DAY/NIGHT IR Camera

MLTL2DN49IR
MLTL2DN922IR

The Aigis MLTL2DNxxIR Day/Night IR housings combine advanced day/night technology with high intensity IR illuminators. The 540 TVL Color Hi-Resolution imager is integrated with a 4-9mm or 9-22mm manual zoom lens that creates a sharp picture in low light conditions. Split glass technology prevents IR reflections and the auto-enabled IR illuminator activates when the surrounding area becomes darker providing clear images in less than ideal lighting situations. The outdoor rated aluminum construction housing and the fully adjustable 3-axis bracket provide an easy solution for applications that involve difficult viewing angles.
