MK80SS Fire Rating Update

Our stainless steel MK80SS concealed hinge is now available to order through Masonite for 45- and 90-minute UL rating on wood core fire rated doors.

This coverless hinge, which features 3-dimensional adjustability and a 180° opening angle, is also UL listed for 20-minutes on wood core fire rated doors and 3 hours on hollow metal or steel covered composite fire doors.

Accepting orders immediately, standard lead times apply. For additional information, contact your local sales representative, call the McKinney Customer Service line at 800-346-7707, or visit assaabloydooraccessories.us.

If you are in Canada, contact your Door Security Solutions representative or call the Customer Service line at 800-461-3007.
