

VIGO

SHOWER COLLECTION

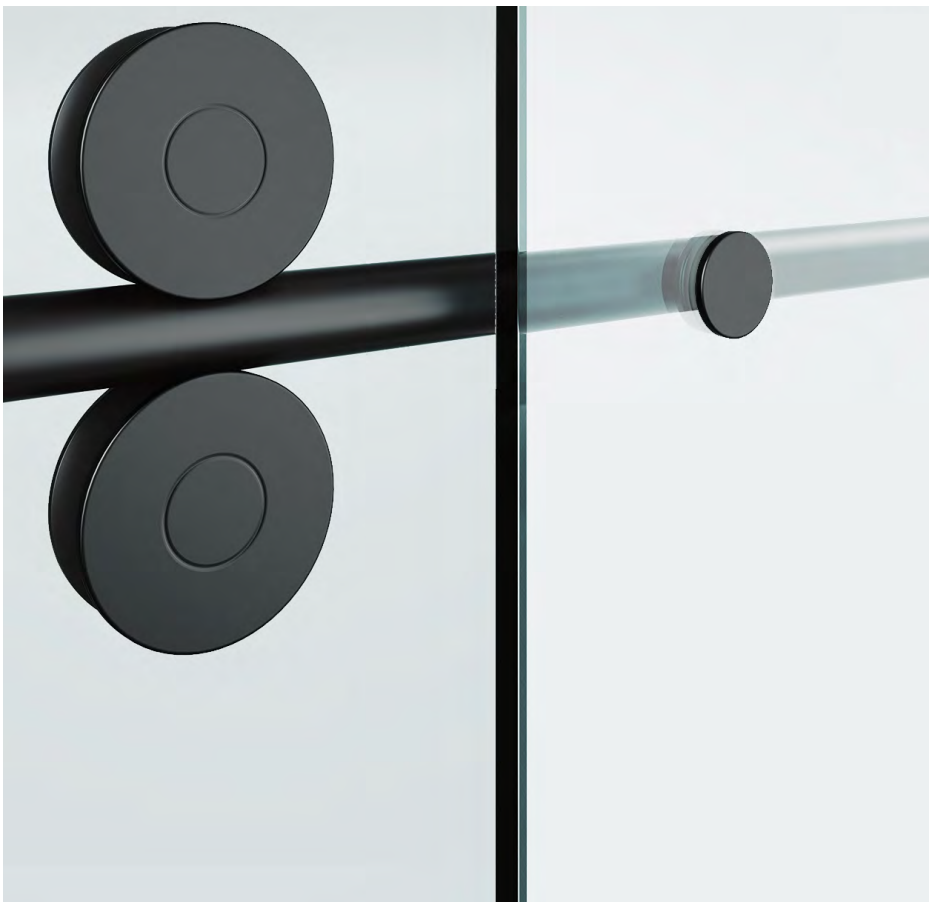

RETHINKING THE SHOWER EXPERIENCE

The VIGO Shower collection pairs elegance with practicality to give you the ideal shower experience. Our exquisitely engineered shower doors are made of tempered glass with 304 stainless steel, rust and corrosion-resistant hardware. With Seal-Thru Technology™ to prevent water leaks, and customizable left or right panel installation, VIGO's shower doors allow you to design your bathroom to meet not only your needs but also your desires. Live in the bathroom you've always envisioned with VIGO.

EXQUISITELY ENGINEERED

SEAL-THRU™ TECHNOLOGY

Continuous seal strips along the door prevent water leaks.

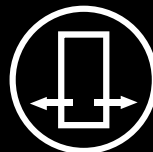

EASE OF USE

Self-closing hinges within 15 degrees.

LIMITED LIFETIME WARRANTY

The VIGO Limited Lifetime Warranty covers customers for the life of their product based on manufacturer's defect.

CUSTOMIZATION

Left or right panel installation.

TEMPERED GLASS

Our shower doors are rapidly heated and then cooled at extreme temperatures while being repeatedly blasted with bursts of high-pressure air. This compression process makes the glass more resilient.

DURABLE CONSTRUCTION

304 Stainless Steel components with 18/8 chromium or Nickel content prevents rust while retaining superior strength.

MAGNALOCK™ TECHNOLOGY

Magnetic strip keeps door closed and water in.

ROLLERDISK™ TECHNOLOGY

Sliding roller disks with 3/8" built-in adjustability as walls shift over time.

