$81.00	4000 Series Handed Closers	4110 EDA	mounted with GJ 814, 815, and 816	4110 EDA mounted with GJ 814, 815, and 816	Special EDA arm with 1 3/8" thick hub shoe. Special Templating.	Can not be hold open arm. Top rail less than 7" requires a 4010-18 drop plate and ST3447 1 special templating.	Special Template	ST3447 allows the 4110 EDA to be mounted with the GJ 81 series surface OHS (sizes 4-6). The arm will come with a special 1-3/8" thick hub that allows the arm to pass under the GJ 81 series OHS. This is for the 4110 EDA and GJ 81 series surface OHS only
ST3073	no add	4040XP Series Non Handed Closers	4040XPT DE	mounted on pull side of double egress frames	4040XPT DE mounted on pull side of double egress frames	4040SE-DE arm. Special Templating.	Maximum Reveal is 2 11/16". Must provide handing as the this DE arm is handed.	Special Template	ST3073 is for mounting a 4040XPT closer on the pull side of a frame that has a reveal of more than 1/8" deep. It can accommodate a reveal up to 2-11/16" deep. The closer will come with a special double egress arm.
ST-1754	no add	4040XP Series Non Handed Closers	4040XP EDA	mounted with coordinator	4040XP EDA mounted with coordinator	STD screw pack plus an additional 5 - 1/4 X 20 -1/2" long Machine Screws. Special Templating.	top rail less than 7" requires a 4040XP-18PA drop plate. Requires Mtg brackets by others such as the Ives MB1 or MB2 brackets.	Special Template	ST1754 show how to mount a 4040XP CUSH when a coordinator is on the frame. A mounting bracket by others will be needed - such as the Allegion products: Ives MB1 or MB2 bracket, Zero 8705PB bracket, depending on the frame profile.
ST-2714	\$117.00	5030 Series	5030	mounted with GJ 100 series concealed OHS. GJ104, 105, and 106	5030 mounted with GJ 100 series concealed OHS. GJ104, 105, and 106	Special mounting plate notched out for the GJ shoe. Special Templating.	For a 3.75" thick door only. For use with Butt hinges or offset pivots. Only for use with a GJ104-106 and must specify the GJ size being used on the order.	Special Template	ST2714 if for mounting a 5030 and a GJ 100 concealed OHS. It is for regular hinges, or offset pivots only, and can only be used on a 1-3/4" door. The size of the GJ100 being used must be specified on the order. It is for the GJ104, 105, or 106 only.
ST-2266	no add	2030 Series	2030	mounted in wood frame	2030 mounted in wood frame	Special Templating	For Butt hinges or offset pivots. Requires the 417 wood clips set to be order separately as a pack with item.	Special Template	ST2266 shows how to mount a 2030 in a wood frame. It requires using a wood clip set. Wood clip set 417 is used if the door is mounted on hinges, or offset pivots. Wood clip set 416 is used if the door is mounted on center pivots. The wood clips sets need to be ordered separately
ST-1496	no add	4000 Series Handed Closers	4110 CUSH	used with bar type coordinator or 5/8" weatherstrip	4110 CUSH used with bar type coordinator or 5/8" weatherstrip	STD screw pack plus an additional 5 - 1/4 X 20 -1/2" long Machine Screws. Special Templating.	top rail less than 6.75" requires a 4110-18 drop plate. Requires Mtg brackets by others such as the Ives MB1 or MB2 brackets.	Special Template	ST1496 provides a special template to install a 4110 CUSH below a bar type coordinator, or 5/8" weatherstrip. A bracket by others is needed to pass under the coordinator / weatherstrip, such as Allegion products: Ives MB1 bracket and Zero 8705PB bracket.
ST-1384	no add	4000 Series Handed Closers	4110 EDA	used with bar type coordinator or 5/8" weatherstrip	4110 EDA used with bar type coordinator or 5/8" weatherstrip	STD screw pack plus an additional 5 - 1/4 X 20 -1/2" long Machine Screws. Special Templating.	top rail less than 6.75" requires a 4110-18 drop plate. Requires Mtg brackets by others such as the Ives MB1 or MB2 brackets.	Special Template	ST1384 provides a special template to install a 4110 EDA below a bar type coordinator, or 5/8" weatherstrip. A bracket by others is needed to pass under the coordinator / weatherstrip. - such as Allegion products: Ives MB1 or MB2 bracket, Zero 8705PB bracket, depending on the frame profile.
