NGP SECURITY DOOR GUARD

SDG

1. Determine mounting height, considering disabled persons accessibility.
2. Apply the mounting template sticker to the frame at the mounting height.
3. Center punch and drill 5/32" pilot holes where indicated.
4. Remove mounting template sticker.
5. Mount to door frame with fasteners provided.
6. VERIFY OPERATION: Close door, press grooved surface to extend lip and confirm it prevents door from opening.
7. Close door and retract lip. Door should operate freely.
