

1. DO NOT SCALE DRAWING

- Dimensions given in inches (mm).
- It is suggested that a divider be placed around the pan and that the height be equal to the height of the cover pan.
- Set cement case 1/8" (3.2) lower than cover pan ordered. Use cover pan to facilitate installation of cement case.

CAUTION: Prevent grout from collecting between the closer and cement case in the event it may be necessary to remove the closer after the grout is set.
