

# Aluminum Finisher (AF) Series

The AF Series of end mills are optimized for slotting and finishing non-ferrous materials.

## Features and Benefits

- 2 flute tools with open flute geometry optimized for slotting applications.
- 3 flute tools with large “sweet spot” for chatter free machining at high RPM and heavy cuts.
- Chip former on flute face for optimal chip removal. Heat and chips on deep pocket applications.
- Reduced chatter will increase tool life, produce a higher quality part and optimize cutting efficiencies.
- Polished flutes for better chip removal and low HP requirements.
- Industry’s largest selection of corner radii and neck and flute lengths in a standard program.
- Available uncoated with high polished flutes and specialty ZRN coatings for Aluminum.

## Applications

- Slotting
- Pocketing
- Profiling
- High Material Removal

## Usage

- ISO N Non-Ferrous
- Aluminum
- Brass
- Bronze
- Copper
