Waste Containers

Renowned as the most complete and thorough line available, Rev-A-Shelf's waste container series includes traditional wire, classic wood, and luxurious aluminum frames; original polymer and contemporary stainless steel containers; side, bottom, top and door mount options; brushed aluminum, Quadro, Blum Tandem slide systems; pullout and pivot-out functions, and Blum Electric Servo-Drive. The options are endless. From the RV Series for small clearance cabinets to the recycling center for the environmentally conscious, we have designed a pullout waste container for every situation in your home.

5149 SERIES DOOR MOUNT WASTE CONTAINERS

Waste containers need not be an eyesore. Update your space with the Rev-A-Shelf single and double door mount waste containers — featuring a sleek anodized aluminum frame that glides effortlessly on Rev-A-Motion™ soft-close slides. The coordinating polymer base and bins are available in silver and white, and they come in a variety of sizes depending on your disposal needs. For trouble-free installation, we've also included our patented door mount brackets, which allow up to five inches of flexibility to fit any door style.

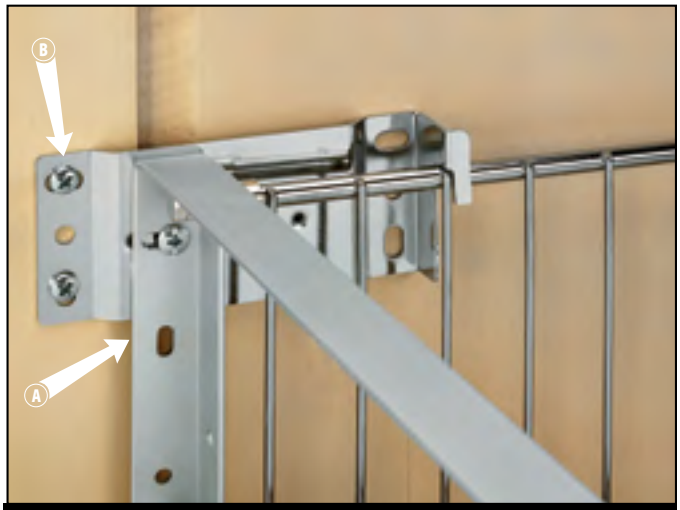
5345-DM-KIT-1 5349 DOOR MOUNT EXTENSION BRACKETS

Introducing another Rev-A-Shelf original… Door Mount Extender Kit. Designed for our aluminum frame pullouts, this door mount kit attaches to the existing door bracket for extended mounting adjustability to any cabinet door style where previously a sub-door would have been required.

Allows adjustment from ¾" (19 mm) - 2½" (64 mm) per side!

Slide template back from front of cabinet 3⁄16" (5 mm) when using extension brackets!

Several Width Adjustments



View of circumstances requiring 5345-DM-KIT. Notice how stock mounting position would place wood screws dangerously close to the edge of the door frame (A), which may cause the wood to split. With the Door Mount Extension Brackets you can safely affix the door using a much stronger area (B).

4WCBM SERIES BOTTOM MOUNT WOOD WASTE CONTAINERS

The 4WCBM Series Waste Containers feature Rev-A-Shelf's patented Rev-A-Motion™ Soft-Open/Soft-Close slide system. The innovative gas spring assisted Soft-Open allows the unit to open smoothly and the Soft-Close shuts softly, even under the heaviest of loads.

Available in single 35 & 50 QT or double 30, 35 and 50 QT models, all units feature metallic silver waste containers and built-in door mount brackets. Many have a removable wood bin in rear for bag storage. The 4WCBM is easy to install and features a beautiful dovetail constructed frame, concealed 150 lb. slides for a clean look.

The unique design allows installation into 1½", 1⅝", and 1¾", face frame sizes, as well as frameless constructions.

4WCSD SERIES ELECTRIC ASSIST WASTE CONTAINERS

The 4WCSD is the first electronic assist offering for your home by Rev-A-Shelf. As you would expect, this is available as a complete kit with a dovetail maple drawer box, adjustable door mounting brackets, durable polymer waste containers, plus Blum's TANDEM heavy duty full extension concealed runners with BLUMOTION soft close and SERVO-DRIVE touch-to-open. With just a touch on the front of the door or with a light pull of the handle, the waste container opens automatically – perfect for when your hands are full of messy garbage and you can't access your pullout waste container.

110V

FRAMELESS NOTE:
Frameless minimum openings are the same as face frame. While the slides (the widest point) will fit tightly within the cabinet, the drawer box is slightly smaller to ensure flawless action.

582-18-LMP - 2-Tier Left Door Mount "Curve" for Blind Right Corner Cabinet

"The Curve" takes luxury blind corner storage to the next level! The individual door mountable shelves provide a custom 2-Drawer look for your blind corner, and allow for complete access to your cabinet, utilizing an amazing 775 sq. inches of surface area. This product glides on our innovative roller coaster design and heavy-duty soft-closing slides (recommended not to exceed 60 lbs. per shelf). The shelves feature maple with Stylinox™, an Anti-Skid transparent coating that not only prevents skidding, but protects the wood from damage. Available for left and right hand blind corners, "the curve" has fully adjustable mounting brackets that allow it to work in full height, drawer/door, or custom 2-drawer applications.

5707 SERIES BLIND CORNER ORGANIZER WITH SOFT CLOSE

Blind corners brim with storage opportunity thanks to the state-of-the-art Rev-A-Shelf 5707 Series. Two large and two small chrome plated baskets accommodate a variety of items, and dynamic pivot sliding hardware provides easy access to areas once deemed unusable. We've also limited the annoyance of slamming cabinet doors with the addition of Rev-A-Motion™ Soft-Open/Soft-Close technology. For headache-free installation, we've included universal door mounting hardware for left or right hand applications as well as our door tilt adjustment screws for precise door alignment. The blind corner organizer can be utilized in both face frame and frameless cabinets with 15" and 18" openings.

- Comes with universal door mounting hardware
- Includes door tilt adjustment screws for precise door alignment
- Can be utilized in face frame and frameless cabinets with 15" and 18" openings
- Soft Close

599-18-LMP - 2-Tier Left Door Mount for Blind Right Corner Cabinet

Optimize your storage with this luxurious blind corner organizer. As you pull open the cabinet door the front baskets slide & rotate out of the cabinet while the rear baskets move into sight from the depths of the blind corner. Each rear basket can then be independently pulled open allowing full access to those hard to find items.

The shelves feature Stylinox™, an Anti-Skid transparent coating that not only prevents skidding, but protects the wood from damage.

Available for left or right hand blind corners, and gliding on soft-close slides, it's the perfect addition to your full height blind corner cabinet.

LAZY SUSANS HALF MOON

Take your blind corner cabinet from worthless to wondrous with the addition of a Rev-A-Shelf Half-Moon Shelf System. Available with Polymer, Wood or Natural Wood Shelving, this one-of-a-kind product is able to store and support a large quantity of items.

Polymer Half-Moon Shelves come as a single or double shelf set, and are offered in almond or white coloring. Wood and Natural Shelves, on the other hand, are only available as double-tier units. Regardless of the set you choose, all versions of the Half Moon operate with Pivot and Slide technology*. They also include 90 degree hinge euro brackets in addition to standard and mounting brackets. While practical, the Half-Moons have elements of style, like chrome-plated shafts that perfectly complement the shelving type of your choice.

