

GENERAL CATALOG

WHEN YOU NEED BATHROOM
SAFETY PRODUCTS,
THINK OF PONTE GIULIO FIRST.

WE REALLY ARE THE BATHROOM SAFETY EXPERTS.

Ponte Giulio USA is the North American office and warehouse for our parent company which is located in Orvieto Italy. We manufacture Bathroom Safety Products – shower seats, shower enclosures, ergonomic sinks, accessible wall-hung cabinetry, and grab bars – everything for accessibility in the bathroom.

Ponte Giulio has been manufacturing bathroom safety products for well over 40 years, always with safety and accessibility at the center of our design. Our engineers and designers constantly strive to create new products that will lead the market with innovation, style, function and beautiful aesthetics.

Our name is pronounced Pon-Tay Julie-O.

We offer products for commercial and residential installation. Architects, designers, contractors, builders and remodelers rely on Ponte Giulio to supply the best modern safety products for every application. Grab bars are the most frequently installed safety product and we offer a full range of products to choose from including Stainless-Steel, the workhorse of commercial projects.

SEATS AND BENCHES

Ponte Giulio has been designing
and manufacturing
bathroom seating for
over 40 years.

We are experts in this
unique market.

These seats have a steel core for
strength and durability.

A **lifetime warranty** is offered.

Ponte Giulio stands
behind our products.

PONTE GIULIO IS THE BATHROOM SAFETY EXPERT AND NOWHERE IS THAT MORE EVIDENT THAN IN OUR SEATING OPTIONS.

- We offer the greatest selection of seats - no other manufacturer in the world comes close to offering the different styles, shapes and colors that we design and manufacture including seats for both commercial and residential use.
- Our quality seats, meet and exceed ADA guidelines, stand up to the rigors of non-stop commercial use yet appeal to residential bathroom clients.
- Every seat is designed for functionality and safety. Our tension system prevents seats from falling and the hinge systems have no finger-pinch points. The superior materials used in these seats, frames and mounting flanges add to their strength and durability. We never stop improving our products.

- 330-pound load capacity
- Will tolerate wet, heat and humidity of bathroom but can be used anywhere in the home
- Match the legs of your chair to HUG grab bars, view on page 74-75

GRAB BARS

Grab bars are the most **economical** safety product. Anyone, young or old, can fall in the bathroom because it is a slippery, wet environment. Installing grab bars can help prevent slips, trips and falls. Think of grab bars as the “seat belt” of the bathroom – designed to **keep you safe** if you ever need it.

Ponte Giulio offers grab bars for every budget and design preference.

Choose from stainless-steel, vinyl coated or multiple designer styles. The best grab bar is the one properly installed and available for use today.

HOW TO MEASURE GRAB BARS

Grab bars are measured from center flange to center flange. This means a grab bar is often longer end-to-end than the length ordered. The grab bar style and flange placement may affect the overall length. If ordering for a tight space, consider the end-to-end length.

ANTI-MICROBIAL PROTECTION ON MAXIMA PRODUCTS

BIOCOTE® SILVER ION TECHNOLOGY IS A PROVEN, PERMANENT PROTECTION AGAINST BACTERIA AND FUNGI.

The vinyl coating on Ponte Giulio Maxima and Contractor series products are anti-microbial due to the BioCote® Silver Ion technology in the vinyl that reduces microbes, bacteria and fungi up to 99.9% making our products much more hygienic.

The vinyl is easy to clean, just wipe with warm water using a soft cloth and the grab bars are clean. In addition, the vinyl coating provides a superior non-slip grip that is like sneakers on a gym floor.

The vinyl coating also is softer and warmer to the touch. Maxima and Contractor are SUPERIOR safety products.

BioCote® is a leading provider of anti-microbial / anti-bacterial technology to manufacturers around the world. BioCote® technology integrates anti-microbial protection into any surface or products, reducing microbes by up to 99.9%, making them much more hygienic and defending the surface against degradation, odors and staining. For more information visit: www.biocote.com

BioCote® protects against bacteria and fungi:

- Escherichia coli (E.coli)
- Streptococcus
- MRSA and MRSE
- Legionella
- Shigella
- Salmonella
- Klebsiella
- Listeria
- Aspergillus brasiliensis and Aspergillus niger (fungi)
- H1N1 Virus

CONTRACTOR SERIES OFFERS ANTI-MICROBIAL PROTECTION

D1-Black

D2-Gray Stone

I2-Biscuit

II-Ivory

W1-White

The vinyl coating on Ponte Giulio Contractor series products is anti-microbial due to the BioCote® Silver Ion technology in the vinyl that reduces microbes, bacteria and fungi up to 99.9% making the grab bar much more hygienic.

