## FACILITIES LOCKSET GUIDE

SCHOOL  
SYSTEMS

HOSPITALS &  
INSTITUTIONS

COMMERCIAL  
BUILDINGS

## INTRODUCTION

Marks USA Facilities Lockset Guide was created to give a more in depth description about products suitable for installation in School Systems, Housing Authorities, Hospitals, Commercial Buildings, etc. Contained within this guide is information about our Nova Series Mortise Locksets, the Protector Series Mortise Locksets, Commercial Grade Mortise Locksets and Deadlocks, Survivor Series Cylindrical Leversets, Defender Series Deadbolts & Deadlatches, our Custom Lockset Division, Institutional Life Safety Locksets, Hospital Push/Pull Paddlesets, the i-Qwik Electronic Access Control Series, Biometric Fingerprint Reader with Cylindrical Leverset, and HI-SECURITY™ Cylinders. The guide assists the institutional user by informing the reader of lockset features which will satisfy the requirements of institutional facilities for both design and maintenance.

**Lifetime Mechanical Limited Warranty:** MARKS USA warrants that its products are free from defects in materials and workmanship. This warranty is limited to the lifetime of the door on which our lock is installed. In the event our product does not conform to this warranty, MARKS USA will repair or replace the product free of charge. This warranty does not cover defects or damage arising from improper installation, lack of or improper maintenance, improper storage, shipping and handling, ordinary wear and tear, misuse, abuse, accident, unauthorized service, or use with unauthorized non-MARKS products or parts. We reserve the right to make changes in materials, components or manufacturing methods. Liability under all warranties expressed or implied is limited to replacement of the defective goods. This warranty does not cover nor provide for the reimbursement or payment of incidental or consequential damages. Additionally, the company will not warrant ANSI A156.2 Grade 2 lever product installed in educational facilities and student housing.

**2 Year Electronic Limited Warranty:** MARKS USA warrants to the original purchaser that its products are free from defects in materials and workmanship so long as they occupy the premises. In the event our product does not conform to this warranty, MARKS USA will repair or replace the product free of charge at its sole discretion. This warranty does not cover defects or damage arising from improper installation, lack of or improper maintenance, improper storage, shipping and handling, improper application or specification, ordinary wear and tear, misuse, abuse, accident, improper voltage, unauthorized service, or use with unauthorized non-MARKS products or parts. We reserve the right to make changes in materials, components or manufacturing methods. Liability under all warranties expressed or implied is limited to replacement of the defective goods. This warranty does not cover nor provide for the reimbursement or payment of incidental or consequential damages or any shipping charges related to exercising of this warranty.

**Lifetime Finish Limited Warranty:** MARKS USA finishes with the suffix "E" indicate finishes which have a "PVD" coating. Locksets with the "3E" finish will be warranted to the original user against tarnishing as long as the user occupies the residential premises upon which the lockset was originally installed. Locksets with this finish, used in commercial applications will be limited to two years. This warranty does not cover scratches, abrasion, abused or misused products. Upon return of a defective product to Marks USA, we will, at our sole discretion, either replace the product or refund the purchase price in exchange for the product. Due to climatic conditions, chemical or abrasive actions, other finishes are excluded from this warranty. This warranty does not cover nor provide for the reimbursement or payment of incidental or consequential damages arising from the sale of the product.

# NOVA SERIES 5 & 55

## MORTISE LOCKSETS ANSI 156.13 GRADE 1

### NOVA SERIES 5 & 55 MORTISE LOCKSETS

Our Nova Series Mortise Locksets represent years of development into world class BHMA Certified mortise locksets and carry the Marks Lifetime Mechanical Warranty. The Nova Series is available with a variety of different knobs, levers, roses and plates as well as custom capabilities with 32 functions in popular finishes. Whether your application is a single style single function lockset or an entire complex with multiples and varieties, the Nova Series has the form, fit and competitive price to complete your project.

#### STANDARD FEATURES

5 Series (2-3/4" backset); 55 Series (2-1/2" backset)

- Lock Front:** Adjustable bevel steel backplate 1-1/4" x 8" x 7/64" thick stainless steel. Cover plate 1/16" thick.
- Deadbolt:** Stainless steel with hardened roll pins, 1" throw.
- Latch:** Solid stainless steel with antifriction latch lever, 3/4" throw (reversible).
- Auxiliary Deadlatch:** 1/2" throw (reversible).
- Hubs:** Steel, 9/32" on diamond, 5/16" on square with security separator. Independent exterior and interior lever support springs.
- Lever Support Springs:** Lever support springs with 5/16" Hubs
- Hub Follower:** (to lock hub) steel 1/8" thick.
- Hub Stop:** (to limit lever travel) steel 1/8" thick.
- Case:** Stamped steel 3/32" thick, zinc dichromate finish.

