

CYLINDER ACCESSORY KIT

CAK-15

The CAK-15 is a new cylinder accessory kit that contains an assortment of popular hardened cylinder guards, plus cylinder collars molded from an "Engineered Plastic". Unlike steel or aluminum that can chip, scratch or bend, collars from engineered plastic will not lose their finish or shape. They also resist damage due to the ozone and by ultra violet rays. The kit is packed in a handy plastic box for storage and part numbers are identified for reordering. See chart for sizes and kit contents. A handy assortment for mobile use. Cylinder collar refills are available in packs of 6.

Qty.	Part No.	Description
