NCB855PRO

Full HD 1080p
Fixed Network Camera

1/2.7" 2MP Lumii sensor, H.264, triple streaming, mechanical ICR day/night, WDR, intelligent detection

With Full HD video quality at full frame rates, the NCB855PRO Full HD 1080p network camera suits any indoor applications where maximum image quality and smooth video display is vital. Powered by Lumii™ Technology, the high-sensitivity sensor offers superior low lux performance to ensure razor-sharp, noise-free images at all times. The advanced H.264 compression significantly reduces the bandwidth and storage consumption while maintaining high-definition video quality. Other supported features include intelligent detections, memory card slot, and two-way audio.

ONVIF

Full HD at Full Frame Rates

See clear and detailed, full HD 1080p, quality images in all conditions. Unlike other megapixel cameras, full HD offers higher resolutions and better frame rates at an international industry standard. Blurry images are reduced and individuals and objects of interest come through in perfect clarity.

Intelligent Video Management

The NCB855PRO features a variety of intelligent detection functions, including motion, audio, blur, face, network loss detections. Event/region-specific monitoring enables users to receive alerts upon events and saves storage cost by only recording when a specific event happens.

Mechanical IR Cut Filter

Featuring IR Cut Filter Removable (ICR) function, the camera uses a mechanical way to detect changes in lighting conditions, and then switches between color and B/W modes. It provides perfect color images at day time and crisp monochrome images at night or very dark environment.

Cost-saving H.264 Support

The camera supports the H.264 compression standard in multiple streaming. The H.264 greatly reduces the network bandwidth and storage requirement compared to M-JPEG and MPEG4 without compromising the megapixel image quality, while saving significant back-end costs.
