97V Astragal

Installation
Instructions

1. Cut astragal to fit.
2. Position astragal and mark screw holes.
3. Drill pilot holes for screws using a 7/64" drill bit.
4. Mount one piece of astragal on each leaf. The gasket material is tapered to allow smooth operation of either door. The overlap should be approximately 1/4".
5. Adjust position so astragal does not impede proper closing and latching of doors.