ST-2732	no add	4000 Series Handed Closers	4110 EDA	mounted with GJ surface OHS 451, 452, 453, or 454.	4110 EDA mounted with GJ surface OHS 451, 452, 453, or 454.	STD EDAG arm is required. Special templating	GJ shoe must be reversed for mounting.	Special Template	ST2732 allows a 4110 EDA and GJ450 series OHS (sizes 1 thru 4) to be mounted together. The 4110 must be ordered with a 62G arm (EDA/G).
ST-1956	no add	4040XP Series Non Handed Closers	4040XP EDA	on a 16" door	4040XP EDA on a 16" door	Special Templating		Special Template	This template show how to mount a 4040XP EDA on a 16" door. A 5th hole spacer will need to be provided by the frame manufacturer.

ST2795	\$46.00	4040XP Series Non Handed Closers	4040XP Regular	pull side mount with a heavy duty non-adjustable Arm, like the 4510 security Closer.	4040XP Regular pull side mount with a heavy duty non-adjustable Arm, like the 4510 security Closer.	special non-adjustable heavy duty arm. Special templating	top rail less than 3.75" requires a 4040XP-18 drop plate.	Special Template	When the 4040XP is ordered with ST2795, it will come with a heavy duty non-adjustable arm (similar to a 4510 arm) for Pull side mounting. NO HOLD OPEN option of this arm.
ST-1736	no add	4000 Series Handed Closers	4010T	with GI concealed OHS (100 and 410 series) and mounted on a Rabbetted door.	4010T with GI concealed OHS (100 and 410 series) and mounted on a Rabbetted door.	Special Templating	requires a 4020-18 drop plate must order separately.	Special Template	This will allow the 4010T to be mounted with a GI concealed over head stop. It can also be used to allow a 4010T to be mounted on or o a rabbetted door. A 4020 - 18 drop plate is required and must be order separately.
		2030 or 5030 series closers	2030 or 5030	Overhead concealed closer in a hollow metal frame	2030 or 5030 Overhead concealed closer in a hollow metal frame			Special Template	
ST-2220	No Add								ST-2220 demonstrates how to mount a 2030 or 5030 in a hollow metal frame.
ST-2492	\$46.00	3030 series	3130	Concealed in the door for 4'-0" / 1200MM door	3130 Concealed in the door for 4'-0" / 1200MM door	Special cylinder	Standard Template is used	Special Template	ST-2492 uses a heavy duty (size 4) spring in the 3130 cylinder. It uses standard template for installation
ST-2257	No Add	2210 Series	4116 H CNS	PA Arm	4116 H CNS PA Arm		Standard Template is used	Special Template	ST-2257 is for getting a H CUSH arm with a 4116 closer which has a size 6 spring only. Be advised that the size 6 spring is strong enough that it may pull the closer out of the hold open position. Standard template is used for installation.
ST-2211	No Add		2030	with GI Surface overhead Holder	2030 with GI Surface overhead Holder		A spacer bar supplied by others is needed	Special Template	ST-2211 demonstrates how to make the 2030 overhead concealed closer, work in conjunction with a surface mounted overhead stop. A spacer bar (by others) is needed.
ST-2967	\$34.00	4000T Series	4000T	Pocket using standard 4040XP cylinder	4000T Pocket using standard 4040XP cylinder	4040XP cylinder is used instead of the 4000T cylinder	Spring must be adjusted to closer the door	Special Template	ST-2967 substitutes the 4000T closer body with a 4040XP closer body so that the closing force can be adjusted. Standard 4000T template is used for installation
ST-2546	\$43.00	1460T Series	1460T	dealy action for hinge, top jamb or stop face mounting	1460T dealy action for hinge, top jamb or stop face mounting	Special delayed action cylinder	Standard Template is used	Special Template	
ST-3592	No Add	4040XPT Series	4040XPT	for half/bar style gates	4040XPT for half/bar style gates	4040XPT closer with 4000T arm	Hold open is not available, not for heavy gates	Special Template	ST-2546 is used to get delayed action in a 1460T closer body. Standard template is used for installation
		1460 Series	1460	pull side with GI concealed overhead stop	1460 pull side with GI concealed overhead stop		1460-18 drop plate must be ordered and is mounted upside down	Special Template	ST-3592 is a 4040XPT closer for use on light duty bar / fence style exterior gates. It uses a 4040XPT closer with the arm from the 4000T closer. Hold open is not available for this application.