# PROTECTOR SERIES

## MAXIMUM SECURITY MORTISE LOCKSETS ANSI 156.13 GRADE 1

### PROTECTOR SERIES

All Marks USA Protector Series mortise locksets feature an "Override Guard" which is designed to result in spindle failure when torque of over 550 foot lbs. is applied. The lockset remains locked and when spindle is replaced, the lockset is fully operational. Protector Series locksets have a lifetime mechanical warranty, meet or exceed all operational and security tests of ANSI A156.13-2002 for Series 1000, Grade 1. Protector Series Locksets are UL listed, 3-hour fire rated and meet ADA requirements.

#### STANDARD FEATURES

##### Performance Specifications:

Life Test: 1,500,000 cycles minimum.

##### Exterior and Interior Trim Specifications:

Brushed stainless steel plate assemblies with machined lever bearings.  
Screwless stainless steel levers assembled to plate with hardened snap rings.  
(Levers cannot be removed without disassembling trim plates from inside.)

Additional trim designs are available with override guard lock protection,  
Consult factory.

Exterior: 4 welded thru-posts. Center posts pass through lock body,  
automatically aligning trim 8-1/2" x 2-3/4" x 1/8" thick

Interior: 4 stainless steel, tamper-proof mounting bolts  
connecting inside plate, 8-1/2" x 2-3/4" x 1/8" thick

Cylinder: 1-1/8" long solid brass, 6 pin with 2 keys

Strike: 4-7/8" x 1-1/4" x 3/32" thick, 5/8" curved lip  
Conforms to ANSI spec., A115.1

Door Thickness: 1-3/4" standard. Extended range available

Screwless Lever Choices: American, Crescent, Plaza & Titan

##### Lock Specifications: 5 Series (2-3/4" Backset)

##### NOVA SERIES GRADE 1 MORTISE LOCKSETS ARE BHMA CERTIFIED

Lock Front: Adjustable bevel steel backplate 1-1/4" x 8" x 7/64" thick;

Cover plate 1/16" thick with tamper-proof screws

Deadbolt: Stainless steel with hardened roll pins, 1" throw

Latch: Solid stainless steel with antifriction latch lever, 3/4" throw (reversible)

Aux. Deadlatch: 1/2" throw (reversible)

Case: Stamped steel 1/16" thick

Hubs: Steel, 5/16" on square w/security separator, 9/32" on diamond;  
Independent exterior and interior lever support springs

Hub Lock Arm: Steel 1/8" thick (to lock hub)

Exterior Lever Override Guard Integral cam spindle/spring assembly  
engages hub lock arm, case hardened steel, 1/8" thick.

Interior Lever Override Guard Integral cam spindle/spring assembly  
prevents interior lever override, case hardened steel, 1/8" thick

✱ Standard & HI-SECURITY™ IC Core Models: Interchangeable Core models  
for 6 or 7 pin cores (not included). Accepts: Marks, Marks HI-SECURITY™, Medeco®,  
KeyMark™, Falcon, Schlage® small format & Best®. IC Core Tailpieces ARE Included.

LIFETIME MECHANICAL WARRANTY • FINISHES ARE EXCLUDED FROM THIS WARRANTY

### COMMERCIAL GRADE MORTISE LOCKSETS SERIES 7 & 9

Marks 7 & 9 Series Mortise Locksets feature a high pressure cast Zamac body with a baked enamel finish to resist corrosion, cast alloy 1" throw deadbolt for strength, and a flexible face plate that may be installed flat or with a 3 degree bevel. The 7 & 9 Series are available with a variety of different knobs, levers, roses and plates making these efficient mortise locksets a great choice for commercial applications when grade 1 fire rated locksets are not required.

# SURVIVOR SERIES

## CYLINDRICAL LEVERSETS ANSI 156.2 GRADES 1 & 2

### SURVIVOR SERIES

Marks USA Survivor Series locksets are the most durable cylindrical lever locksets. The series is offered in four lever styles, conventional cylinder, IC core for "Best" size cores and Schlage® as well as others. The Survivor Series locksets are backed by Marks lifetime mechanical warranty. All functions are available in six standard finishes, are UL Listed for 3-hour fire rating, and satisfy ADA requirements.

