

Universal Enclosure

The GearBox Universal Enclosure is designed to fit most 42" to 50" flat panels.

From stadiums to poolside environments, the GB-ENCL42 can accommodate whatever your installation requires. Ideal for all types of installations including indoor and outdoor displays that require security, protection from the elements and/or areas that generate high traffic.

Unique internal design allows the GB-ENCL42 to mount to walls, ceiling adapters and floor stands with no special adapters needed. Plus, it can be mounted in either portrait or landscape at any time, with no need to specify orientation when ordering.

Patent-pending ThermaVent Technology allows the GB-ENCL42 to mount flush to the wall - the only enclosure on the market today that offers such flexibility.

Standard Features:

- 2 105 cfm filter / ventilation fans
- 1/4" Non-glare protective screen
- Pre-wired to accept 120-volt AC
- Built-in keyed locks for maximum security
- Heavy-duty gas shocks to hold door open during installation and maintenance
- Display Wall Mount Bracket Included
- Mounted 120v Multi Tap Surge Protector
- Side ventilation
- Can be used in Portrait or Landscape Position