The vinyl is easy to clean, just wipe with warm soapy water using a soft cloth and the grab bars are clean. In addition, the vinyl coating is softer and warmer to the touch. Contractor is a SUPERIOR safety product at an economical price.

Real Ash Wood Hand Rail / Grab Bar

G13UAS03 – 18" Length (22" End to End)

G13UAS04 – 24" Length (28" End to End)

Materials: Stainless Steel and Ash Wood

Introducing a real wood grab bar. Made of Ash wood coated with a protective finish. This flangeless grab bar comes in the Prestigio Plus style with cylindrical peg mounts. Available in 18" or 24" lengths (measured center flange to center flange) with an end to end length a bit longer.

- 330-pound load capacity
- 1 1/4" diameter for easy, comfortable grip
- ADA rated
- HUG Baskets (vertical) and Shelf (horizontal) will work with this grab bar

See page 12
for more
details

PONTE GIULIO CUSTOM FINISH

Dye-infusion is a technically advanced process that allows Ponte Giulio to replicate virtually any finish and print on grab bars. The process uses a combination of high-tech, high-temperature “printing” techniques directly on a surface, allowing the dyes to deeply penetrate and stay. The result are products with accurate replica finishes and prints of any kind, that are extremely resistant to wear-and-tear and aggressive cleaning agents.

- H52HAS07
- Siphoned Drain

- H52HAM01
- Sump drain system with square cavity

- H52HAS12
- Shower Pan Drain

- H52HAS06
- Shower Pan Drain, flush

The presence of the backward reinforcement profile makes it possible to adapt the dimensions of the plate, during installation, thanks to a surface for the entire perimeter of the plate of 40 mm.

In addition, this technical solution allows the plate to be installed both "above floor" and "flush" with the floor. In the case of "above floor" installation, the access step is reduced to only 12 millimetres.

SOLO SHOWER SYSTEM

INTRODUCING THE NEW SOLO SHOWER COLUMN. THIS IS TRULY A SAFETY PRODUCT HIDING IN PLAIN SIGHT. IT LOOKS LIKE A BEAUTIFUL SHOWER COLUMN AND HEAD BECAUSE IT IS! BUT IT IS ALSO A STAINLESS-STEEL GRAB BAR WITH BRASS FITTINGS AND COPPER PIPE INSIDE THE WATER FLOWS RIGHT THROUGH THE BAR. OVERHEAD AND HAND-HELD SHOWER HEAD OPTIONS MAKE THIS A BEAUTIFUL ADDITION TO THE MODERN BATHROOM SHOWER. MADE IN ITALY OF THE HIGHEST QUALITY MATERIAL THIS SHOWER SYSTEM WILL LAST FOR YEARS.

Magnetic Shower

H51HGS41

Materials: Stainless Steel – ABS

- Wall mount strip is 27" long and 1 ¼" wide
- Shower head is 9" long and 2" wide
- Smooth hose is 6 feet long
- Strong magnets hold shower head anywhere on wall strip
- Strong magnets help dissolve lime scale in water
- People with pacemakers should use caution when using this shower
- Easy installation, 3M tape holds on smooth surface
- Keep shower head within easy reach

KIT "Column"

Column Bathroom Accessory Kit 1

WKCO0001xx

Color / Finish: N1 Satin, N2 Polished

Materials: Stainless Steel

- Includes Toilet Paper Holder, Towel Bar and Hanging Towel Holder
- Decorative products, not to be used as grab bars

KIT

Column Bathroom Accessory Kit 2

WEKCO001xx

Color / Finish: N1 Satin, N2 Polished

Materials: Stainless Steel

- Includes Expandable Toilet Paper Holder, Towel Bar and Hanging Towel Holder
- Decorative products, not to be used as grab bars

KIT "Circle"

Circle Bathroom Accessory Kit

WKCI0001xx

Color / Finish: N1 Satin, N2 Polished

Materials: Stainless Steel

- Includes Robe Hook, Toilet Paper Holder, Towel Bar and Hanging Towel Holder
- Decorative products, not to be used as grab bars
- Save money by purchasing the complete kit

Towel bar

Robe hook

Toilet Paper holder

Hanging Towel holder

Triangular

Rectangular

Stainless Steel Corner Basket

F41AJM01C1 – Triangular

F41AJM02C1 – Rectangular

Color / Finish: C1 – Chrome

Materials: Stainless Steel

- 6" each side, 1 ½" high – Triangular
- 8" wide, 5" deep, 1 ½" high – Rectangular
- Mounts securely to wall

Corner

Long Right

Long Left

Curved

Stainless Steel Shelves with Assist Bar

G02AOS01xx – Corner, 9" x 9"

G02AOL02xx – Long Left-handed, 16" x 9"

G02AOR02xx – Long Right-handed, 16" x 9"