# SURVIVOR SERIES

## CYLINDRICAL LEVERSETS ANSI 156.2 GRADES 1 & 2

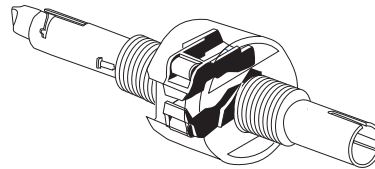

### CLUTCH SYSTEM

When locked, the Survivor's clutch disengages the outside lever allowing it to turn freely without opening the latch. This reduces the torque applied to the outside lever. Other locksets with RIGID levers are prone to failure because of excessive torque.

### SUPER STRENGTH RETRACTOR

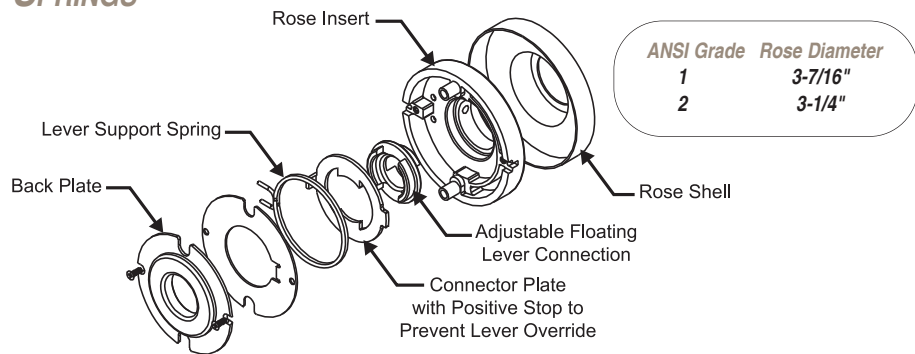

The Survivor's retractor is cast stainless steel with bronze roller bearings for ultra-high strength, smooth operation & long life.

### LONG LIFE LEVER SUPPORT SPRINGS

Each Survivor rose contains its own proprietary high strength lever support spring.

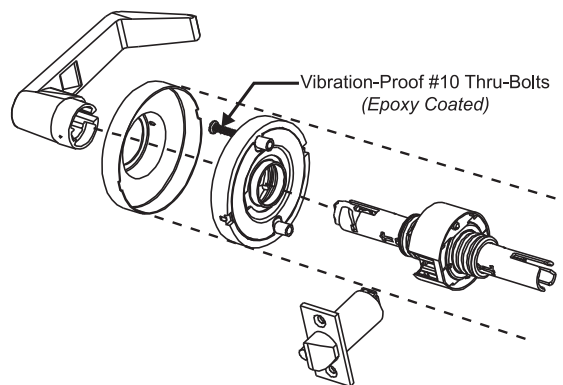

**Over Six Million continuous cycles, NO LEVER DROOP...EVER!**

### STRENGTH & LIFE

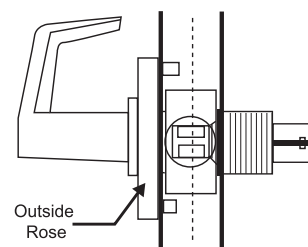

#### SURVIVOR:

- Withstands torque of 1800 inch-pounds; over twice ANSI/BHMA (1996) test value
- Life tested over 6 million cycles; Fully operational after these tests
- Thru-bolting with #10 epoxy coated bolts assures vibration-proof mounting
- Only two thru-bolts for easy installation
- Breakaway handles (*American & Crescent design*) protect against excessive abuse

### QUICK INSTALLATION

- The Survivor easily adjusts for door thickness
- 1-5/8" - 1-7/8" without the use of spacer plates or special tools
- Adjustment is made by merely rotating outside rose
- Spacer plates are available for 1-3/8" doors with K1904 spacer rings
- Extend to 2-1/4" door thickness with D7 option