ST-1974	No Add	2310ME Series	2310ME	Concealed with plug in wire harness	2310ME Concealed with plug in wire harness	Uses a plug in wire harness		Special Template	ST-1974 is for mounting a 1461 closer pull side, with a concealed overhead stop. A 1460-18 drop plate must be ordered. The drop plate is mounted upside down so the mounting screws will clear the overhead stop. This ST is for standard (slim) cover applications only. See ST 3603 for full cover application.
ST-3137	\$22.00	2310ME Series	2310ME	concealed with bumper stop	2310ME concealed with bumper stop	Bumper is installed in the track		Special Template	ST-3137 is for a 2310ME with plug-in type wire harness
ST-2533	\$35.00	4040XP Series Non Handed Closers	4040XP	for 180 degree opening in a pocket door only with the total door solution	4040XP for 180 degree opening in a pocket door only with the total door solution	Uses a special cyinder and arm	180 DEGREE TOTAL DOOR SYSTEMS Only. Not for use with conventional hinges or latching hardware	Special Template	ST-2533 is for installing a bumper stop in the 2310ME track. Stop can be set from 85" to 105"
ST-2701	\$106.00	2010 series	2010	overhead concealed	2010 overhead concealed			Special Template	ST-2701 is FOR TOTAL DOOR SYSTEM ONLY!! 4040XP mounted for 180" in a pocket closer application... NOT FOR CONVENTIONAL HINGES OR LATCHING HARDWARE!!
ST-0561	No Add	5030 Series	5030	overhead concealed closer mounted with GI100 series stop with butt hinges or offset pivots	5030 overhead concealed closer mounted with GI100 series stop with butt hinges or offset pivots	Uses a special 5030 plate	1 3/4 doors only. GI 100 size is required	Special Template	ST-0561 is a template that moves the centerline of the closer spindle, and track, from 1/4" to 1-1/4". This makes room in a Hollow Metal Frame for drywall, or to center in a wood frame for more strength around closer. Stop cutout is 16-1/2"
ST-2714	\$117.00	4040XP Series Non Handed Closers	4040XP EDA	mounted on an 18 plate instead of 18PA plate	4040XP EDA mounted on an 18 plate instead of 18PA plate		Must be 110 degree mounting	Special Template	ST-2714 is a template that allows a 5030 and a GI100 series stop to be used together with Butt hinges or Offset pivots. The Glynn Johnson 100 Size (104 - 106 ) is required to process the order. Special plate will be made.
ST-1358	No Add	4040XP Series Non Handed Closers	4040XP	cylinder replace with the 4040SE cylinder	4040XP cylinder replace with the 4040SE cylinder	Uses 4040SE cylinder		Special Template	ST-1358 is for mounting a 4040XP EDA arm on a 4040-18 drop plate in lieu of the 4040XP-18PA plate. The drop plate is smaller than the PA plate and therefore cannot be seen from the push side of the door. It requires a minimum top rail of 4". It can also be used with a concealed overhead stop, but the closer must be mounted for 110" opening.
ST-3312	\$33.00	4040XP Series Non Handed Closers	4040XP	for wide throw hinges	4040XP for wide throw hinges	Uses a special arm based on the hinge size, degree of opening and how it will be installed	For PA mounting the PA shoe must be ordered sperately.	Special Template	ST-3312 replaces the 4040XP cylinder with the 4040SE cylinder. This can be used with any arm option and standard templating. This will give more closing force than the standard 4040XP. This closer will not meet 5 lbs ADA.