**Please note that pivot-only versions of the Polymer Double Shelves are available for purchase. Half-Moon Slide kits are also available for individual purchase.*

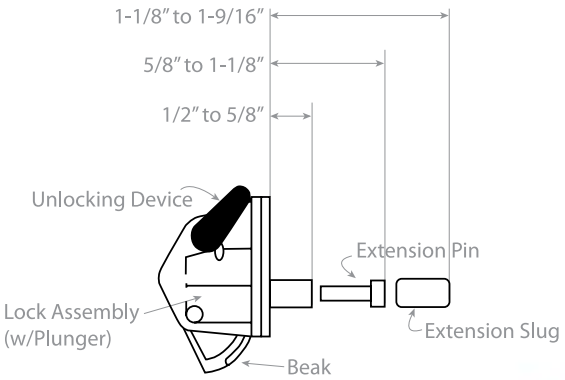
Lock Engaged

Lock Disengaged

Introducing the revolutionary peace of mind accessory for any parent or grandparent, the Rev-A-Lock. This security device is one-of-a-kind with powerful magnetic locks that can attach to wood, glass, metal, and particleboard cabinets for a guaranteed safeguard from curious little hands. To open the cabinet, simply hold the magnetic key against the cabinet door to disengage the lock. The RL Series also features an unlocking device that allows a disabling of the lock so cabinets can be opened without the key.



The lock will install on thickness of ½" (13 mm) to 1⁹⁄₁₆" (40 mm) and operate through wood, glass, metal and particle board.

6581, 6541, 6881 SERIES (TIP-OUT) TRAY SETS W/SOFT-CLOSE

Now you have the convenience of extra sink front storage with the luxury of silence with this easy to install soft-close hinge. Designed for use with all of our Rev-A-Shelf Tip-Out trays, the unique soft-close piston eliminates slamming and the 50 degree opening allows for complete accessibility to items stored within. These hinges have precise movement for smooth, tight operation, and the spring allows the hinge to close firmly and stay closed. The stiffening ribs provide extra stability and eliminate side play.

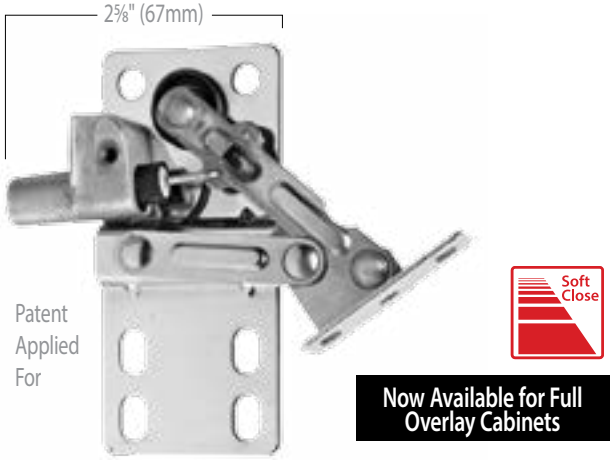
LD-0220-50SC SERIES SOFT-CLOSE TIP-OUT HINGES



Now you have the convenience of extra sink front storage with the luxury of silence with this easy to install soft-close hinge. Designed for use with all of our Rev-A-Shelf Tip-Out trays the unique soft-close piston eliminates slamming and the 50 degree opening allows for complete accessibility to items stored within. These hinges have precise movement for smooth, tight operation and the spring allows the hinge to close firmly and stay closed while the stiffening ribs provide extra stability and eliminate side play.

NOTE: See page 74 for hinge/tray combinations

Designed for 9", 12", 15" and 18" full-height base cabinets, the 448 Series includes easily adjustable shelves, which allow you to customize based on your storage needs. You'll never worry about your items falling behind the pullout; an adjustable rear wall comes standard, providing full coverage while reinforcing and strengthening the unit. Adjustable rub bushings are also incorporated to ensure precise alignment of the pullout. Door mounting is a breeze with our patented door mount brackets that provide up to 5 inches of flexibility for trouble-free installation and micro-adjustment screw for exact door alignment.

NOTES:

- All Utility Trays are trimmable to 16¾" (426 mm) depth. For the Full Cutlery Tray Systems to provide adequate accessibility to the utensils in the lower tray, a portion of the drawer back must be removed. No depth trimming of the lower utility tray will be necessary.
- Ships with a clear protective coating. Peel off before use.
- Minimum height refers to the cabinet drawer opening, not just the height of the drawer.
- Rolling tray systems are available in glossy white finish only.

Our unique Rolling Tray System features the option of a full or half top rolling tray assembly as well as a (4⅛", 105mm) Deep system or a (3⅛", 80mm) Shallow system. Please refer to the chart below.

- Our "Patent Pending" Roller System rolls smoothly in a lower tray track built into the Utility Tray & provides a retaining means.
- The top rolling tray requires no trimming and is easily removable from the drawer for convenient consumer use.
- All trays are glossy white in color.

5UPD SERIES UNIVERSAL PULL-DOWN

While initially designed to meet the growing demand for medical storage solutions in the kitchen, the Universal Pull-Down is a readily adaptable system — ideal for the storage of pet supplies, baby necessities, craft items and more. This easily customizable organizer includes pre-printed and blank labels as well as drop-in dividers and scalloped inserts. The Nitrogen Charged Gas Spring mechanism coupled with two-way dampening soft-close allows you to lift and lower the unit using minimal effort. Once it has descended, the acrylic storage bins are easy to remove, making the Universal Pull-Down one of the most practical organizational solutions on the market. This product can be bottom or side mounted in 24" Wall Cabinets.

VIB SERIES PULLOUT IRONING BOARD

Rev-A-Shelf has ironed out the inconvenience of storing and setting up that bulky ironing board with the introduction of its VIB Series. The uniquely designed expandable frame mounts easily in a vanity drawer between cabinet sides from 14¼" to 21" wide and the fixed brackets allow for easy mounting of all standard drawer fronts. It features a chrome finish and unique ball-bearing slide system that provides sufficient over travel for maximum utilization. Simply open until the gravity lock engages, unfold board and you are ready to iron! See Page 224 for the Closet model!

SBVDT SERIES VANITY DRIP TRAY

Don't wait until you have a leak in your vanity. Install the SBVDT: your first defense against under sink damage from minor leaks. Designed for installation in NEW 24", 30" and 36" vanity sink base cabinet construction, they can be cut down to fit 21", 27" and 33" cabinets. The unique design not only protects the bottom of your cabinet by holding water, the tray actually funnels excess water to the front of your cabinet and out onto the floor, alerting you of the leak. It also features a sleek surface that wipes clean with ease and is resistant to most household chemicals.

by REV-A-SHELF®

Closet Accessories

The company that has become America's market leader in Kitchen and Bath Storage and Organization has taken another step toward its goal of "whole home storage solutions" with its Closet Accessory Program.

True to our success story, the Rev-A-Shelf program introduces new designs and new finishes and a step up in quality not previously made available to the growing closet industry.

Rev-A-Shelf introduces a breakthrough in the design of Closet wire baskets and hampers. Not only did we give the baskets sleek lines, we also engineered them to perform better than any other basket on the market. Our patent-pending design installs easily in 32 mm applications, and basket removal and re-installation has never been easier. Unlike other baskets on the market, our baskets rest on top of the slides, eliminating the torque twist that is inherent in other designs. Combine that with the bayonet mounting system and you can see why Rev-A-Shelf is the leader in new product innovation.