**LIFETIME MECHANICAL WARRANTY** • FINISHES ARE EXCLUDED FROM THIS WARRANTY

**CRAFTED WITH PRIDE IN THE USA**

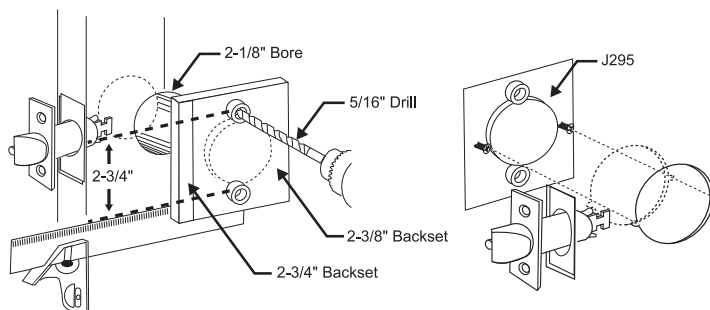

# SURVIVOR SERIES

## CYLINDRICAL LEVERSETS ANSI 156.2 GRADES 1 & 2

### EASY INSTALLATION

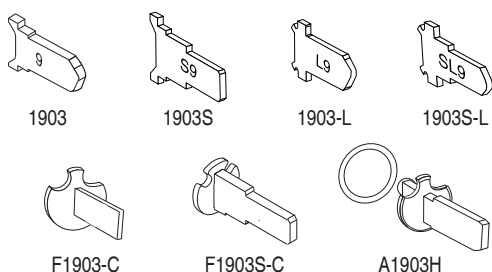

Survivor door preparation is simplified with the fast and accurate, easy to use J295 installation tool. One side is for the 2-3/4" backset, the other for the 2-3/8" backset. For use with either wood or metal doors.

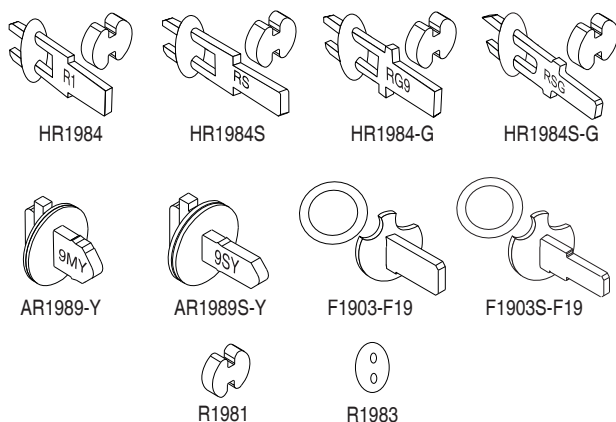

### USES MOST AVAILABLE CYLINDERS

Our locksets accept many other OEM standard, HI-SECURITY™ and IC Core cylinders using MARKS adapter tailpieces.

# SURVIVOR SERIES

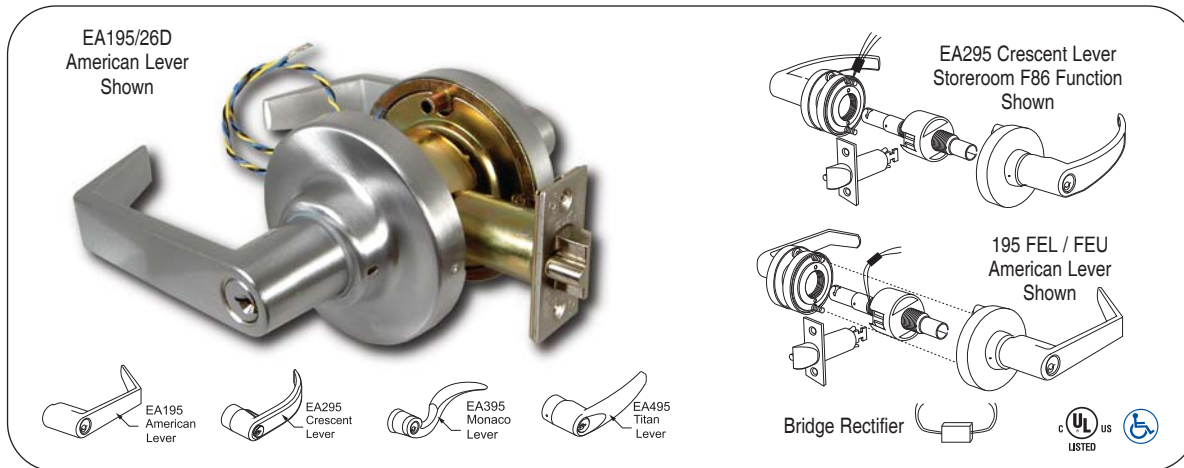

## REX & ELECTRIFIED LEVERSETS LEVERSETS

### ANSI 156.2 GRADES 1 & 2

### SURVIVOR WITH REQUEST TO EXIT

Our Grade 1 Electrified Survivor Series locksets featuring "The Clutch" are available for operation as either electrically locked or unlocked. When locked, the Survivor's clutch disengages the outside lever allowing it to turn freely without opening the latch. The Grade 1 Survivor Series Cylindrical Leverset incorporates a *Request to EXit* switch in both the Electrified (FEL & FEU) and Storeroom functions. Activating the inside lever for egress initiates the built-in REX output, providing a momentary signal for the access control REX input for alarm shunt during egress with all the features of the Survivor Electrified Lockset