G02AOS03xx – Curved, 13 3/8" wide, 6" deep, 5" high

Color / Finish: D1-Black, D2-Gray Stone, I1-Ivory, I2-Biscuit, W1-White

Materials: Stainless Steel, Vinyl

- Super strong combination shelf and grab bar
- Select color for grab bar, the shelf is stainless steel
- 250-pound load capacity and higher

Large Towel Bar with Shelf, Stainless Steel

F47APS04C1

Color / Finish: C1-Chrome

Materials: Stainless Steel

- 26" wide, 10" deep, 8 ³/₈" high
- Keep towels close at hand

Towel Bar with Top Shelf, Stainless Steel

F47APS01xx

Color / Finish: N1- Satin – similar to Brushed Nickel, N2-Polished

Materials: Stainless Steel

- 25" wide, 7 ³/₄" deep, 4 ¹/₂" high
- Bar is ¹/₂" diameter
- Keep towels organized

Magnifying Mirror, 3.5X

F47ATS14C1

Color / Finish: C1-Chrome

Materials: Zinc alloy, Tritan

- 8" x 8" mirror
- Arm extends 4" to 16"
- Crystal clear 3.5X magnification
- Mount to wall

Shower Head

H51GHS35

- 5" wide, 2 3/4" deep, 9 3/4" high
- Chromed head with 3 function button

H51GHS36

- Shower Hose (smooth surface)
- 69" long
- 1/2" G connectors

Shower Head

Y91JOS08

- 3 1/4" wide, 6 3/4" deep, 7" high

Y91JOS07

- Shower Hose (ridge surface)
- 60" long
- 1/2" G connectors

FASTENERS

For secure and safe installation of bathroom accessories.

Commercial BEAST fastener. Stainless steel and 3M VHB waterproof adhesive.

Y96SES58N1

Color / Finish: NI Satin

Materials: Stainless Steel

- Water and fire resistant
- Exceeds ADA load capacity requirements and all building codes
- Rated up to 800LB in drywall with tile
- Use drill Bit Y96SFS02

OPTIONAL

- **Y96SFS02**
- Commercial beast Fastener
- 1 1/4" drill bit

Grab Bar Fastener

Y96SES56

Color / Finish: N.A.

Materials: N.A.

- Exceeds ADA load capacity requirements and all building codes
- Rated up to 600LB in drywall with tile
- Drill Bit part number: Y96SFS01

OPTIONAL

- **Y96SFS01**
- Standard Fastener 3/4" drill bit
- 3/4" drill bit

WALL HUNG CABINETS

The Ponte Giulio wall hung cabinets are beautiful, modern and very functional. Cabinets provide needed **bathroom storage** and are also an example of a safety product hiding in plain sight. **Optional grab bars** can be installed vertically as part of the cabinet mounting and allow the grab bar to blend into the cabinet.

F47APS06 Small wall cabinet – F18UWS01 Side mount grab bar – F47APS08 Large wall cabinet – F18UWS02 Side mount grab bar

WALL HUNG CABINETS

• BZ

• IB

• WD

1. Cabinets are available in three neutral colors: Mid-Blue (BZ), Silk (IB) and Pure White (WD).
2. Cabinets can be ordered with shelves and doors.
3. Grab bars that can be hung with the cabinets and come in amazing HUG finishes including Bright (N2), Lime (G9), Copper (R2), Purple (P5) or Signal White (WE).

PAGE 180

PAGE 183

Wall-Hung Large Cabinet with Door, 60" Tall

F47APS08xx – Cabinet

F18UWS02xx – Side Mount Grab Bar with Fixing Brackets

B41DCS35 – Fixing Brackets

Cabinet Color / Finish: WD-Pure White, BZ-Mid-Blue, IB-Silk

Side-Mount Grab Bar Color / Finish: N2-Bright, WE-Signal White, G9-Lime, R2-Copper, P5-Purple

Materials: Stainless Steel, Aluminum, Painted Medium Density Fiberboard (MDF)

- Cabinet is 60" tall, 12" wide, 7" deep
- Door opens with an easy push touch
- Great storage option for accessible or small bathrooms
- Cabinet may install with side-mount grab bar to provide added safety
- Side mount grab bar has 265-pound load capacity
- If not using side-mount grab bar, the fixing brackets should be ordered

OPTIONAL

- **F18UWS02**
- Side Mount Grab Bar with
- Fixing Brackets
- 5 color options

- **B41DCS35**
- Fixing Brackets
- Use if not adding the grab bar

F47APS08 Cabinet - G18UWS02 Side mount grab bar

Wall-Hung Small Cabinet with Partial Door, 46" Tall

F47APS06xx – Cabinet

F18UWS01xx – Side Mount Grab Bar with Fixing Brackets

B41DCS34 – Fixing Brackets

Cabinet Color / Finish: WD–Pure White, BZ–Mid-Blue, IB–Silk

Side-Mount Grab Bar Color / Finish: N2–Bright, WE–Signal White, G9–Lime, R2–Copper, P5–Aubergine

