

DC-ACC-CS1Q

Cigarette Lighter Adapter Socket

Manual

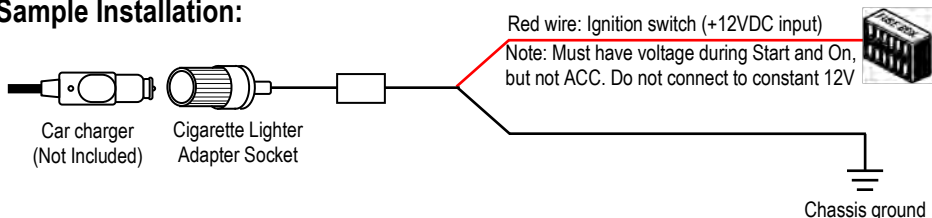

Features:

The Enforcer cigarette lighter adapter socket is installed directly to the fuse box giving a separate socket for connecting accessories equipped with a standard cigarette lighter power plug. This allows for cleaner installation, frees up the existing cigarette lighter, and is controlled by the ignition switch, thus ensuring accessories don't remain powered and drain the battery when vehicle is off.

Specifications:

| | |
|--------------------------------|-----------------------------------------------------------------|
| Input | 12V |
| Output | 12V 2A |
| Low Voltage Circuit Protection | Yes. Camera will shut down when the voltage is lower than 11.8V |
| Length | 98" (2.5m) |
| Weight | 3 oz. (81g) |

Sample Installation:

1. Connect the red wire of the cigarette lighter adapter socket to the fuse box's ignition switch.
2. Connect the black wire of the cigarette lighter adapter socket to chassis ground.
3. Plug the car charger into cigarette lighter adapter socket.

Note: To avoid accidentally draining the car's battery, do not connect to fuse connectors that have constant power even when ignition is off.

WARRANTY: This SECO-LARM product is warranted against defects in material and workmanship while used in normal service for 1 (one) year from the date of sale to the original customer.