# DEFENDER SERIES

## TUBULAR DEADBOLTS & CYLINDRICAL CARTRIDGE DEADLATCHES

### DEFENDER SERIES UNIQUE FEATURES

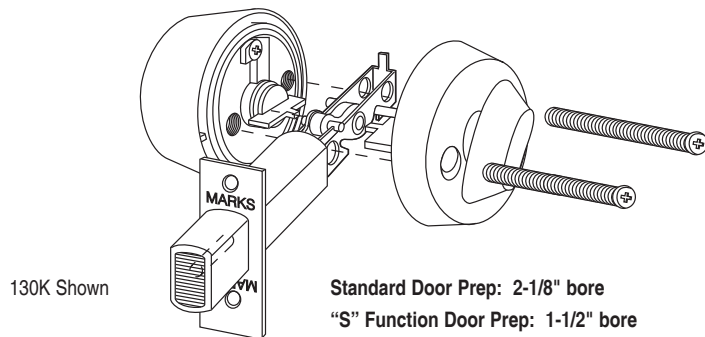

### PROTECTIVE STEEL SHUTTERS

The Defender's steel shutters on the interior assembly conceal and protect the two hardened 1/4" mounting bolts which thru-bolt through the latch assembly.

### SIMPLE FAST ASSEMBLY

- Defender is designed for quick easy installation
- One piece assemblies
- Unitized exterior and interior trim assemblies have no loose components
- Tailpiece orientation and latch positioning, **required on other deadbolts**, is unnecessary
- Trim and latch are fully reversible and can be assembled randomly

### ONE CYLINDER FITS ALL

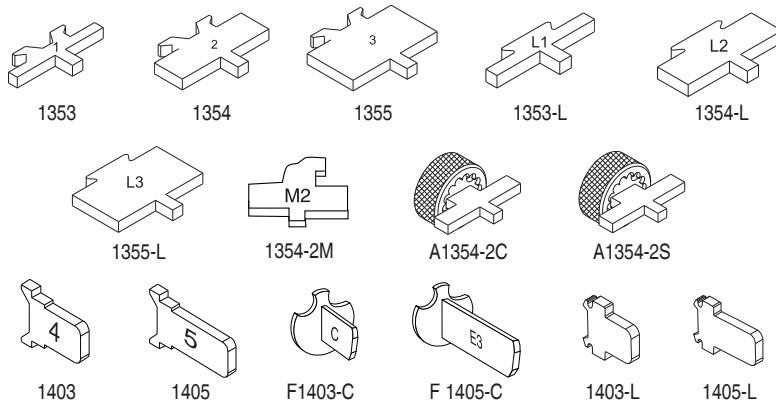

The Defender utilizes standard key-in-knob cylinders; same as MARKS cylindrical locksets. This important feature eliminates extra inventory of special cylinders making the key-in-knob cylinder inventory more versatile.

- Provides access to largest variety of keyways
- Models also available for 6 or 7 pin IC cores (Best™ size)

### EASY RETROFIT DEADBOLT

- Fits standard 2-1/8" diameter door prep
- The Defender offers a choice of tailpieces for MARKS & other OEM cylinders
- Fits 1-1/4" to 2-1/4" thick doors (Normally supplied for 1-3/4" door)
- Marks USA adapter tailpieces available for OEM conventional & IC Core cylinders

# CUSTOM LOCKSET DIVISION

WE MAKE LOCKSETS TO SUIT YOUR NEEDS

## ABOUT MARKS USA

MARKS USA was established in 1977 to serve a growing demand for a mortise lock manufacturing company who would satisfy the needs of an expanding market. Since then, the product line has grown to include residential and commercial locksets to meet and exceed the most stringent UL and BHMA/ANSI specifications. In 1989, the *Custom Lockset Division* was created to accommodate customers with special requirements of either lock function or design. Custom locksets have been developed for municipal and commercial applications as shown. These are various custom locksets developed to accommodate our customers needs. This is only a sampling of our solutions. We at the *Custom Lockset Division* welcome the opportunity to respond to special applications requiring a custom engineered lock product. We look forward to the challenge.

