

## Eco-V™ Thresholds

- Eco-V™ thresholds create an ideal transition where two different pieces of carpet meet, or carpet meets another surface under a door
- Ideal for use in any high-traffic commercial installation, such as hotels and offices
- Eco-V™ thresholds are manufactured from slightly softer material than competitive products. This aids in the cutting and fitting of the threshold and facilitates easier

insertion of the carpet into the holding cavities on the carpet side(s) of the threshold

- Eco-V™ thresholds are designed to work in conjunction with PEMKO's **2173\_V**, **2113\_V** and **2343\_V** door shoes
- EV232\_**, **EV2325\_**, and **ADJ232V** thresholds have been tested and approved under **ADAAG-2010 (Amended)**; **ICC/ANSI A117.1** and **California Building Code**, Title 24 for Barrier-Free Entry