FLEX-SIZING™ TECHNOLOGY

We engineer our frameless shower enclosure collection with 4" of built-in horizontal adjustability.

NEO-ANGLE DESIGN

135-degree corners with central hinged door for easy access to shower.

SMARTADJUST™ TECHNOLOGY

The wall-mount brackets for the structural rail have 13mm built-in adjustability.

STABLE SUPPORT

Vertical and bottom rail support ensures your panel stays securely anchored to the wall and reinforced with wall stability.

SMART ADJUST SHOWER INSTALLATION

The floors and walls in your home shift slightly over the years, which can cause your fixtures to move out of alignment. Our frameless showers are designed with **FLEX-SIZING™** and **SMARTADJUST™ Technology** to ensure they remain plumb and level during installation and any later modifications. We engineer our frameless shower enclosure collection with 4" of built-in horizontal adjustability. This adaptability assures that your VIGO product is easily installed in your space and will continue to function properly for years to come.

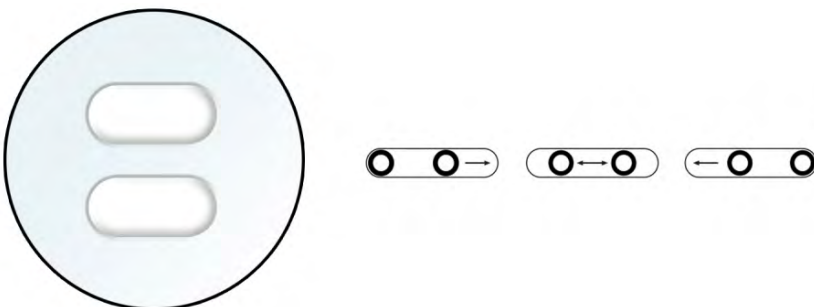

fixtures moved out of alignment
over the years

SmartAdjust™ Technology and **Flex-sizing**
to ensure they remain plumb and level

SMARTADJUST™ TECHNOLOGY

The wall-mount brackets for the structural rail have 13mm of built-in adjustability. Fixed panel holders have up to 10mm of built-in adjustability to ensure that your VIGO product is easy to install and can accommodate minor adjustments, such as out-of-plumb walls.

SHOWER PANELS

BRING THE SPA HOME

EFFORTLESS INSTALLATION

Integrated rough-in valve and metal braided supply lines with standard 1/2" connections. Set up for flat wall or corner installation.

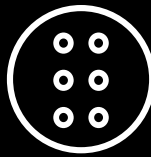

DURABLE CONSTRUCTION

304 Stainless Steel body and plated brass controls guaranteed not to rust.

LIMITED LIFETIME WARRANTY

The VIGO Limited Lifetime Warranty covers customers for the life of their product based on manufacturer's defect.

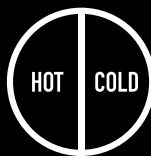

YOUR PERSONAL OASIS

6 fully adjustable stainless steel body spray massage jets.

3DIVERter VALVE™ TECHNOLOGY

3-way diverter valve to control water operations.