# SS55 SERIES

## INSTITUTIONAL LIFE SAFETY MORTISE LOCKSETS

### ANSI 156.13 GRADE 1

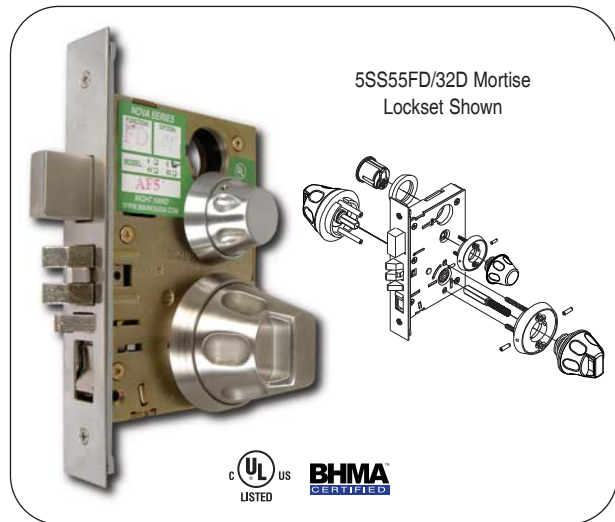

## SS55 SERIES INSTITUTIONAL LIFE SAFETY LOCKSETS

Marks USA Custom Lock Division has developed ANSI Grade 1 Institutional Life Safety Locksets to address Managed Liability, Accident Prevention, Life Safety and Security in Behavioral Health Care Institutions. The shape and construction of the SS55 Series locksets are designed to restrict the attachment of lines, laces, etc. to door knobs. In addition, with the knobs recessed into the rosettes, the chance of capturing a line between the knob and rosette is substantially eliminated.

### STANDARD FEATURES

#### PERFORMANCE SPECIFICATIONS

**Life Test:** 1,500,000 cycles minimum.

**ANSI Test:** Meets or exceeds all operational and security tests of ANSI specifications A156.13-2005 for series 5000, Grade 1.

**Fire Test:** UL Listed, 3 hour fire rated.

#### TRIM SPECIFICATIONS

##### Exterior & Interior Trim:

- Solid stainless steel interior and exterior tapered knobs recessed into thru-bolted roses
- Specially designed finger indented safety knobs with recessed grip and ergonomically designed integral grooved turn knob for elderly and handicapped access (*Patent #D587556*)
- Needle bearings ensure smoothness of operation

**Cylinder:** Solid brass cylinders with solid brushed chrome security collars. Optional HI-SECURITY™ available.

**Strike:** 4-7/8" curved lip stainless steel w/tamperproof screws.

**Door Thickness:** 1-3/4" standard. Extended range available.

**Door Prep:** ANSI A115.1 lock face cutout, with 2-1/8" through hole for knob/rose assembly.

**Backset:** 5 Series: 2-3/4" standard, 55 Series: 2-1/2" optional

**Lock Front:** Adjustable bevel steel backplate 1-1/4" x 8" x 7/64" thick. Cover plate 1/16" thick with tamper proof screws.

**Latch:** Solid stainless steel with antifriction latch lever, 3/4" throw (reversible).

**Aux. Deadlatch:** 1/2" throw, (reversible).

**Case:** Stamped steel 3/32" thick, zinc dichromate finish.

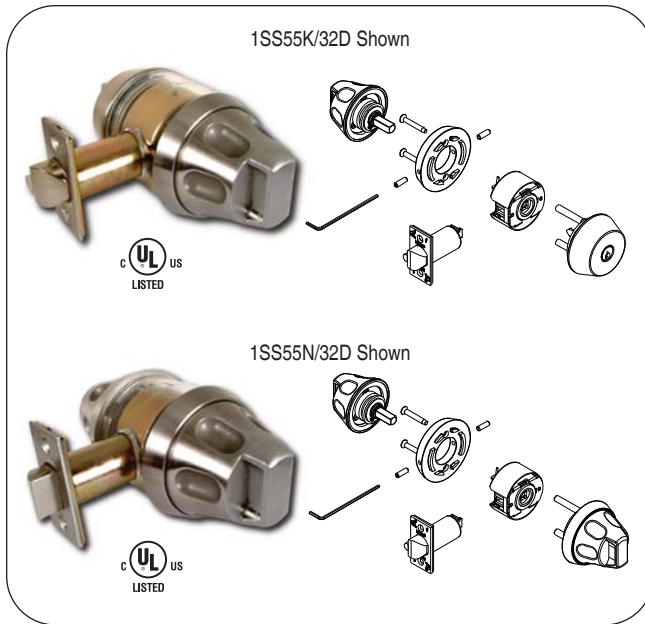

**Hubs:** Steel, 9/32" on diamond, 5/16" on square with security separator.

**Hub Lock Arm:** (to lock hub) Steel 1/8" thick.

**Spindles:** Independent spring-loaded spindles.

### STANDARD FEATURES

#### PERFORMANCE SPECIFICATIONS

- Life Test:** 1,500,000 cycles minimum.
- ANSI Test:** Meets or exceeds all operational and security tests of ANSI specifications A156.2-2003 for series 1000, Grade 1.
- Fire Test:** UL Listed, 3 hour fire rated.

