700/700E 9700/9700E Series Perimeter Seals

NOTE: Install seals before the closer. Seals installed at head will require the closer body be installed 1/4" lower on the door.

Installation Instructions

1. Cut seal to fit.
2. Drill head piece for mounscrows, avoiding the area where the closer shoe will be located.
3. With door closed, position seal with the gasketing slightly compressed against the door.
4. Install with TEK screws provided, working from one end to the other.

UL10C Positive Pressure
Tested Gasketing
