FAQ

Don't all mounts come with lifetime warranties?

From Premier Mounts, yes. From other manufacturers, no. Premier Mounts backs each of its mounts with a lifetime warranty against defects in material or workmanship.

What is "post-installation leveling"?

Screws at the top of each mounting bracket can be independently tightened to slightly adjust the level of the flat-panel after installation, providing a last-minute correction if needed.

My flat-panel fits more than one mount. How do I choose?

Installation requirements, aesthetics, flat-panel weight and range of motion should assist in whittling down your decision for you.