#### TRIM SPECIFICATIONS

##### Exterior & Interior Trim:

- Solid stainless steel interior and exterior tapered knobs recessed into thru-bolts roses
- Specially designed finger indented safety knobs with recessed grip and ergonomically designed integral grooved turn knob for elderly and handicapped access (Patent #D587556).
- Needle bearings ensure smoothness of operation

#### 1SS55K Cylindrical Deadlatch Lockset: ANSI E0121 Cylinder x Knob

Latch by knob inside, key outside.

**Strike:** #1136, 2-3/4" "T" strike; #1135 4-7/8" ASA strike optional

**Door Prep:** ANSI 115.2

**Latch:** ANSI 156.2, Grade 1, 3 Hour fire rated

**Door Thickness:** 1-3/4"

**Backset:** 2-3/4" Backset; 3-3/4" and 5" backsets also available

**Latch Face:** 1-1/8" x 2-1/4" with tamper proof screws

**Cylinder:** Solid brass cylinder, 6-pin, "C" keyway; Optional HI-SECURITY™ cylinders available

#### 1SS55N Cylindrical Lockset: ANSI F75 Passage

Latch by knob either side, always open.

**Strike:** #1136, 2-3/4" "T" strike

**Door Prep:** ANSI 115.2

**Latch:** ANSI 156.2, Grade 1, 3 Hour fire rated

**Backset:** 2-3/4" backset standard, 2-3/8" backset optional; 3-3/4" and 5" backsets also available

**Latch Face:** 1-1/8" x 2-1/4" with tamper proof screws

**Latch Throw:** 9/16"

### STANDARD FEATURES

#### PERFORMANCE SPECIFICATIONS

- Life Test:** 1,500,000 cycles minimum.
- ANSI Test:** Meets or exceeds all operational and security tests of ANSI A156.5-2001 for series 31, Grade 1.
- Fire Test:** UL Listed, 3 hour fire rated.

#### TRIM SPECIFICATIONS

##### Interior Trim:

Solid stainless steel interior trim including finger indented safety knobs which recess into solid brass through-bolts roses.

#### Series 31 Deadlock Specifications ANSI E06071 Cylinder x Turnpiece

Deadbolt by outside key. Interior safety knob will retract but not project deadbolt.

**Backset:** 2-3/4"

**Strike:** #4035 1-1/8" x 3-1/8" standard, #3135 4-7/8" x 1-1/4" optional

**Bolt Throw:** 1" Stainless steel with hardened roll pins

**Case:** Stamped steel

**Front:** 1-1/16" x 4-5/8" adjustable bevel

**Cylinder:** Solid brass cylinder, 6-pin, "C" keyway. Optional HI-SECURITY™ cylinders available.

# PD SERIES HOSPITAL LOCKSETS

## CYLINDRICAL & MORTISE PUSH/PULL PADDLESETS

### CYLINDRICAL ANSI 156.2 GRADE 1 & MORTISE ANSI 156.13 GRADE 1

#### PD SERIES HOSPITAL LOCKSETS

Our unique cylindrical and mortise hospital push/pull paddlesets feature universal assemblies where you can choose to install handles to point two-up or two-down or one-up and one-down. No handing needed. Marks USA design innovation also produced an improved short angle design meaning easier hands free push/pull for the user. Great retrofit, superior for new construction!

# HI-SECURITY™ CYLINDERS

## HI-SECURITY™ CYLINDERS & SECURITY-MATE™ CYLINDERS

### WHAT MAKES MARKS HI-SECURITY™ CYLINDERS UNIQUE?

Marks USA patented HI-SECURITY™ cylinders offer a secondary mechanical locking mechanism that creates resistance to bump and picking attacks. In addition, the design supports a corresponding configuration on the key blank called a "security wave" (shown below) that supports prevention of unauthorized duplication of keys. The locking principal is adaptable to standard cylinders and large and small format interchangeable cores. Marks USA HI-SECURITY™ keyways and security waves are of proprietary origination. The distribution of key blanks is factory controlled. Multiple keyways and security codes are available. Assignment is by geographic or customer category type. The Marks USA HI-SECURITY™ pick and bump resistance features are designed with added security in mind for cylinders, cores and key blanks. In addition, patents provide legal protection for patent infringement against those who attempt to produce or manufacture key blanks or cylinders. Marks USA will aggressively defend its patent rights!