Rev-A-Shelf introduces its pivoting Closet Armoire. Designed for use alone or in conjunction with the Storage Armoire, this product fits into an 8" opening between two 16" depth closet panels. Its innovative pivoting action allows you to access either the 30" mirror or the various storage compartments with a flick of the wrist. Mounted on heavy-duty slides, it pivots, stopping at every 90 degree angle. Our patent pending bearings provide stability while its interchangeable wood and velvet lined accessories give it both style and versatility.

Each of the storage features are interchangeable. They can be moved to fit your individual needs.

Rev-A-Shelf has ironed out the inconvenience of storing and setting up that bulky ironing board with the introduction of its CIB/VIB Series. The uniquely designed expandable frames mount easily in a closet between panels or in a vanity drawer between cabinet sides from 14¼" to 21" wide. The fixed brackets allow for easy mounting of all standard drawer fronts. The product features chrome finishes and a unique ball-bearing slide system that provides sufficient over travel for maximum utilization. Simply open until the gravity lock engages, unfold the board, and you are ready to iron!

Perfect application to do quick touch-up ironing before work or a night on the town.

HARDWARE

For custom cabinet shops and do-it-yourself pioneers, we offer Rev-A-Shelf's top-quality hardware. As you probably know, we are recognized for superior hardware as much as we are recognized for inventive organizers. Take a look through this section for all the nuts and bolts you need to install your custom storage accessories.

Rev-A-Shelf Hardware Kits for wood or melamine custom shelving are tested to meet and exceed BHMA Class-I specifications of 20 lb. per square foot at 100,000 cycles. Our hardware and hardware components allow maximum flexibility, strength and aesthetic value for all custom applications. See page 238 for other Lazy Susan Specification information!

Tresco LIGHTING Lighting Series

LED Lighting

Enhance the appearance and functionality of your home or business with Tresco's energy efficient, low-heat producing, long-life lighting fixtures. Whether you're in the kitchen, millwork, office, laboratory, hospitality, furniture or store fixture industry, you're sure to find a lighting solution in our extensive catalogue of options. A leader in easy-to-install LED lighting, we offer a wide array of puck lights, flex lights, linear lights, and more. We also feature an array of controllers and dimmers, allowing you tailor the atmosphere of your space. Have a custom application? From art to part, Tresco will design and manufacture a lighting solution based on your specific needs.

ETL and UL – Testing, Inspection and Certification

- Both are independent non-profit labs, not government agencies or government funded
- ETL is the largest worldwide
- UL is the largest in the USA
- Both are Nationally Recognized Testing Laboratories (NRTL) as recognized by OSHA
- Both are recognized by local inspectors throughout North America.
- No Mark is better than the other.

Tresco Products Tested and Certified for Canada and the United States

ETL or UL marks serve as proof of product compliance to Canadian and U.S. standards. When products bear these marks, it indicates to the consumer that the products have passed a complete and thorough set of tests and certification requirements.

All TRESCO® lighting *systems* are registered and certified by ETL and/or UL. In addition, a majority of our individual lighting *components* (lights , power supplies, and accessories) are also registered and certified by ETL and/or UL.

UL's Recognized Component Mark

The UL Recognized Component Mark is used on components that are a part of larger products or systems.
It is certified by UL to both Canadian and U.S. requirements.

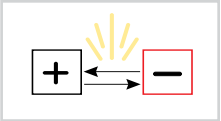
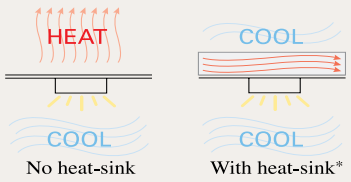
What is LED Lighting?

LED (light emitting diode) is a semiconductor diode formed by creating a (+)/(-) junction between materials. Upon applying a forward voltage the two meet at the junction and energy is released. This energy is in the form of light and heat.



Does LED get hot?

Yes. Unlike traditional light sources the heat generated by a LED is not radiated from the surface. The heat is generated at the (+)/(-) junction. This temperature typically ranges from 35°C (95°F) to 65°C (149°F) depending on the LED being used. It is extremely important to keep junction temperature as low as possible. A 14°C (25°F) increase in junction temperature over a manufacturers recommendation can result in a 50% decrease in the life of the LED. Controlling the heat is done via circuitry and heat-sinking within the fixture design.
** The heat-sink is a metal contact (commonly aluminum) on the LED to absorb the heat.*

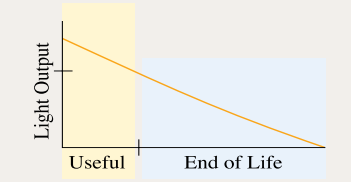


Can LEDs be dimmed?

LEDs work on the principle of constant current (amperage). As the current increases the LED output increases (junction temperature also increases). As the current decreases the LED output decreases. Because the junction temperature decreases when the LED is dimmed the LED may actually experience longer life. Dimmable LED systems, however, are solely dependent on the driving mechanism and circuit board construction. *Consult manufacturer before attempting to dim.*

How is LED life determined?

Recent guidelines have split LED life into two categories: *Useful Life* and *End of Life*.
Useful life is determined at the point when the LED is emitting 70% of its original light output. LED gradually dims over time. Therefore, the LED itself will continue to emit light well beyond the 70% threshold. The end of the life is the point when the LED fails to emit light. Some manufacturers advertise 25, 50, or even 100,000 hours of life without further defining the number. Consult manufacturer to determine if the number advertised is the useful life or end of life.



Good vs. bad LED suppliers

Currently there are around 10 major, well-known light emitting diode manufacturers. These manufacturers take all precautions necessary to create high quality LEDs. Static/dust free clean rooms, the use of high grade phosphors and resins, controlled humidity/environment are all factors among many that can affect LED production. In addition, proper binning (grouping of LEDs based on similar parameters) ensures each and every shipment of LED is the same. Low-end LED manufacturers do not take these issues or steps seriously and thus inferior LEDs find their way into the market. Many LED fixture manufacturers will either highlight the fact they use a major supplier or will furnish the information upon request.

What is IES data?

IES stands for Illuminating Engineering Society. They are the recognized technical authority on illumination. The IES sets forth standards and procedures for approved testing laboratories to follow when analyzing luminaires. These standards and procedures are used to produce accurate measurements of luminaire characteristics such as: luminous flux, electrical power, luminous intensity distribution, chromaticity and other photometric data. All Tresco IES data in the following pages was performed by a certified testing laboratory and to the appropriate IES Standard.

How to Wire a Kitchen with Tresco® 12V Lights

for Frameless or Framed Cabinets

- To wire a kitchen with Tresco 12V lights, first roughly lay out lighting system to help verify final positioning of all components. Make sure to add up all the wattage of the lighting system. Do not exceed the wattage rating of the Power Supply. If using a Tresco D.I.Y. Controller, do not exceed the wattage of the Controller.

Wires that are attached to or accompany Tresco lighting systems are not approved for in-wall use. Class 2 wire must be used (purchased separately). Class 2, 16-gauge wire is the minimum for in-wall applications.

For in-wall wiring – typically used for frameless cabinets – use 16-gauge Class 2 wire (minimum) to route wire through kitchen walls *(see 1st illustration below)*.

For outside of wall wiring – typically used for framed cabinets – use wires provided with Tresco lighting fixtures with appropriate link and extension leads (LINKD series) that are available in several lengths.

