# DKProx USB PC Card Reader

DoorKing's DKProx USB PC Card Reader is designed to read the code on DKProx cards and display it on your computer. It uses DoorKing's proprietary software that **MUST** be downloaded to your computer to read these card codes.

Installation

Connect one end of cable to the DKProx card reader and plug the USB connector into the USB port on your computer.

RFID Reader

USB

DK Prox Software Installed

Your PC

Wave the DKProx card above the reader to read card code.

Download Software

Go to DoorKing's website (www.doorking.com) to DKProx card reader to download software to a PC (not a Mac). The APP is **NOT** available for smartphones.