### CYLINDER CONFIGURATION

Marks HI-SECURITY™ cylinders are manufactured of brass bar stock. Cylinders are available in a variety of models. In standard construction, there are 1-1/8", 1-1/4", 1-3/8", 1-1/2", and 1-3/4" mortise cylinders. There are a variety of 1" and 1-1/8" combination mortise/rim cylinders, key-in-knob, large format interchangeable specifically for Medeco®, Schlage® locks and Best® type small format interchangeable core models in 6 and 7 pin lengths. Standard and large format cylinders may be ordered with the UL 437 HI-SECURITY™ option for greater drill resistance, Non-UL with the same pick and bump protection and in Security-Mate™ (A standard pin tumbler only cylinder without HI-SECURITY™ features, but matching the same key blank; shown on page 26). SFIC is currently available in Non-UL model only at this time. There are a variety of keying options available. "Zero-bitted" cylinders are shipped standard with either a factory default security code or are supplied with a specific customer security code. The common pin tumbler section of the cylinder has springs, driver pins and accommodates a key blank cut to zero in all positions.

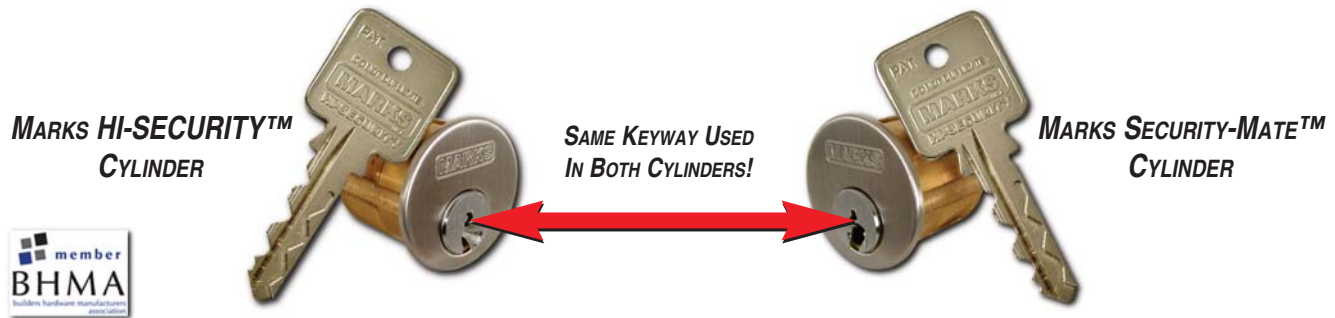

# HI-SECURITY™ CYLINDERS

## HI-SECURITY™ CYLINDERS & SECURITY-MATE™ CYLINDERS

### MARKS SECURITY-MATE™ CYLINDERS

Marks USA Security-Mate™ Cylinders are intended to complement Marks HI-SECURITY™ Cylinder applications. Cylinders may be integrated into a Marks HI-SECURITY™ key system. Driven by dealer and consumer demand for a more economic cylinder solution for interior doors such as closets, where less security is needed but the convenience of carrying a single key is desired, Security-Mate™ is a natural addition to the product line. Security-Mate™ Cylinders are made of quality bar brass with precision tolerances, made in five or six pin configuration and available in Mortise, Mortise-rim Combo and Key-in-Knob cylinder configurations. Only Marks patented HI-SECURITY™ keys will operate the Security-Mate™ Cylinder.

### MARKS USA HI-SECURITY™ KEY CONTROL MANAGEMENT PACKAGE

- 1. A Unique Registered, Securely Designed Scalable System:** A custom security solution is defined after careful consideration of your people, operational and safety requirements. A quality system plan allows for expansion, eliminating obsolescence and costly replacement as much as possible.
- 2. A “Standard” Written Key Control Policy:** Once you have a registered system, implementation is a critical key to maintaining a secure system. We highly recommend a standard template. We also recommend you issue the *Company Key Control Policy* when you issue new keys to every employee.
- 3. Documented Patented Key Control Technology:** Patented lock and key technology is assurance your investment will provide the highest rate of return. Patents protect you from unauthorized key duplication by preventing the manufacturing of key blanks.  
**BEWARE: “DO NOT DUPLICATE” OR SIMILAR WARNING STAMPED ON A KEY IS SIMPLY NOT ENOUGH PROTECTION!**
- 4. Record keeping & Capability of Audit:** Each registered system cut key must have unique identification stamped on the bow, (numbers, letters or symbols). In your “Key Log”, record each key holder with the unique identification number found on the key. Each employee should sign for the key issued with the date noted for the record. Every key is identified as to each cylinder it will operate. This knowledge eliminates risk and when keys are found, it is easy to identify the key holder.
- 5. Process for Retrieving Keys When People Leave the Business:** Accounting for all the keys in the system eliminates the need and cost to re-key. By having people sign for the key when issued, and sign out upon return of the key, you are able to take inventory of all cut and assigned keys and assess risk...If you can account for all of the keys in the system, you simply re-issue an existing key number to a new user.