IN-WALL Wiring:

Typical for FRAMELESS Cabinets

(example installation of 12VDC Linear Lights)

Note: *A licensed electrician should be consulted for wiring through walls and other permanent structures. When mounting and wiring a light system, follow all local electric codes and the National Electrical Code (NEC).*

Length of Wire from Power Supply to Run of Lights

This is a general guide based on a 60 Watt/5 Amp load:

- Recommended maximum length using Class 2, 16-gauge (AWG) wire = 7.6 meters (25 ft.)
- Recommended maximum length using links/extensions that accompany Tresco lights = 4.6 meters (15 ft.)

Use D.I.Y. Connectors with Class 2 Wire

For Making Junction Between In-Wall Wiring & Light Fixture Wire

Note: *A licensed electrician should be consulted for wiring through walls and other permanent structures. When mounting and wiring a light system, follow all local electric codes and the National Electrical Code (NEC).*

- Wires that are attached to or accompany Tresco lighting systems are not approved for in-wall use. Class 2, 16-gauge wires must be used (purchased separately). Class 2, 16-gauge wire is the minimum for in-wall applications.

Items required for in-wall installation:

• Class 2, 16 AWG wire	White, 15.2 m (50 ft.) roll	L-16CL2-WH50-1
	White, 76.2 m (250 ft.) roll	L-16CL2-WH250-1

Understanding Voltage Drop

When Installing Tresco® 12V Lighting Pockit® (Puck) Light Series

- **Note:** The information provided for measuring voltage drop is a general guide only based on the length of the run and assuming 50% load (30W). Voltage drop goes down with less load and voltage drop goes up with more load. Other factors may influence voltage drop. All measurements and calculations are approximate.
- **In-wall wiring:** Wires that are attached to or accompany Tresco lighting systems are not approved for in-wall use. Class 2, 16-gauge (AWG) wires must be used (purchased separately).
- All Tresco Power Supplies can be applied to the information provided herein on voltage drop.

Ideally, Voltage Drop variance should be within 5%. Absolute maximum should never exceed 8%.

- Recommended maximum length using links/extensions that accompany Tresco lights = 4.6 meters (15 ft.).
- Recommended maximum length using Class 2, 16-gauge wire = 7.6 meters (25 ft.).

Voltage drop is the amount of electric current lost due to the resistance of the conductors (wires).

On most installations – even larger installations – voltage drop is not an issue, but excessive voltage drop could result in diminished light output. Keeping wire length in mind is a best practice to ensure optimum light performance.

For instance, if specifications recommend that the maximum length from Power Supply to the first Light not exceed 5 meters (16 ft.), **the light will still work if you exceed that length!** Again the loss is gradual, but an excessive length could result in dimmer light.

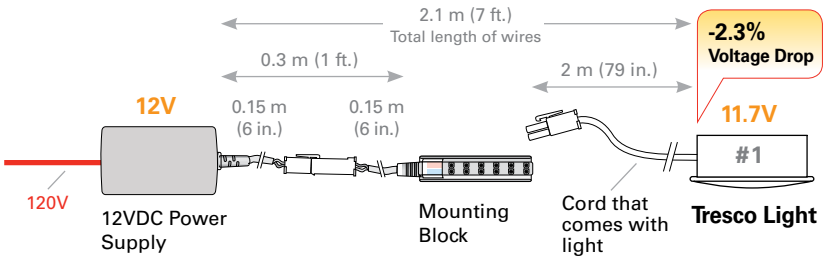
Other factors also influence voltage drop, including the number of connectors, quality of the conductor (aluminum vs. copper wires), and cross-sectional area (gauge).

All Tresco wires and cords provided are specifically for wiring **outside of walls** and have a 4.6 meters (15 ft.) maximum length recommendation.

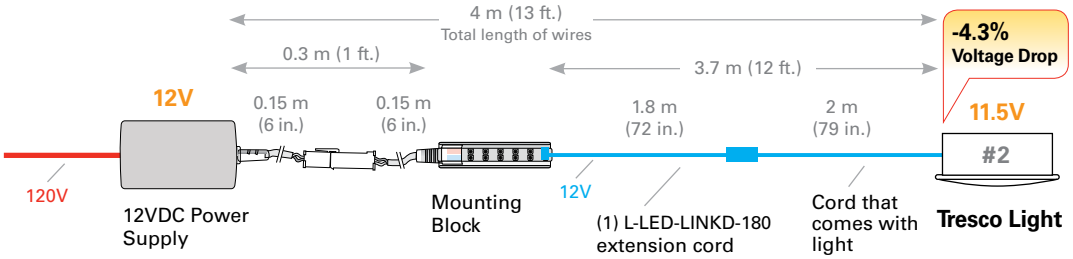
For **in-wall wiring,** stranded Class 2, 16-gauge wires must be used (purchased separately). Also if needed, lower gauge (which means larger wire) helps reduce voltage drop by lowering overall resistance.

12V Pockit® Lights (Puck)

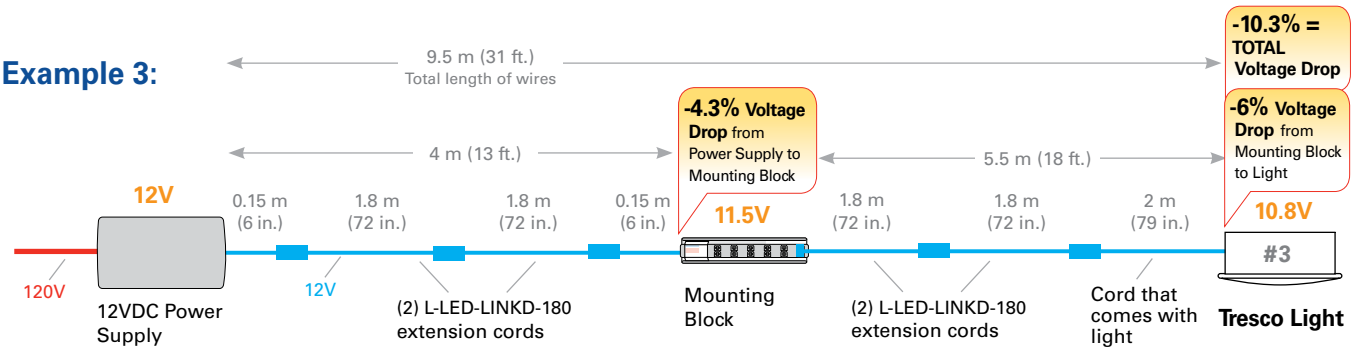
Example 1:



Example 2:



Example 3:



Note: The overall Voltage Drop variance between Light #1 and Light #3 is **8%**, which is noticeable.