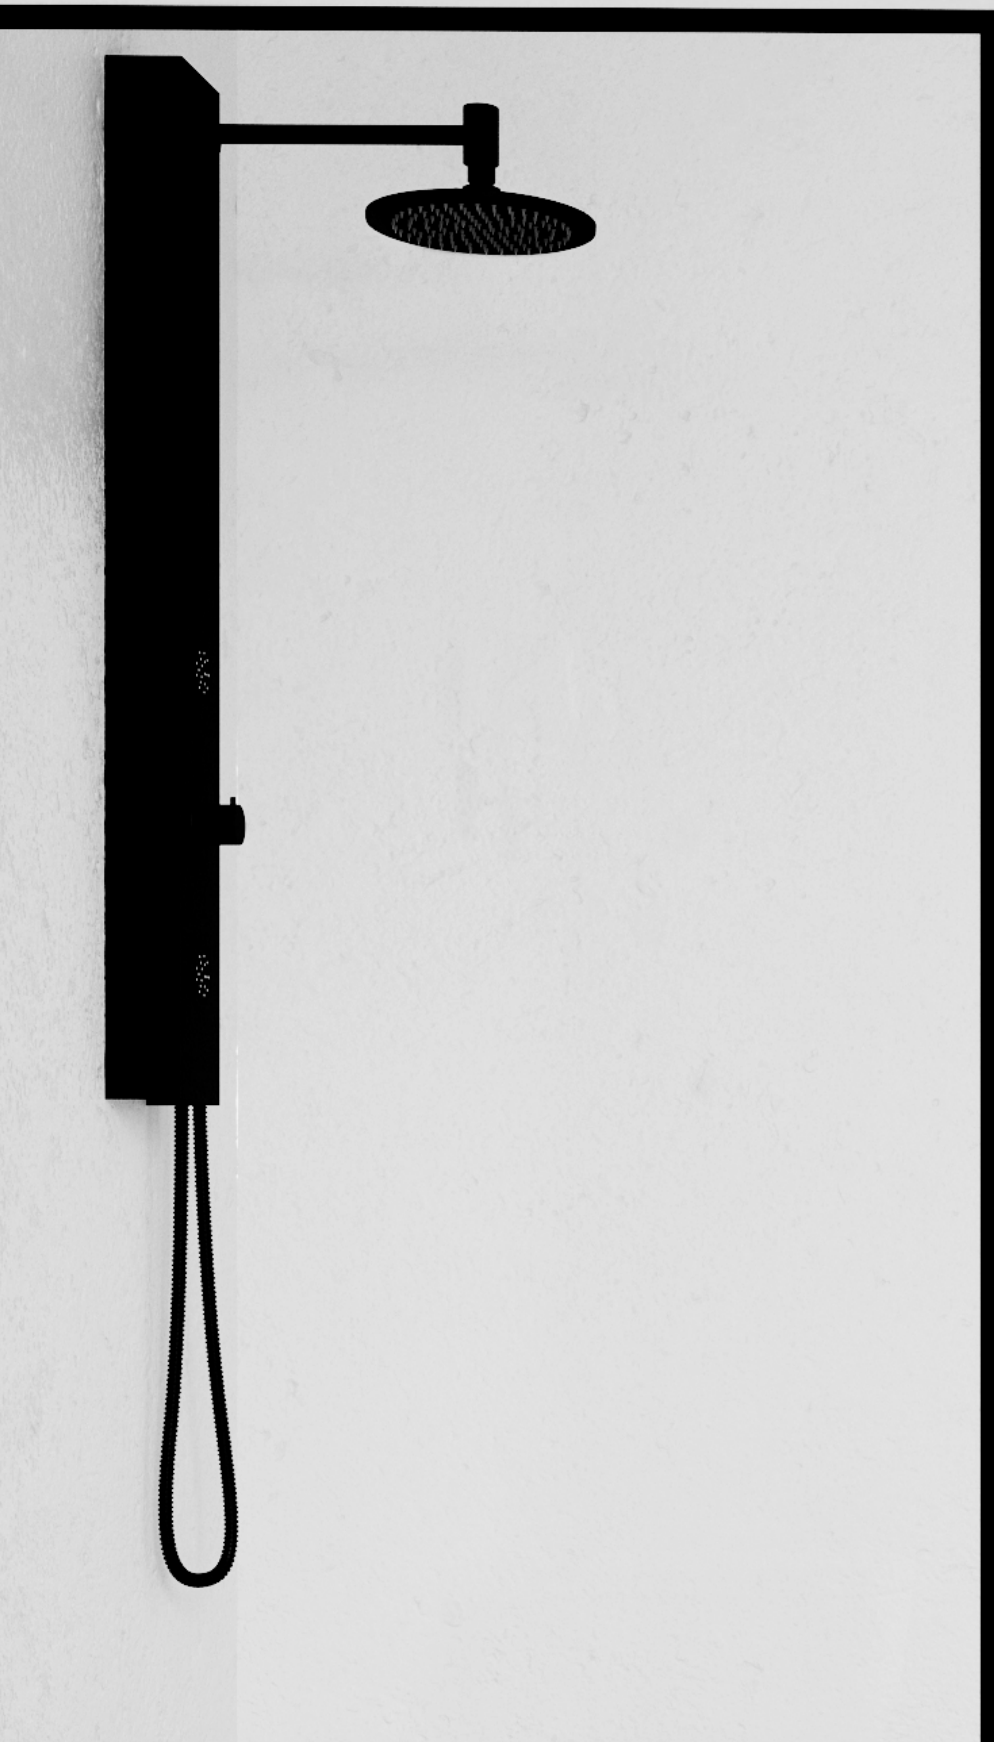

DOWN TO THE DETAILS

Built-in scald guard to prevent burns. Thermostatically balanced valve and back flow prevention.
