APPROXIMATE

Machine Weight 23 lb
Shipping Weight 31 lb
16" Wide
16" Deep
7" Tall

A well built manual key duplicating machine with many features found only on larger machines costing twice as much. The RY45 is equipped with the same cutter wheel and powerful motor used on our larger machines (RY100 and RY256). Unique reversible top vise jaws AND reversible carriage provides maximum key clamping versatility. Like our larger machines this compact manual machine has its own built-in cutter shaft lock, heavy duty dual ball bearing cutter shaft, 90° polyflex drive belt and large 3/4" diameter carriage shaft. Replaceable top and bottom vise jaws can be changed at any time in your shop or van. This machine is perfect for small shops, mobile shops and beginners who want to start out with the best machine at an affordable price. The RY45 with standard 115 volt 50/60hz motor will work in your service van equipped with Redi-Line® 115 volt A.C. power converter.

No Redi-Line®? Order the RY45DC with a powerful 12 volt D.C. motor.
