

GATE BOX INFORMATION

BLANK WELDABLE BOXES

Part Number	Specialty/Material	A	B	C
K-BX246	w/Removable Lid	6"	4"	2"
K-BX453525		4 1/2"	3 1/2"	2 1/2"
K-BX458175	Oversized	8"	4 1/2"	1 3/4"
K-BX515175	Oversized	15 1/2"	5"	1 3/4"
K-BX711150	Oversized	11"	7"	1 1/2"

Great for mounting panic hardware!
Oversize compensates for access
keypads or lever hardware

UNIVERSAL MORTISE GATE BOXES

Offset

Part Number	Description	High	Wide	Deep
K-BXMOR4	Centered	8 1/8"	4 5/8"	1 3/4"
K-BXMOR4-AL	Aluminum	8 1/8"	4 5/8"	1 3/4"
K-BXMOR8155	Oversized Center	15 1/2"	8"	1 3/4"
K-BXMOR8155F	Oversized Offset	15 1/2"	8"	1 3/4"

Blank mortise boxes were designed to accommodate just about any type of stand alone access or push button mortise lock. With a standard side mortise preparation (1 1/16" x 6 11/16") only drilling the mounting holes is necessary on the face of the box. The boxes are wide enough for lever applications.

Understanding Gate Box Stock Numbers

How to use the gate box guide:

If you know the manufacturer and stock number of the lock or electric strike you are trying to install, use the cross reference. The cross reference uses the lock or strike manufacturers numbers and then tells you which of our weldable boxes is best for that application. Keedex.com has the most current cross reference and notes.

If you still cannot find an appropriate box, call us @ (714) 993-4300 and we will be glad to assist you!

SGL	1- 2 1/8" Cylindrical Hole	NH	No Holes
DBL	2- Cylindrical 2 1/8" Holes	2W/-2	2" Wide Box
RHO	2 1/8" Cylindrical Hole With 6 Thru-Bolt Holes Around 2 3/4" Backset 	-2D	2" Wide Box With Cylindrical Hole Sunken To Accept A Standard 1 3/4" Lock
MOR	Mortise Side Pocket	A/R	Narrow Style Mortise Lock
AL	.125 Gauge Aluminum	CYL	Cylindrical Prep
SS	16 Gauge Stainless Steel	-925	9 1/4" High
234	2 3/4" Backset	-8155	8" X 15 1/2"
S	Slim 1 1/4" Wide	-1012	10" X 12"
-ES	Extra Slim 1" Wide	BXES	Electric Strike Prep
NS	No Stop	BXED	Exit Device

All Boxes Are 14 Gauge Steel Unless Otherwise Noted

For boxes in materials other than 14 gauge steel add a dash and the suffix for the material
ex: The K-BXMOR1, in 10 gauge steel would be K-BXMOR1-10G, Aluminum would be K-BXMOR1-AL

Depth = thickness, as in thickness of a door
