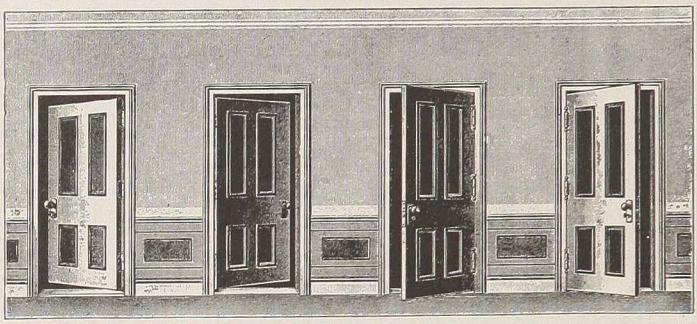
Hand of Doors.



Right Hand. Left Hand. Right Hand. Reverse Bevel. Left Hand. Reverse Bevel.

The Hand of a Door is determined from the outside of a Building, Room or Closet.

In ordering Locks or Latches that are not reversible, the Hand of Door must always be specified.

Right Hand Doors	require	Right Hand Locks.

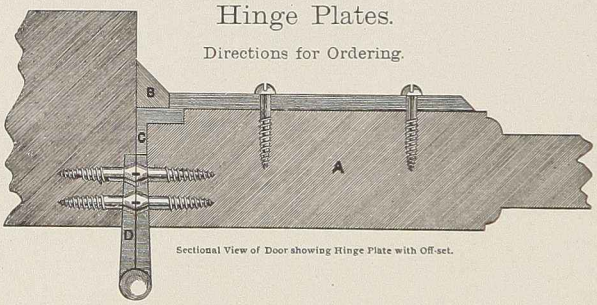
Hinge Plates.

Directions for Ordering.



Sectional View of Door showing Hinge Plate with Off-set.

All Hinge Plates are made without Off-set, unless otherwise specified in order.

Hinge Plates with Off-sets can be furnished to order at extra cost.

When ordering, be particular to give measurements as follows:

1 Hand of Door.
2 Thickness of Door (A).
3 Width of Stile (A).
4 Width of Stop (B).
5 Length of Drop (C) to meet Butt.
6 Size of Butt (D).
7 Distance from Top of Door to Top of Butt.
8 Distance from Bottom of Door to Bottom of Butt.

For Doors opening out give measurements Nos. 1, 2, 3, 6, 7 and 8.

For Special Shaped Doors or Panels, send Drawing.

HAND OF DOORS.

HINGE PLATES.

Finishes Nos. 3, 4 and 5 are for Ornamented Surfaces only. Nos. 14, 21, 26, 27, 28, 36, 37, 44 and 46 are for Plain Surfaces only. Other Finishes are adapted for either Plain or Ornamented Surfaces.

FINISHES.

DESIGN AND FINISH.

In ordering ornamented goods from this Catalogue, the name of Design and number of Finish must always be specified, as the same base numbers are used to designate corresponding articles in all designs.

On Plain goods, which have the letter P prefixed to the base numbers, it is only necessary to give the catalogue number and number of Finish wanted.

For List of Finishes, see preceding page.

Screwless Spindle Door Knobs.

Our Screwless Spindle, as shown in the above cut, is an improved device for firmly securing knobs to the spindle at any point desired, without side knob screws, thus avoiding the possibility of knobs becoming loosened by constant wear. The adjustment is made entirely on the inside knob, the outside knob being permanently fastened to the spindle, so that it cannot be removed or stolen. The Screwless Spindle also possesses the advantage of insuring accurate adjustment to doors of any thickness without the use of washers.

All our Cast Bronze Door Knobs can be furnished to order with Screwless Spindles, at extra cost.

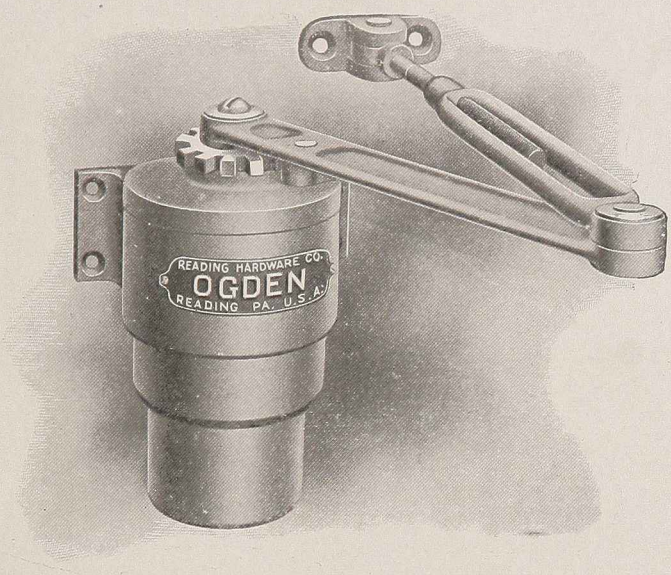
Ogden Door Checks.



