

# HIT-55

## FOR 2-3/8", 2-3/4", 3-3/4" AND 5" BACKSET LOCKS

The HIT-55 Drill Master 2 uses the same interchangeable guides for drilling latch holes as the HIT-50. The removable Multi Spur guide tower will allow the use of hole saws from both sides of the guide as an option. The jaws are rubber padded for both a better grip and to protect the door finish. The HIT-55 has a door thickness range from 1-3/8" to 2-5/8" with backset adjustable for 2-3/8", 2-3/4", 3-3/4" and 5" Break out plates are provided for 1-1/2" and 2-1/8" hole sizes. The entire guide is machined from aluminum and anodized gray.

## HIT-551

### HIT-55 DRILLMASTER 2

A complete ready to go installation kit for standard door locks. Our newest kit contains the HIT-55 Drill Master 2 packed in a foam lined tool box. The HIT-55 has rubber lined jaws, adjustable for 2-3/8", 2-3/4", 3-3/4" and 5" backsets and has a door range from 1-3/8" to 2-5/8". The HIT-55 can be used on both wood and steel doors and will accept guided bits as well as hole saws.