Materials: Stainless Steel, Aluminum, Painted Medium Density Fiberboard (MDF)

- Cabinet is 46" tall, 8" wide, 6 ¾" deep
- Door opens with an easy push touch
- Great for storage of both hidden and visible items
- Excellent option for powder room
- Install cabinet with side-mount grab bar to provide added safety
- Order side mount grab bar separately, F18UWS01
- If not using the side-mount grab bar, the fixing brackets should be ordered
- Side mount grab bar has 265-pound load capacity
- A great way to have safety hidden in plain sight

OPTIONAL

- **F18UWS01**
- Side Mount Grab Bar with
- Fixing Brackets
- 5 color options

- **B41DCS34**
- Fixing Brackets
- Use if not adding the grab bar

ALPHANUMERIC INDEX

This is a list of product part number codes, in alphanumeric order, with page numbers. Each code is associated with the page number in which the article is described.

LIST OF MATERIALS

ABS

Acrylonitrile butadiene styrene or ABS is a common thermoplastic polymer. It offers mechanical resistance and physical stability. This plastic is resistant to impacts and corrosive chemicals, features a lovely shiny surface, is non-toxic and can be recycled.

Acrylic Stone

This composite, synthetic material blends the features of natural elements such as stone, with the advantage of being manufactured in any shape. Generic term for Corian by DuPont or LG Hi Macs. Solid surface, durable, easy-to-clean, non-porous material so stains do not penetrate the surface. Used to manufacture sinks, shower trays and accessories.

Aluminum

It is extremely soft, light, and resistant to oxidation thanks to a thin layer of oxide on the surface which prevents the oxygen from corroding the metal beneath. Aluminum is strong, corrosion resistant and will not rust.

High Pressure Laminate (HPL)

Compression molded laminated plastic, excellent strength and stability, ARC and solvent resistance. Used for commercial products that must stand up to non-stop use. Also called PHENOLIC.

Mineral Composite

It is a synthetic material formed by at least 75% of stone from the Dolomites. It is an ecological material, chemical resistant, durable with high impact strength and outstanding electrical insulation. Used to manufacture sinks and shower trays.

Nylon

A synthetic polymer, thermoplastic material that is injection molded. This tough, strong, easy to clean material is also soft and comfortable. Used to manufacture flange covers & slats for some seats. Also called POLYAMIDE.

Polyethylene (PE)

Polyethylene is a synthetic polymer and the most common plastic. Ponte Giulio uses PE-LD, low density version in products. It is flexible, soft and tough, it may be recycled and is safe.

Polyurethane (PU or PUR)

Is a polymer. It is soft, comfortable, durable, lightweight and easy to clean. Used in production of shower seats.

Porcelain

Hard porcelain is a mixture of feldspar, kaolin and quartz. It undergoes a firing process with temperatures between 1000°C and 1500°C where it acquires features such as resistance to scratches, impacts and chemical agents. Ponte Giulio uses porcelain to produce sinks, the white ceramic is durable, smooth, easy to clean with natural beauty.

Safety Glass

Used in shower enclosures, safety glass is less likely to break or cause injury if it does break. Safety or tempered glass is 5 to 10 times stronger than regular glass.

Stainless Steel

Stainless steel is an iron alloy which provides resistance to corrosion especially when used in damp environments or with fresh water. Ponte Giulio uses stainless steel will not rust, is durable, tough and strong and less likely to ding or burr.

Steel

It is an alloy composed mainly by steel and up to 1.7% of carbon. Steel is commonly referred to as "Iron". It is lightweight and very strong.

Stainless Steel

Stainless steel is an iron alloy which provides resistance to corrosion especially when used in damp environments or with fresh water. Ponte Giulio uses stainless steel that will not rust, is durable, tough and strong and less likely to ding or burr.

Vinyl

Is the world's most versatile plastic, it is soft and warm to the touch, when used to produce grab bars, it seals and prevents water from reaching the steel pipe. Vinyl grab bars offer a superior grip. Ponte Giulio treats their vinyl with BioCote, making it anti-microbial.

Zinc-Plated Steel

Zinc-plating is a surface coating that will prevent corrosion and rust. It is strong, durable and used in Ponte Giulio mounting systems, hinges and product frames.

Ecology

This document has been produced with the greatest possible respect for the environment. We also suggest that those who will be using it contribute to this by passing it on to other people after consultation, or by recycling it.

Warning

The information and data provided in this document, even if verified and compiled with the utmost care, cannot be considered binding.

Ponte Giulio reserves the right to make changes, even without notice, in order to improve the characteristics of its products.