ST-2575	\$88.00	4310ME Series	4310ME	with GI concealed overhead stop	4310ME with GI concealed overhead stop	Special bracket will be sent		Special Template	ST-2575 is for mounting the 4040XP Rn/PA closer with wide throw hinges. We need to know how it will be mounted, size of the hinges, and the desired degree of opening. If Top Jamb mounted, we will also need the depth of reveal. If mounting Parallel Arm, the PA shoe must be ordered sperately. Enter as "back with"
ST-2018	\$19.00	4050T Series	4050T	mounted pull side top jamb	4050T mounted pull side top jamb	Special Templating		Special Template	ST-2018 is for mounting with a concealed overhead stop. A special bracket will be sent with closer. Enter this as a "Pack with special bracket"
ST-3472	No Add	1260 Series	1260 closer	to clear overhead stop or with rabbetted door	1260 closer to clear overhead stop or with rabbetted door		Requires 18 drop plate	Special Template	ST-3472 is a template that shows how to mount a 4510T like a 4020T (Pulside Top Jamb)
ST-2850	No Add	4040XP Series Non Handed Closers	4040XP	for special hinge sizes / depths and reveals	4040XP for special hinge sizes / depths and reveals		For PA mounting the PA shoe must be ordered sperately.	Special Template	ST-2850 is used to clear a concealed overhead stop, or it can be used to mount the 1261 on a rabbetted door. Requires a 1260-18 drop plate.
ST-2576	\$103.00	2010 Series	2010	with GI surface mounted overhead stop	2010 with GI surface mounted overhead stop			Special Template	ST-2496 is a 4040XP hold open arm, cut and welded for various special applications. Hinge size, and depth of reveal are needed for Top Jamb mounting. For Parallel Arm mounting need hinge size, and degree of opening desired. PA shoe must be ordered sperately.
ST-2210	No Add	4010 Series Handed Closers	4010 closer	With wide throw hinges for 180 degree opening	4010 closer With wide throw hinges for 180 degree opening	Ships with 8 3/8 rod and shoe	Must have 5" hinges and 1/2" return on frame.	Special Template	ST-2210 is for mounting 2010 with surface mounted overhead stop. Also works for 2210, and 2310ME
ST-1495	\$106.00	4030 Series Non Handed Closers	4030 closer	with 62A shoe for use with auxilliary stops	4030 closer with 62A shoe for use with auxilliary stops			Special Template	ST-1495 is a Special 13" arm, cut and welded, for 180" opening. Door must be mounted on 5" hinges, and the frame must have a 1/2" return. Ship with the 8 3/8" rod and shoe.
ST-3556	No Add	4040XP Series Non Handed Closers	4040XP closer	with hinge side swing clear hinge	4040XP closer with hinge side swing clear hinge	Special Templating		Special Template	ST-3556 is used for mounting the 4030 on 62A shoe, for use with surface mounted overhead stops, coordinators, sounseals etc... Must be entered as Reg / 62A
ST-2303	\$80.00	4020 Series Handed Closers	4020 closer	for 12" door	4020 closer for 12" door	A special arm is included			ST-1583 is for mounting a 4040XP pulside (REG) with a swing clear hinge. Also for use with pocket pivots.
ST-2806	No Add	4040SE Series Closer	4040 SE closer	Pulls side mount with GI concealed overhead stop	4040 SE closer Pulls side mount with GI concealed overhead stop		Requires 4040SE 18G plate		ST-2303 is for mounting 4020 on a 12" door. A special arm will be made.
		4110 Series Handed Closers	4111 CUSH arm closer	with 3/4" max weatherstrip	4111 CUSH arm closer with 3/4" max weatherstrip	Comes with 1/2 inch blade stop spacer, 1/4" blade stop spacer	Custom 5th hole spacer (by others) is needed		ST for mounting a 4040SE on the pull side of the door, with a concealed overhead stop. Must be mounted on 4040SE-18G drop plate. Also for use on rabbetted door.
ST-1398	\$41.00	4010 Series Handed Closers	4010 closer	with a heavy duty 4510 arm	4010 closer with a heavy duty 4510 arm	Comes with 4510 heavy duty arm			ST-1398 is used for mounting 4111 CUSH with 3/4" (or less) weatherstrip. Closer will come with one 1/2" blade stop spacer, and one 1/4" blades stop spacer. A custom 5th hole spacer (by others) is needed.