Understanding Voltage Drop

When Installing Tresco® 12V Lighting Linear Linkable Series

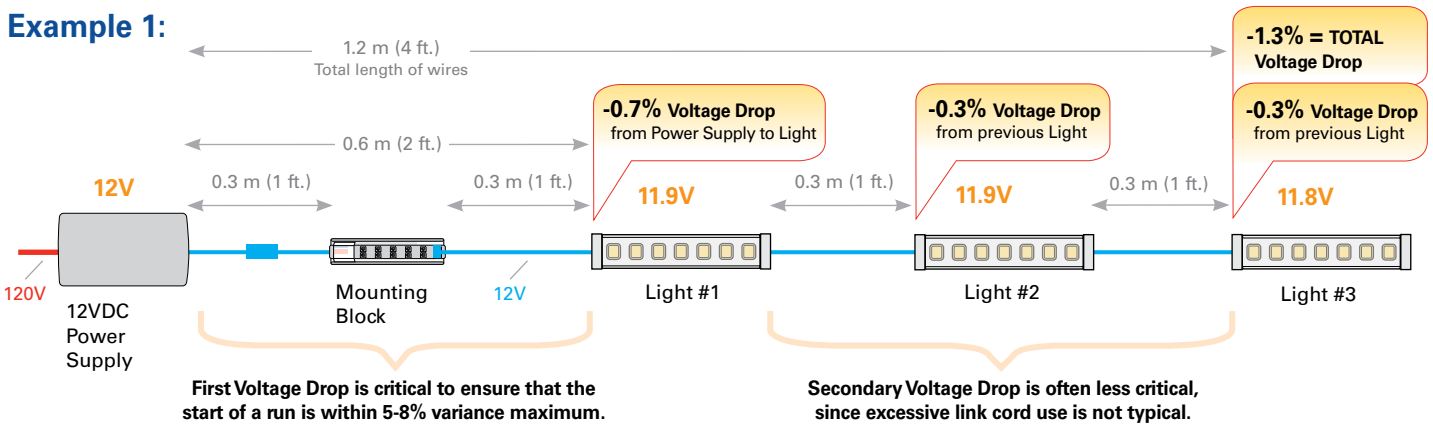
Tresco's longest linking cords are 2 meters (79 in.) which is only a 2% voltage drop – without a noticeable difference in light output.

- **Note:** The information provided for measuring voltage drop is a general guide only based on the length of the run and assuming 50% load (30W). Voltage drop goes down with less load and voltage drop goes up with more load. Other factors may influence voltage drop. All measurements and calculations are approximate.

12V Linear Lights Linked in Series Using Link Cords

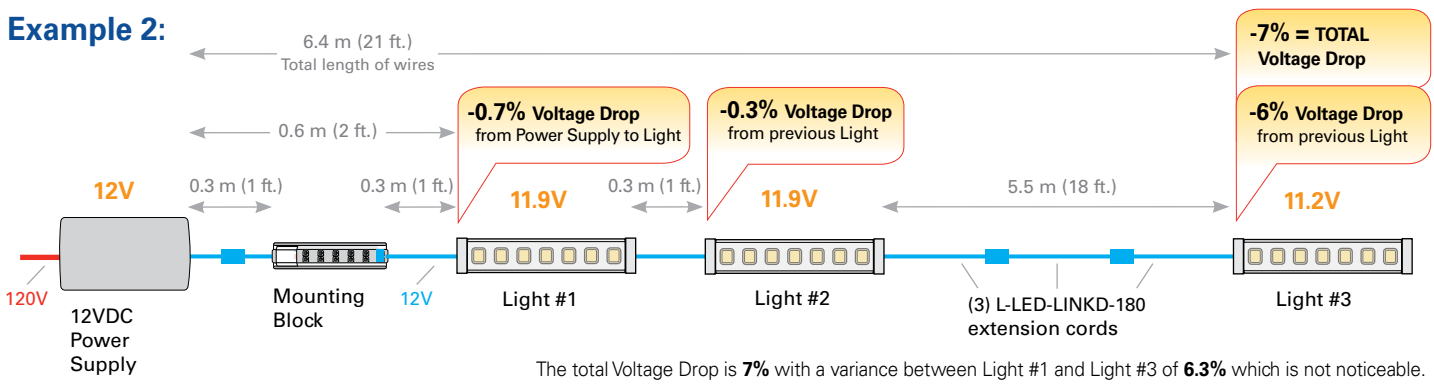
Linear Lights are typically within 1 meter (3 ft.) of each other without a noticeable voltage drop (less than 1%).

Example 1:



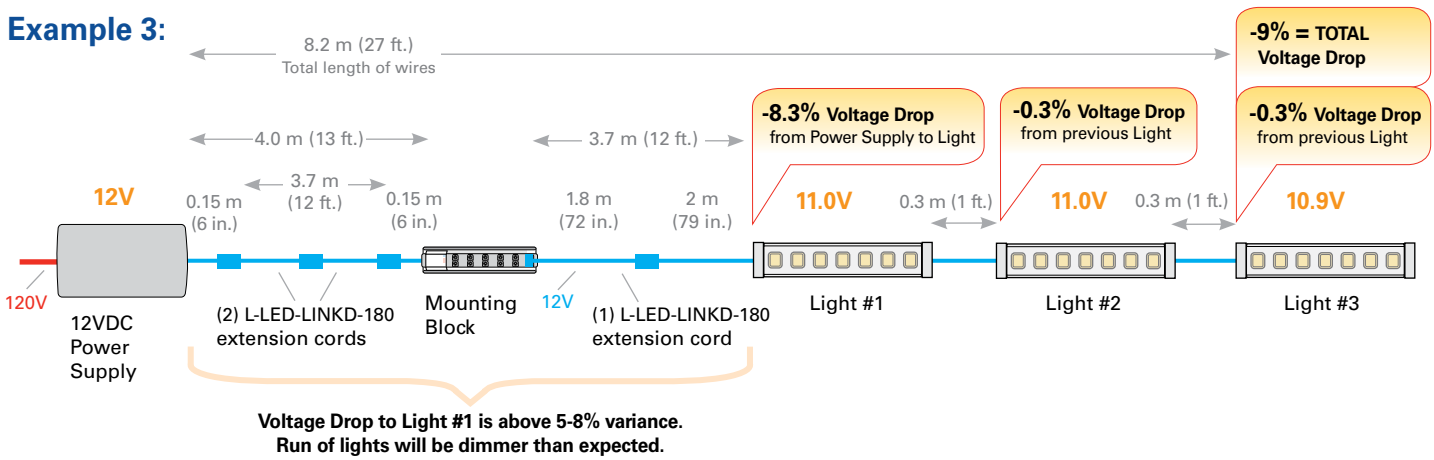
The total Voltage Drop is **1.3%** with a variance between Light #1 and Light #3 of **0.6%** which is not noticeable.

Example 2:



The total Voltage Drop is **7%** with a variance between Light #1 and Light #3 of **6.3%** which is not noticeable.

Example 3:



The total Voltage Drop is **9%** with a variance between Light #1 and Light #3 of **0.7%** which is not noticeable.

Remote Control Dimmers

Tresco Remote Control LED Dimmers feature radio-frequency, remote-control dimming to adjust lights from anywhere in the room — up to 9 meters (30 feet). The remote control provides on/off power and dims lights from 100%–1%.

Dedicated Remote Control Dimmer:

- Controls up to 8 amps/96 Watts of LED lighting.
- Can be used with either 18W or 60W DC power supplies.
- Features a built-in memory that recalls the last setting when turned on again.
- Comes with two remote controls (one extra, as a backup) that are synchronized to control the same dimmer.
- Can use multiple dimmers in the same room with independent controlling of each.

Recommended not to exceed 3 per room

Universal Remote Control Dimmer:

- Controls up to 8 amps/96 Watts of LED lighting.
- Can be used with either 18W or 60W DC power supplies.
- Features a built-in memory that recalls the last setting when turned on again.
- Comes with two remote controls (one extra, as a back up)
- Can use multiple dimmers in same room with single remote control for universal dimming.

Pockit® PLUS

Pockit PLUS with Mounting Ring

White (WH) | Black (BL) | Nickel (NI) (brushed) | Oil Rubbed Bronze (ORB)

50% more light than our popular 1W Series!

The Pockit PLUS delivers performance plus at a competitive price. Its slim body with a 2 inch light face throws a wide, 90-degree angle of bright LED light. The dimmable Pockit PLUS comes in five finishes: white, black, nickel, and oil rubbed bronze.