The OGDEN Automatically Regulated Liquid Door Check and Spring.

PRICE LIST AND SPECIFICATION OF SIZES.

Regular Finishes on Iron—Gold Bronze, Silver Bronze or Dead Black Japanned.
Unless otherwise ordered, we will send Gold Bronze.

Size		Each
O.	—For Screen Doors only,	$3.00
A.	—For Light Inside Doors under 7 feet high, 2 feet 6 inches wide,	4.00
B.	For Heavy Inside Doors under 7 feet high, 2 feet 9 inches wide, For Vestibule and Light Outside Doors under 7 feet high, 2 feet 4 inches wide,	5.00
C.	For Extra Heavy Inside Doors, such as corridor and office doors. For Outside Doors under 7 feet 6 inches high, 3 feet wide,	6.00
D.	—For Doors under 7 feet 6 inches high, 3 feet 6 inches wide,	8.00
E.	—For Doors under 8 feet 6 inches high, 4 feet wide,	10.00
F. Special	—For Extra Heavy Doors under 12 feet high, 4 feet wide. This check will work where everything else has failed. Will handle any door satisfactorily,	12.00

The foregoing specifications apply to doors under normal conditions.

If the door is subject to strong draughts use a size larger check. Our "F Special" is designed particularly for large front doors of tall office and public buildings, railway stations, etc. It is a powerful, long, steady check, overcoming all danger of heavy doors closing too quickly, caused by high winds, elevator shafts and other abnormal conditions.

Sizes O, A, B and C are packed 12 in a case; half each hand.
Sizes D, E and F are packed 6 in a case; half each hand.

Cuts are one-third size.

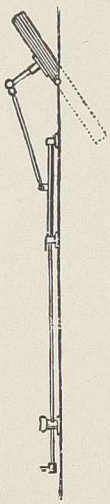
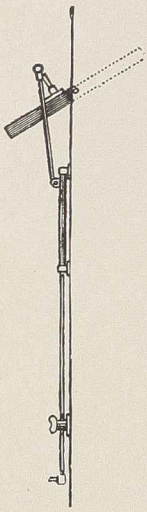
Payson's "Solid Grip" Transom Lifters.

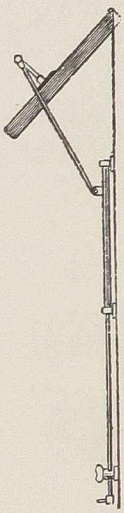
Reversible. Self Locking.
Adapted for either Top, Bottom or Centre Hung Transoms.



Class No. 1.
Centre Hung.
(Pull down to open.)



Class No. 2.
Centre Hung.
(Push up to open.)



Class No. 3.
Top Hung.

Class No. 4
and Special Class 4.
Bottom Hung.

Regular Classes are as follows :

Class No. 1,	Centre Hung.	Pull down to open.
" 2,	" "	Push up to open.
" 3,	Top Hung.	
" 4,	Bottom Hung.	

A "Special Class 4," with separate guide for Bottom Hung Transoms, where the wood-work will not admit of the use of regular goods, can be furnished at 20 per cent. advance over regular list.

In ordering, give Size Number, Class Number and Finish. Bottom Hung Transoms always require Lifters 18 inches longer than Top or Centre Hung.

The lengths listed are obtained by taking the combined lengths of both main and connecting rods.

To find proper length of Lifter wanted, measure from floor to centre of Transom, then deduct 5 feet for a top or centre hung Transom; or 3½ feet for a Transom hung at the bottom.

All "Solid Grip" Lifters, except ¼ inch rods, have a Wrought Steel Bracket, which reverses without detaching.

Special Brackets for deeply recessed Transoms can be ordered of any size.

For prices see following page.

"Reading" Transom Lifters.

"Reading" Transom Lifters work equally well on transoms fitting flush with the door casing, or recessed to any depth up to 6 inches.

In applying, place the locking case as close to the thumb-piece as the movement of the transom will allow.

Please paste in Reading Hardware Co.'s Architects' Catalogue to face page 442.