Pockit PLUS features very clean and simple lines, and is designed for quick and easy recess or surface mounting. The slim body requires only 1/4 inch depth for recess mounting and 3/8 inch height for surface mounting *(with Mounting Ring provided)*. The extra *PLUS* of this small accent light is its leading-edge bulb technology that provides powerful, bright light without high energy consumption and heat.

Pockit PLUS comes with an attached 2 m (79 in.) Starter Cord. Up to 40 lights can be powered with one Tresco 60W Power Supply.

Power Supply: Pockit PLUS requires an 18W or 60W 12VDC Tresco® Power Supply (L-DC-ELT18-CON or L-DC-ELT60-CON) that comes with one 6-Snap Mounting Block.

Typical Applications:

- Interior cabinets/shelving
- Under cabinets and soffits
- Task lighting/flood lighting
- Displays

Power Specifications:

- 12VDC, 1.5W
- Up to **12** Lights per 18W Power Supply.†
- Up to **40** Lights per 60W Power Supply.†

† *Requires additional 6-Snap Mounting Blocks, when more than 6 lights are linked to 1 Power Supply.*

3W HIGH OUTPUT

Power Pockit®

the brightest, slimmest LED Pockit light ever invented!

FEATURES

- Lowest profile – 1/4" depth when recessing
- 1/2" overall thickness (surface mount)
- 3X brighter
- 50,000-hr. life
- 3000K (warm), 5000K (cool)
- 120° light spread
- 64mm overall diameter
- 2-1/4" hole for recessing

THE LOWEST PROFILE

1/4" depth when recessed

The Power Pockit LED offers effective flood and task lighting in a low-profile, energy-efficient package. It uses less than 25% of the energy of a halogen, and provides a rated life of 50,000 hours.

This 3-Watt LED is a versatile lighting choice that can be used within interior cabinets, under cabinets and store displays — providing a crisp, uniform wash over illuminated objects.

The 3W Power Pockit has a frosted diffuser, which eliminates glare and reflections.

13 mm (1/2 in.) Hole Required

All product dimensions and specifications are subject to change without prior notice.

The 1W Pockit® POINT is the smallest spot LED on the market! The fixture's small, one inch diameter and more focused beam of light allow for highlighting of items in tighter spaces.

The Pockit POINT features a very low profile with a recess depth of only 11 mm (7/16 in.), a collar spring for quick recessing, and a Mini Converter to protect the LED diode from premature failure. It comes in three finishes: white, black and nickel.

A 2 m (79 in.) Starter Cord is attached to each light. The Cord comes with a loose AMP® connector, making it easier to route. The Pockit POINT LED is not dimmable.

Power Supply: The Pockit POINT requires an 18W or 60W 12VDC Tresco® Power Supply (L-DC-ELT18-CON or L-DC-ELT60-CON) that comes with one 6-Snap Mounting Block.

Typical Applications:

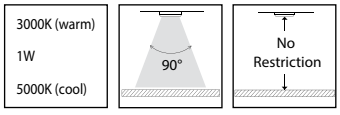
- Accent areas
- Interior cabinets/shelving
- Store displays and display cases
- Museum cases

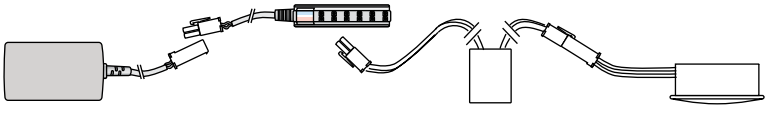
Power Specifications:

- 12VDC, 1W*
- Up to **9** Lights per 18W Power Supply.†
- Up to **30** Lights per 60W Power Supply.†

† Requires additional 6-Snap Mounting Blocks, when more than 6 lights are linked to 1 Power Supply.

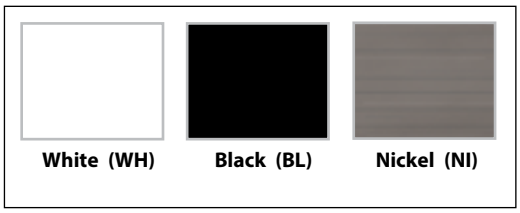
** Total power consumption with converter is 2W per light*



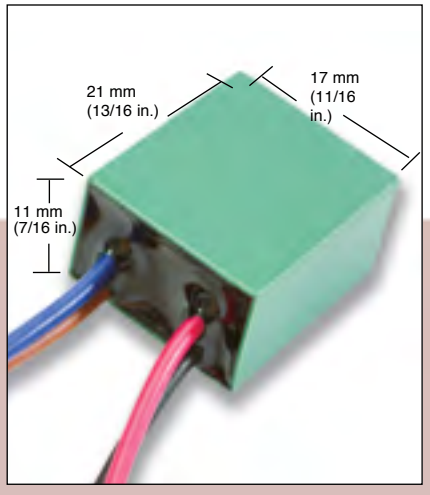


A smaller sized spot that fits almost anywhere!

Pockit® POINT



Round collar spring allows the Pockit POINT to recess securely within a one inch diameter hole.



The Pockit POINT Mini Converter

Notch in body enables wire to easily route to the back of the light (90°) or to the side (180°).

3W SPOT

Pockit® **SPOT**

Performs like a spotlight
to keep your items center stage!

Pockit® SPOT

The 3W Pockit® SPOT LED Light's high output performs like a spotlight to keep countertops, kiosks and displays center stage. The fixture features a narrow 30-degree light spread, two large springs for recess mounting and the ability to swivel 12 degrees in either direction.

The Pockit SPOT's exceptionally low profile boasts a recess depth of only 29 mm (1-1/8 in.), making it ideal for tight applications *(see Illustration)*. For recessing, it requires a standard hole size of 54 mm (2-1/8 in.).

A Mini Converter protects the LED diode from premature failure. Each light comes with a 2 m (79 in.) Starter Cord attached with a loose AMP® connector for easier wire routing.

Power Supply: The Pockit SPOT requires an 18W or 60W 12VDC Tresco® Power Supply (L-DC-ELT18-CON or L-DC-ELT60-CON) that comes with one 6-Snap Mounting Block.

Typical Applications:

- Cabinets and soffits
- Kiosks and displays
- Flyovers

Power Specifications:

- 12VDC, 3W
- Up to 6 Lights per 18W Power Supply.
- Up to 20 Lights per 60W Power Supply. †

† Requires additional 6-Snap Mounting Blocks, when more than 6 lights are linked to 1 Power Supply.

Pockit® T2 LED

Update your display with the Pockit T2 LED

The new Tresco Pockit T2 LED is a true plug-and-play lighting solution. It allows for easy "jumping" over and around obstacles without the need for an electrician. It can be recessed or surface mounted to accommodate your design and decor.

You can easily retrofit existing fluorescent display lights with the Pockit T2 LED, providing striking high illumination at a fraction of the energy costs and heat generated by traditional lights.

iMAGine®

The most adjustable power track & lighting system available

PATENTED

A Power Strip and Light System in One!

Solve any display or accent lighting challenge with the iMAGine power track and lighting system.

iMAGine's polished-chrome magnetic power track features a sleek, low profile. With multiple fixture options available, you'll find the adjustable iMAGine system to be the perfect solution for lighting displays, cabinets and more.

Benefits

Magnetic connections allow you to move fixtures as often as you like. And you'll never need to pierce wires to add an LED fixture — so there's no risk of shock, no unsightly pierce markings.

iMAGine®

The most adjustable power track and lighting system available

PRODUCT FEATURES

- Five fixture options
- 1W–3W LED bulbs
- Field-cuttable track – 3′ + 6′ pieces
- Linkable track via back-to-back connector or by linking cords
- Do-it-yourself system — plug-and-play type
- 12V DC operation
- Easy adjustability
- Vertical or horizontal mounting
- Great for retrofitting existing shelving systems

APPLICATIONS

- Displays
- Showcases
- Kiosks
- Cabinets
- Shelving

BENEFITS

Magnetic connections allow you to move fixtures as often as you like. Electric current passes through plates to provide power to fixtures.

Competitors Are No Match! Unlike competing brands, there is never a need to pierce wires when adding LED fixtures.

Other systems require you to pierce the wires. This is difficult to do, poses a threat of shock and leaves unsightly pierce markings.

iMAGine as Standard Track Light System

Stellar®

make your displays come to life

Stellar, one of Tresco's most popular fixture series, represents the leading edge in commercial illumination.

The Stellar has always been an aesthetic masterpiece, blending elegant style with bold arcs to create a unique appearance. Now, thanks to LED technology, it offers unsurpassed performance and operating efficiencies.

The MR-16 LED replaces the standard halogen bulb, providing brilliant illumination while reducing energy consumption by 60%. And the 30,000-hour expected service life yields several years of maintenance-free operation.

FineLine LED

The FineLine is available in 3 lengths:
- 203 mm (8 in.)
- 305 mm (12 in.)
- 559 mm (22 in.)

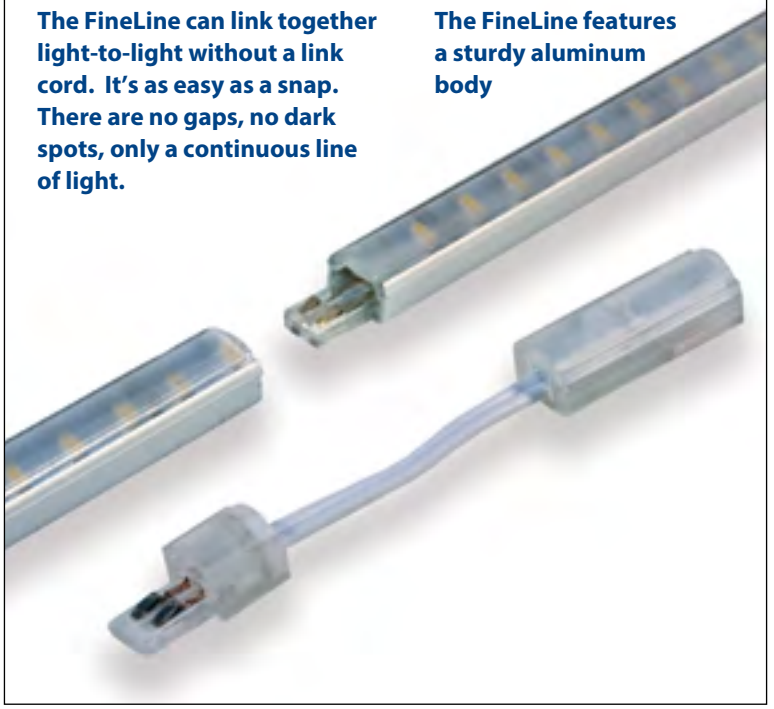
Included with each light:

Starter Cord 2 m (79 in.)

Mounting Clips with screws

The FineLine can link together light-to-light without a link cord. It's as easy as a snap. There are no gaps, no dark spots, only a continuous line of light.

The FineLine features a sturdy aluminum body



Longer size, less linking, faster installation!

2.4W/ft

Long and narrow, the FineLine is the easy way to provide smooth, linear lighting almost anywhere. The FineLine's three lengths offer a wide range of installation options. The longest length (22 inches/559 mm) exceeds the industry benchmark by spanning farther than other "stick" type products. Installation is a snap, with six Link Cord sizes, direct *fixture-to-fixture* linking capability and simple U Clip mounting.

The low-profile FineLine features a frosted diffuser for perfect, even illumination. An optional Inline Touch Dimmer attaches directly or remotely via link cord to the light and features four dimming levels (lo-med-hi-off). Manual or remote control dimmers are also offered.

Power Supply: The FineLine requires a 60W 12VDC Tresco® Power Supply (L-DC-ELT60-CON) that comes with one 6-Snap Mounting Block.

Typical Applications:

- Cabinets/shelving
- Countertops
- Showcases

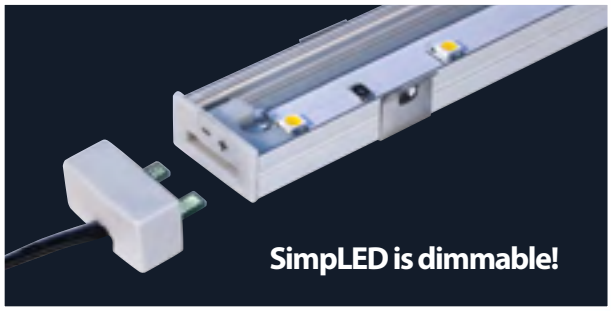
SimpLED



PATENTED

SimpLED is available in 3 lengths:
- 203 mm (8 in.)
- 305 mm (12 in.),
- 559 mm (22 in.)

SimpLED comes with 3 different diffusers: clear, frosted and milk opal, allowing you to adjust light glare/ reflection and intensity.

Starter Cord and H-Shaped Link Connector come with each light.

Multiple options from a single light!

4.5W/ft

The patent-pending SimpLED combines several *industry firsts* that expand lighting solutions. Tresco introduces a new "three-in-one" system of diffuser options that are packaged with each light: clear, frosted or milk/opal which determines the light's glare/reflection and intensity. To further expand lighting capabilities, optional Control Modules offer a Motion Sensor, a Photo/Light Sensor or a Touch Dimmer that can be installed inline or remotely mounted via link cord, all rated at 27W maximum load (equal to 6 feet of SimpLED).

The SimpLED's very high output (4.5W/foot) comes in three lengths, and the fixture quickly mounts with U Clips or screws. It can be linked back-to-back or with Link Cords that are available in six lengths. Dimmer options are also available.

Power Supply: The SimpLED requires a 60W 12VDC Tresco® Power Supply (L-DC-ELT60-CON) that comes with one 6-Snap Mounting Block.

Typical Applications:

- Cabinets/shelving
- Countertops
- Showcases

Power Specifications:

- 12VDC, 4.5W/ft.
- Maximum continuous run **10** feet to prevent voltage drop.
- Maximum **13** feet per 60W Power Supply.

KITCHEN DEALER PROGRAM

REV-A-SHELF's Kitchen Dealer Program is the perfect solution for cabinet shops and designers. Our program binder is designed to help you add value with REV•A•SHELF® products in all of your kitchen jobs. Members are sent quarterly updates keeping them up to date on the latest innovations from REV•A•SHELF®.
Ask your authorized distributor to sign you up today!

DISPLAY PROGRAM

Our complete line of Cabinet Storage Organizing Accessory products have distinct advantages in strength, design, ease of installation and aesthetics that can only be sold effectively through working displays. Many of our customers have had great results by installing products in Kitchen Dealer, Custom Shops and Home Center Kitchen and Bath displays. We also have floor displays and salesman samples available that can further serve as effective sales tools.

Our Program: A 50% discount is available to you, the distributor, for each display product placed in a showroom or display unit placed in a showroom or display fixture. Verification of installment for claiming the rebate should be handled through your REV•A•SHELF® representative on a monthly basis.

The following product categories are only eligible for a 25% Display Discount.

- Premiere Chrome Accessories
- Wire Series Pullout Pantries
- Chrome Lazy Susans
- Built-in (8000-Series) Waste Containers
- Pullout Ironing Board
- Mixer Lift

DISCLAIMER

Rev•A•Shelf® makes every effort to verify and ensure that our product specifications are correct and up to date. However we reserve the right to make engineering changes that affect any critical product dimension without notice. Rev•A•Shelf® shall not be held liable for any cost related to such a change, misprint, instruction, or product template error.

WARRANTY

ALL PRODUCTS SOLD BY REV•A•SHELF® ARE WARRANTED TO BE FREE FROM DEFECTS IN MATERIAL AND WORKMANSHIP.

THE FOREGOING WARRANTY IS IN LIEU OF AND EXCLUDES ALL OTHER WARRANTIES NOT EXPRESSLY SET FORTH HEREIN, WHETHER EXPRESSED, IMPLIED BY OPERATION OF LAW, OR OTHERWISE, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTIES OR MERCHANTABILITY OR FITNESS.

THE USER ACKNOWLEDGES THAT A SERVICE OF THIS TYPE IS SUBJECT TO ERRORS AND REQUIRES REVISION FROM TIME TO TIME TO INCORPORATE NEW INFORMATION AND CORRECT ERRORS. THE USER AGREES TO USE REASONABLE EFFORTS TO DETECT ERRORS AND AMBIGUITIES AND NOTIFY REV•A•SHELF® IN WRITING IF SUCH ERRORS OR AMBIGUITIES ARE DISCOVERED BY THE USER. THE USER ALSO ACKNOWLEDGES NOT TO HOLD REV•A•SHELF® LIABLE FOR SUCH ERRORS OR AMBIGUITIES.

REV•A•SHELF® shall not be liable for incidental or consequential losses, damages or expenses, directly or indirectly arising from the sale, handling or use of the products, or from any other cause relating directly or indirectly thereto, and REV•A•Shelf® liability in any case is expressly limited to the replacement (in the form originally shipped) of non-complying products, or, at REV•A•SHELF® election, to the repayment of, or crediting Buyer with, an amount equal to the purchase price of such products, whether such claims are for breach of warranty, negligence or otherwise. If the limitation of liability provided herein shall fail of its essential purpose, REV•A•SHELF® total liability for any damages shall in no event exceed the total of ten times the retail price of the product. Any action for damage must be commenced after the accrual of the cause of action.

Any claimed defect in material or workmanship shall be deemed waived by Buyer unless submitted to REV•A•SHELF® in writing within thirty (30) days from the date it was purchased or by reasonable and prompt inspection after receipt it should have been discovered by the Buyer. REV•A•SHELF® shall have the right to require Buyer, at its expense, to return to a designated factory for inspection or repair any product claimed to be defective. The determination of REV•A•SHELF® as to the existence of a valid claim for replacement, repair, exchange or damages, under this warranty or otherwise, shall be conclusive. Replacement parts shall be furnished F.O.B. factory. Buyer shall assume the labor and delivery costs in removing and replacing a defective product.

REV-A-SHELF®

Go Green!

Who is Rev-A-Shelf and why should you consider us as your business partner? We break it down into four simple things; people, products, innovation and service. As the leader in functional cabinet organization products we have a great team of people who are focused on your needs and we LISTEN to you and the market to determine our product development priorities.

Rev-A-Shelf's new GO GREEN project will address the need our customers will have to offer products produced from rapidly renewable resources, and processed and documented in a way that will eventually meet criteria set forth by building codes and future regulations.

As a market leader, we want to be the first to offer these products. As a business, we are committed to incrementally improve our environmental impact and document our progress.

A forerunner in research & development, Compagnucci has always concentrated on energy and investment, taking advantage of forty-years of experience with which it has structured a production capability of the highest level; and is at the environmental forefront in the use of technologies, materials, processes and certifications, with a state-of-the-art facility that was designed to be free and safe from fumes, with no liquid waste, and zero emissions to the atmosphere.

The Compagnucci Group has expanded its offering with the introduction of a new elegant and sophisticated Flute finishing, complementary to the chrome finishing. Flute finishing is aesthetically customized by precious finishing to the typical appearance and coloration of chromium and stainless steel that Compagnucci imprints on the surface of each element and component through its unique patented electro galvanic, painting, aluminum anodizing and plastics molding processes.

It is referred to as "Flute" for the soft champagne color that characterizes it, and is beautifully enhanced when in combination with the Stylinox™ coated glass. The Stylinox™ is to glass as the Crominox™ is to chrome; with the finishing being enhanced by a final transparent plastic coating which is obtained with two consequent processes of electro plating and coating with transparent plastic material, thus enhancing the aesthetics and producing a tactile sensation, while giving the product relevant functional properties.

In fact Flute Stylinox™ offers strong resistance to corrosion similar to that of stainless steel as well as to shocks, since the contact with the dishes, especially crystal, is particularly softened, resulting in a significant reduction of the cracks; in addition it provides a strong resistance to slipping, equal to 50% of the weight of objects leaned on its surface; and finally, all the sounds due to contact are noticeably dampened.

The beauty and functionality of this last “creation” confirm the unmistakable Compagnucci footprint.

Changing the way you think about Cabinet Organization!

Rev-A-Shelf, LLC Jeffersontown, Kentucky

There are only a few dates in the history of a company that really stand out as truly Special, game changers that confirm you either made the right decisions or came up woefully short in your performance. Later this year we will be dedicating a new building that will substantially change our business and our hope is it will be the right move for our Valued Industry Partners, Employees, Vendors, and ultimately the end Consumers. We could have never realized this phase in our Companies History without the support of our most passionate customers who have used our products and allowed us to grow our business along with their own. We have worked together through good economies and bad, substantial changes in product and material trends and the constant challenges from our consumers.

We remain committed to the Innovation, Quality , and Service levels that have made us a market leader in Storage Organization and Cabinet Lighting. We want to exceed the level of expectation that our customers will have for Rev-A-Shelf and this new building is a step in the right direction for manufacturing efficiencies and an increase in the use of technology in our processes.

As a family owned American Manufacturing Firm with Vendor partners all over the world we remain committed to you and we hope to continue to earn your business for many years to come. If you are ever in Louisville Kentucky please call us, we would love to show you around!

Organize your life...

1 Consider every space, and how the homeowner will utilize it.

- Decorative fillers should always become pullout organizers
- Give sight to those blind corners with accessories that bring hidden items into view
- Add tip-out sink front trays to every false front panel
- Keep your garbage out of sight with an in-cabinet waste container
- Arrange your pots & pans with pullout cookware and base organizers
- Organize flatware, cutlery, and utensils with drawer inserts

2 Think inside the box!

- When specifying cabinets that you intend to add Rev-A-Shelf accessories, make sure to void any unneeded shelves or drawers
- This will make installation easier and also save you money by reducing the cost of the cabinet

3 Out of sight, out of mind.

- Seeing is believing! Add our products to your showrooms.
- Add shapes to your designs with our 20-20 catalog or 3D-DWG/DXF files downloadable at rev-a-shelf.com

4 Think outside the box!

- Take your standard offering one step further by adding accessories forunique applications
- It's ok to use a "pullout waste container" for your dog food, even though we don't call it a "pullout dog food holder"
- Let your imagination work for you!
